Docket Item #10
SPECIAL USE PERMIT #2007-0094
CARLYLE SPECIAL USE PERMIT-BLOCK P

Planning Commission Meeting
October 2, 2007

- REQUEST:** Consideration of a request for an amendment to the Carlyle special use permit approval to revise the design guidelines for Block P.
- APPLICANT:** Carlyle P, LLC
by Jonathan P. Rak, attorney
- STAFF:** Jeffrey Farner, Division Chief, Development
Jeffrey.Farner@alexandriava.gov
Natalie Sun, Urban Planner, Development
Natalie.Sun@alexandriava.gov
- LOCATION:** 1800 Eisenhower Avenue
- ZONE:** CDD-1/Coordinated Development District (Carlyle)

PLANNING COMMISSION ACTION, OCTOBER 2, 2007: On a motion by Mr. Komoroske, seconded by Mr. Jennings, the Planning Commission voted to recommend approval of SUP #2007-0094, subject to compliance with all applicable codes, ordinances and staff recommendations with an amendment to condition 70A(m) as outlined in the correspondence dated October 7, 2007 from McGuire Woods. The motion carried on a vote of 7 to 0.

Reason: The Planning Commission agreed with the staff analysis and found the proposal to be consistent with the intent of the Eisenhower East and Carlyle Plans. In addition, the applicant agreed to make a good-faith effort to obtain a construction schedule from Carlyle Development Corporation for the John Carlyle Square Park. The good-faith effort was requested by the Commission to address the concerns that the park is not being constructed in a timely manner.

Speakers:

Jonathan Rak, attorney, representing the applicant.

SUP #2007-0094

10/02/07

I. EXECUTIVE SUMMARY

The applicant is requesting an amendment to the Carlyle special use permit for Block P to allow approximately 95 percent (372,000 sq.ft.) of the total permitted floor area (396,191 sq. ft.) for all of Block P to be constructed entirely on the western portion of the block. Because Block P is a prominent gateway to Carlyle and Eisenhower East – thus requiring heightened sensitivity to design, mass and scale elements – this issue is potentially problematic though not insurmountable, as long as it is addressed by conditions and requirements that are detailed below.

As a gateway to Carlyle, it is critical that both the western and eastern portions of Block P are built as envisioned in the Plan to be compatible with the mass and scale envisioned for Block O, the Block located immediately to the north, also flanking Eisenhower Avenue. The eastern portions of both Block O and Block P are intended to be of a lower scale than those in the rear, and are intended to reflect a crescent design flanking the front of the larger scale buildings behind. As part of the gateway element, the Carlyle Design Guidelines call for a *minimum* height requirement on the front, eastern portions that cannot be achieved if 95 percent of the allowed floor area is placed on the rear, western portion of Block P as requested by the applicant.

The current request requires an amendment of the Carlyle special use permit. A future request will be a transfer of approximately 80,000 sq.ft. of floor area to the eastern portion of Block P. An amendment and the ensuing transfer would allow and ensure the

Carlyle and Eisenhower East Blocks

Eisenhower East Gateway – view from Holland Lane

Block P West and East Blocks

future construction of the minimum 80 ft. tall building(s) currently required by the Design Guidelines on the eastern portion of the block, to complete the gateway element as envisioned.

In addition, the proposed amendment will result in the western building being approximately three levels (approximately 30 feet) taller than the building would be if the floor area was not utilized from the eastern portion of the site. The proposed density is not a problem; however, precluding building height on the eastern portion of Block P and/or ensuring subsequent transfers of density does raise some concerns, as outlined below.

Proposed Block P west building – John Carlyle St. view

A. Impacts on this Gateway Building - Location

The site is located at the visually prominent gateway entrance to the Eisenhower East/Carlyle corridor on Eisenhower Avenue. The applicant’s proposal is for a 372,000 sq.ft. or an approximately 16-story commercial building with first-floor retail for the western/rear portion of the block. Unlike many other zoning or areas of this City, this block requires a *minimum* height on the eastern block to create a gateway entrance into the Eisenhower East area consistent with the intent of the Eisenhower East Small Area Plan (EESAP). The proposed use of almost all of the floor area on the western block, would preclude implementation of the approved Design Guidelines to construct a minimum building height of 80 feet on the eastern block. While implementation of the Carlyle Design Guidelines and the EESAP for a minimum building height cannot be achieved on the eastern block, the applicant contends that there is, or will be “unutilized floor area” within Carlyle or Eisenhower East that can be transferred to Block P.

