## I. DISCUSSION

### REQUEST

The applicant, Eat Good Food, LLC, requests a special use permit amendment to enclose the existing outdoor dining area and a modification of the zone transition setback at an existing restaurant.

### SITE DESCRIPTION

The subject property is one lot of record with 33 feet of frontage on S. Pitt Street, 95 feet of depth and a total lot area of 5,551 square feet. The site is developed with a three-story commercial building, where Restaurant Eve currently occupies the first floor. The proposed patio enclosure is a 10' by approximately 30' area at the back of the restaurant, where outdoor seating currently exists.

The surrounding area is occupied by a mix of commercial and residential uses. Immediately to the north is hotel. Immediately to the south is a small office building, and residential uses further south. To the east and west are commercial uses.

### BACKGROUND

On December 18, 1976, City Council granted Special Use Permit #1096 to Jurgen and Carol Meir to operate a restaurant on the first floor of the subject building. Then on June 7, 1994, City Council granted Special Use Permit #1096-A to Farthings Limited, Inc., amending the conditions of the special use permit to add seats, extend the hours, allow on-premise alcohol sales, and allow live entertainment for the restaurant "Santa Fe East." Only July 17, 1995, City Council approved Special Use Permit #95-0058 for a review of the restaurant. In June 2003, staff approved Special Use Permit #2003-0056 to change the ownership of the restaurant to Eat Good Food, LLC, who since that time has been operating Restaurant Eve.

On May 24, 2006, staff visited the subject property to determine if the business was in compliance with the conditions of its special use permit. Staff found no violations of the special use permit, except that the applicant is unable to participate in the Park Alexandria Program because it no longer exists. According to the applicant, patrons are encouraged to use the parking garage across the street. Staff is not aware of any complaints regarding the existing restaurant.

### PROPOSAL

The applicant proposes to enclose an existing outdoor seating area at the back of the restaurant. The enclosed area will total approximately 290 square feet, and will be used for seating. The applicant

proposes to maintain the 138 maximum indoor seats that are currently permitted as the existing restaurant is well below this number with only 104 indoor seats. The applicant anticipates that approximately 16 chairs can be accommodated in the expanded area.

The proposed addition is located within the required 25-foot Zone Transition setback from the RM zoned property fronting on Prince Street, and the applicant requests a modification.

No other changes to the restaurant are proposed, including the hours of operation which are approved as 11:00 a.m. to 11:30 p.m. Sunday through Thursday, and 11:00 a.m. to 12:30 a.m. Friday and Saturday. Live music is permitted, limited to performances by solo musicians providing background music only. However, the applicant currently is open only until 10:00 p.m. during the week and 10:30 p.m. on Fridays and Saturdays, and does not offer live entertainment.

#### PARKING

The subject property is located in the Central Business District (CBD). Section 8-300(B) of the Zoning Ordinance does not require restaurants in the CBD to provide parking.

#### ZONING/MASTER PLAN DESIGNATION

The subject property is located in the CD/Commercial Downtown zone. Section 4-503(W) of the Zoning Ordinance allows a restaurant in the CD zone only with a special use permit.

Section 7-902 (A) of the Zoning Ordinance requires that no commercial building be located within a distance from the nearest residential zone line equal to the height of such commercial building or 25 feet, whichever is greater. In this case, the proposed addition is only 10 feet tall, therefore must be at least 25 feet from the nearest residential zone line. The proposed addition is 1' 6" from the adjacent RM/Townhouse zone, which requires the proposed modification.

The proposed use is consistent with the Old Town Small Area Plan chapter of the Master Plan which designates the property for commercial use.

## **II. STAFF ANALYSIS**

Staff does not object to the proposed enclosure of the outdoor seating area. The addition will have little impact on the existing operation as the number of seats, hours of operation, and other aspects are not proposed to change.

Regarding the zone transition setback, the Zoning Ordinance requires increased setback for commercial buildings proximate to residential zones so that property in the residential zone is not adversely affected. In this case, the area of the addition is already permitted to be utilized for outdoor seating, which has some potential impacts including noise and odors. The enclosure will reduce impacts from seating in this area. The proposed addition will not intensify the restaurant

beyond what is already approved as the number of seats and hours of operation are not proposed to change. Furthermore, the addition is approximately .75 feet farther from the RM zoned property than the existing building, and fronts on to an unoccupied accessory structure on the residential property to the south. While loss of open space may be a concern generally, the subject space is already a concrete slab that is not visible from the public right-of-way, and is separated from the residential zone to the south by a tall wood fence. Finally, the addition is proposed to be only 10 feet tall and with no windows facing south, so will not invade privacy by looming over the residential property. Therefore, staff finds that the addition will not create an adverse impact on the adjacent residentially zoned property, and does not object to the modification.

Staff has updated and added conditions, including requiring participation in any coordinated parking program established as a result of the recommendations of the King Street Retail Strategy, to replace the condition requiring participation in the Park Alexandria program.

With these conditions, staff recommends approval of the permit.
