Dear Mayor Donley and Members of City Council:

The Historic Alexandria Resources Commission met on March 20 and voted unanimously to support a comprehensive study of all possible sites for a future Visitor's Center. The Commission now includes representatives of all historic/cultural properties open to the public on a regular basis as well as representatives from all planning areas of the City and therefore represents a very large portion of the groups concerned with a future Visitor's Center.

Sincerely,

Elaine Johnston
Chair