Block P Design Guidelines height requirements

Proposed Block P west mixed-use building and approved Block 27 residential project

B. Transfer of Floor Area

The applicant has stated that “unused floor area” may be available from the Federal Courthouse (Block I) or future unused floor area may be available from Blocks 27, 29 or 30. Blocks 29 and 30 may have unused floor available due to the ongoing condemnation proceedings being processed by the Alexandria Sanitation Authority as discussed in more detail below.

While transfers of floor area are permitted both within Carlyle and Eisenhower East, floor area cannot as easily be transferred between Carlyle to Eisenhower East. The transfer of floor area within Carlyle would be permitted with subsequent approval of a special use permit amendment approved by the Planning Commission and City Council. A transfer of floor area from Eisenhower East to this block within Carlyle would require technical and complex zoning amendments but would be possible with subsequent special use permit or other applicable approvals by the Planning Commission and City Council.

While there are mechanisms or technical approaches to transferring floor area at some subsequent date, with discretionary approval by the City, this current application is not requesting approval of these transfers. Rather, the proposed amendment requested by the applicant proposes to amend the Design Guidelines to allow approximately 95 percent of the total floor area to be used on the western block with the understanding that at some point in the future “unused floor area” from Carlyle and/or Eisenhower East would be transferred to Block P, to permit the implementation of the gateway building envisioned by the Eisenhower East Plan.

C. Conclusion:

This issue of allowing the floor area to be transferred at some time in the future is both a land use policy and urban design issue. When the applicant initially requested the use of almost all of the floor area on the western block, staff indicated that because this approach would preclude implementing the *minimum* height on the eastern portion of the block required by the Planning Commission and City Council, the proposal would require a special use permit amendment. Because there is an urban design component to evaluate the increased height on the western portion of the block, staff worked with the applicant and the Carlyle Design Review Board to evaluate the increased mass and scale. Both staff and the Board found that the increased height and scale are consistent with the intent of the Eisenhower East Plan.

The other fundamental issue is whether the ability to transfer floor area between Carlyle and Eisenhower East will adversely impact the intent of the Eisenhower Plan and this gateway to Eisenhower Avenue. The worst case scenario would be that additional floor area would not be transferred to the site and the eastern portion of the site would remain vacant, or the applicant would request a rezoning (although staff does not think this would be a likely outcome).

Rather, it is anticipated that through future transfers from adjoining blocks, the eastern portion of the block will be developed as envisioned, and since the floor area will be “transferred,” the mix of office and residential use will be maintained and the density will be within the amount already approved by the EESAP. Based on the compatibility of the mass and scale and the likelihood of future transfers, staff is recommending approval of the application, subject to the following:

- Annual reporting to the Planning Commission and City Council on the status of transfers to the site;
- LEED certification for the office building;
- Coordination with the open space to the south; and
- Unified coordination of the retail parking signage.

While staff is recommending approval, any subsequent transfer of floor area will require a special use permit and will need to be evaluated on the merit and impacts of the proposal, including all necessary conditions such as those for public benefit.

II. BACKGROUND/HISTORY CARLYLE:

The intent of the Carlyle Plan as approved in 1990 was to “create an active, vibrant area of the City with an environment of unsurpassed quality.” To achieve this goal, the plan proposed “the creation of a development with a mixture of uses and a design which is more urban than suburban in nature; a place where the pedestrian environment is paramount; and a place where a variety of landscapes, streets, open spaces, and buildings... contribute toward a unique sense of place, making the area both distinctive and compatible with the surrounding City.”

The Plan extended the existing street grid into Carlyle, creating 15 blocks (Blocks A through O) on the north side of Eisenhower Avenue, and a 16th block (the subject site of Block P) on the south side of Eisenhower Avenue. Design standards were established for the development as a whole, with more detailed design guidelines approved for each block. The Carlyle Development Plan was not intended to be a static document – the original intent was to allow it to be amended, evolving over time to provide the best community possible while adapting to changing surroundings and the specific uses and building designs established within the development. While the original plan has been amended numerous times over the years (most recently by SUP #2006-0042), the original plan goals have generally been maintained. *Table #1* below provides a summary of all the applications and amendments to the Carlyle Plan.

