

Windmill Hill Park

2(b)
2-22-03

We, the undersigned, support the Windmill Hill Park Task Force's plan for the organization of the park...to wit: Keeping the park's dog exercise area in the same location it has been for the past 30+ years, and leaving the park's volleyball court in the vicinity of its location for the past 30+ years. Furthermore, we support the realignment of the trail from the Wilkes Street Railroad Tunnel to South Union Street as it is depicted on the Task Force's final plan for the park, not the City Council's new serpentine alignment. And finally, we urge that any money that can be saved by deleting the planned construction, operation and maintenance of the Council's proposed new dog exercise area be returned to the City Treasury to be used for general park maintenance throughout the city during these times of financial stress.
