Honorable Mayor William D. Euille
and Members of the Alexandria City Council
and the Office of Legislation
City Hall
301 King Street
Alexandria, Virginia 22314

The Legislation and the Judicial system should sit some type of questioner for security guards and that it should be mandatory that each Security Guard should be given a test by the Police Department within a three month period from the time of hire and sign to an area of employment in the City of Alexandria and paid by the Security Guard to the Police Department for reason that Security Guards are hire to protect and keep the peace, give one a sense of a peace of mind where one may reside or shop., not of corruption and misconduct. the question should be base on issues such as false incident report, sexual harass, false incrimination, obstruction of justice, and or misleading/lured anyone in signing any form when all information not completed that would incriminated a person or barred from a location and or property, any act of corruption etc. that which mislead the Police Department, Courts system of false information in any case?.

The judicial system it self has been manipulated by Security Guards cause of its color of uniform and title armed with a weapon which does not give them the right to commit crime and get away with it. their act should not go unnoticed through the system of law and should be equal process as an criminal for their unethical conduct., The Police Department of Alexandria Virginia seem not to press the issues of subject against a Security Guard, there are case's that a judge never get to hear cause of this problem by the Officer report and that which a magistrate seem to go by where in fact a case for Commonwealth of Virginia. Security Guards should be held accountable for their action of corruption especially when one is license to carry a weapon...

By this cost of pay to the City of Alexandria Police Department would help out with funds that's in need for supplies and etc., But most of all it would help to put a stop to the false report and the corruption of misconduct and manipulation of act committed by a license Security Guard to carry a weapon.

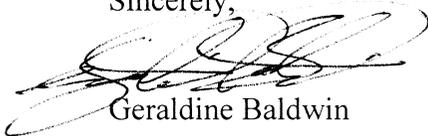

I hear of complaints of sexual harass and etc. people/ residents do feel there will be nothing done to the fact cause of Security Guard title and in so many ways I my self agree with them cause of my own past experience of physical assaulted by an armed Security Guard whereas the Officer of the Alexandria Police Department did not push the issues of an Court case in the month of February year of 2002 that left me as of to day with an back injury of cervical spasm and that this Security Guard committed an act of

obstruction of justice by given the Officer false information and that of a lie of what happen whereas he did assaulted me bodily harm the Officer felt it wasn't nothing to it after the fact that I was assaulted in an elevator, this was a case should have been in the

Courts system of Commonwealth of Virginia... Since then I have reported incident to the Alexandria Police Department regarding Security Guard act of corruption in the year of 2003 and as of today it still the same the lie's seem to get the approval by an Officer and it only gives me a understanding of the law enforcement way a sense of stereotype cause of where one he or she may live or is it racial and or it's a title of armed with a weapon and its uniform that gives a person of truth no chance to be heard but only through a law suit that isn't the answer of justice when one has the right to seek justice to process of equal rights and all the same be put to an end cause of a title or uniform that only give the good guys a bad name of a title then just a want to be cop.

All my complaints to the Alexandria police Department has been true and fact enough for a court case but each time the Officer of the Alexandria Police Department did not feel that it was a case even in the year of 2002 when I my self requested for the case to be reopen the second Officer did find out that the person I had press charge against did admit that he put his hands on me when in fact that the first Officer did not even get to that point but all the same the guy got away with the crime by to me all uniform in so many ways look out for one another and I can not put it any other way but to ask of the Legislation of the Judicial System to pass a ruling that it be mandatory for all Security Guards that employee throughout the City of Alexandria Virginia in any form of capacity be given a test through the Police Department and that each of as a criminal should be equal process for their unethical conduct of corruption and obstruction of justice.

Sincerely,

A handwritten signature in black ink, appearing to read 'Geraldine Baldwin', with a large, stylized flourish at the end.