Overall Carlyle Plan and Block P

SUP #2007-0094
CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

Table # 1
Carlyle Applications and Amendments

Case Number	Date of CC Approval	Description
SUP 2253	4/18/90	Application for multi-phase mixed-use development project.
SUP 2254	4/18/90	Transportation Management Plan
Administrative Approval	5/30/90	Revision to the block-by-block table of gross square footage to increase the proportion of residential uses from the level proposed by the applicant to the level approved by City Council.
SUP 2253E	5/13/93	Increase by 5,000 gsf the residential component at Carlyle for the purpose of the Lipnick elderly housing.
Administrative Approval	12/30/93	Shift of additional residential space to Block A from other blocks and shift of retail space from Block A to other blocks.
SUP 2253H	6/18/94	Conversion of 7,500 gsf of retail space to residential space for the purpose of the Lipnick elderly housing and clarifying minor amendment procedures.
SUP 95-0168	12/16/95	Changes to Block E design guidelines and a reallocation of uses among blocks at Carlyle.
SUP 96-0089	6/15/96	Conversion of 120,000 gsf of retail density to office and residential density and changes to require design review for Block C.
SUP 96-0092	6/15/96	Change to conditions to allow transfer of residential use to office use without further Council approval for PTO, if Carlyle selected by GSA.
Administrative Approval	12/5/96	Revision to Block A to decrease the total residential density by 79,954 gsf and to increase the retail density by 242 gsf (density shifted to and from other blocks).
DSUP 98-0035	2/20/98	Amendment to transfer 15,000 residential square feet from the floating category to Block H.
DSUP 99-0055	3/21/00	Amendment to Conditions, including #60 and #62a, to delete Lipnick elderly housing as a separate line item and return the 112,000 gsf to the residential use category.
DSUP 99-0056	3/21/00	Amendment to allowed building heights, closure of Emerson Avenue and Dulany Street, and exclusion of pedestrian arcades and skywalks from floor area calculation.
Administrative Approval	12/12/01	Revisions to PTO building.

SUP #2007-0094
 CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

Case Number	Date of CC Approval	Description
SUP 2003-0016	6/14/03	Conversion of office and hotel floor area to residential use on Block F, transfer of office space from Blocks F and P to Block G, increase in building height on Block G, transfer of office space from Block F to Blocks J and K, and adoption of Supplemental Design Guidelines for Blocks F, G, J and K, dated May 23, 2003.
SUP 2004-0003	2/21/04	Increase in allowable building height for a portion of Block O.
SUP 2003-0066	3/13/04	Transfer floor area from Block P to Blocks J and K, increase the permitted building height for a portion of Blocks J and K, and change the definition of retail within Carlyle
SUP 2004-0028	6/12/04	Revisions to retail definition.
Minor Amendment	2/15/05	Amendment to transfer 2,600 square feet of office use from Block G to Block E as 1,750 square feet of office use and 850 square feet of retail use.
SUP 2005-0091	10/15/05	Amendment to transfer 5,000 square feet of floor area from Block L to Block O.
SUP 2006-0042	6/17/06	Amendment to the Carlyle Master Plan to approve the Design Guidelines for Block P within the Carlyle development.
SUP 2007-0094*	-	Amendment to use approximately 95% of the permitted floor area on the western block of Block P.

*Current request for approval

III. STATUS OF THE ADJOINING BLOCKS

The currently underdeveloped South Carlyle area will be significantly different in the next several years, and the Block P proposal, with its influx of new employees and ground floor retail, framework streets and open space, will be a critical project in furthering the development of this new neighborhood. A few projects in the South Carlyle vicinity are currently under review or under construction, including Carlyle Centre, a new 5-story residential building on Block 27, residential buildings on Block O, and a Rite-Aid on the adjoining Hoffman Block 25A. Ultimately, the Small Area Plan envisions a series of residential and office buildings on Blocks 24 and 25A that will face Eisenhower Park on one side and the PTO complex on the other, with maximum heights of 200 feet. Virginia Concrete (Block 28) will be required to close operations upon occupancy of Block 27 or Block P, whichever comes first, paving the way for 4-8 story residential buildings envisioned by the EESAP.

A. Status of Alexandria Sanitation Authority Plant Expansion

The Alexandria Sanitation Authority (ASA) has announced plans to expand its wastewater treatment plant onto Blocks 29 and 30 (known as the Hooff-Fagelson tract). The ASA has been in negotiations with the property owner and has made an offer to purchase the property. Those negotiations have not been successful to date; as a result, on June 19, 2007, the ASA filed a petition for condemnation requesting the Alexandria Circuit Court to authorize condemnation of the tract and to determine the fair market value for compensation. The ASA has also filed a master plan amendment and request for Section 9.06 determination to authorize the expansion of the wastewater treatment plant on Blocks 29 and 30. These applications will be heard by the Planning Commission later this year.

The EESAP envisions 512,000 sq.ft. of office floor area and 170,000 sq.ft. of residential floor area for Blocks 29 and 30. The ASA has no plans to use this floor area, even though it will purchase these development rights as part of the property. Since the office and residential floor area will not be built on the wastewater treatment plant land, the floor area will be available for transfer to other sites in the EESAP, including Carlyle Block P.

IV. PROJECT DESCRIPTION:

Block P consists of one currently vacant lot totaling 4.56 acres occupying the southwest portion of the intersection of Eisenhower Avenue and Holland Lane. The approved Design Guidelines create two blocks containing a mix of ground-floor retail and office uses within three buildings.

The west block, housing the proposed mixed-use office building comprises 2.18 acres – nearly half – of the entire Block P tract. A total of 372,000 sq. ft. is proposed for the west building, consisting of approximately 31,000 sq. ft. of retail and 341,000 sq. ft. of office floor area. The proposed building consists of two connected office towers on top of 5 levels of above-grade parking and a single story of retail space. At 16 stories, the south tower stands approximately 183 ft tall. The north tower is 13 stories and approximately 148 ft high. The building reads as two pre-cast clad office blocks with a continuous dark stone base along John Carlyle Street. Visible from the I-495 Beltway, the tallest portion is at the south end of the building, which is designed as a vertically oriented accent element. The Design Review Board discussed the top of the building, which will be visible from the beltway.

Block P west building – view from Capital Beltway

Proposed Block P west building – Eisenhower Ave. view

V. CARLYLE DESIGN REVIEW BOARD

Early this spring, the applicant submitted conceptual architecture plans for the Design Review Board, and during review of the plans, staff requested the floor area figures proposed for the west block. The floor area tabulation requested by staff revealed that the applicant was proposing to utilize floor area from the eastern portion of the site. The remaining floor area with the transfer would be insufficient to construct a building on the east block in compliance with the 80 ft minimum height required by the Design Guidelines. Staff was faced with two possible options:

- Deny the proposal because it is inconsistent with the Design Guidelines approved by the City Council; or
- Evaluate the additional floor area on the western portion of the site to determine if the mass/scale is compatible with the intent of the Guidelines as part of a subsequent SUP amendment.

Staff decided to proceed with review of the project for two primary reasons (recognizing that a subsequent special use amendment would be required) to determine whether the additional 3 levels and associated increase in height would be compatible with the intent of the Design Guidelines and the EESAP. The Block P west building has been reviewed by the Carlyle Design Review Board several times. The building was recently approved by the Board, contingent on a special use permit amendment to permit the majority of the floor area to be used on the western portion of the site.

VI. ZONING:

Carlyle is within an area that is zoned Coordinated Development District (CDD) #1. In addition, Carlyle is governed by special use permit (SUP) #2253, as amended. Development within Carlyle is further governed by Design Guidelines which are adopted for each individual block. As part of the special use permit for Carlyle, a land use allocation table was approved as outlined below in *Table #2*. This amendment would permit approximately 95 percent of the allocated floor area to be allocated to the western portion of the site.

SUP #2007-0094
 CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

Table # 2
Land Use Allocation Table

Block	Office	Residential	Hotel	Retail	GSA	Daycare	Total
A		814,419		4,245			818,664

% of All Uses	57.8%	29.3%	3.3%	3.7%	5.8%	0.1%	100%

VII. STAFF ANALYSIS:

The proposed amendment to the special use permit is essentially a request by the applicant to use almost all of the permitted floor area on the western portion of the block. To not preclude meaningful development on the eastern portion of the site and to comply with the minimum height requirement of 80 feet for this block, a minimum of approximately 80,000 sq.ft. will need to be transferred to the site from Carlyle or Eisenhower East. In addition, the applicant may request a future amendment to the Block

Permitted floor area and unbuildable volume under current proposal for west block.

to acquire more than this amount of floor area through a transfer or even a rezoning, permitted that the resulting buildings comply with what is currently envisioned in the Eisenhower East Small Area Plan.

The proposed use, density, and building scale are desirable for this location though staff has some concerns related to the uncertainty of potential zoning amendments and imminent floor area transfer requests. Reserving 80,000 of office floor area for the mixed-use building on the east block equates to removing 3 floors – 2 office levels and one parking level – from the current west block proposal. The Carlyle Design Review Board and staff have found the Block P massing as a result of the additional 80,000 sq.ft used on the western portion of the site to be compatible with the site's location and the adjoining open space of the African American Heritage Park to the east. The Board also found that placing the greatest height in the building at the southwest corner of Block P was appropriate for three reasons:

- the building's relationship with the proposed future park to its immediate south and the larger open space of Eisenhower Park across the street;
- the distance from adjoining buildings as a result of the adjacent parks and streets; and
- the proximity/visibility of the building from the Capital Beltway.

For the above stated reasons, staff is also supportive of the building massing as proposed in the current scheme.

A future transfer of floor area from Carlyle or Eisenhower East would enable additional floor area on this site but would not increase the floor area within the Carlyle/Eisenhower East area. The plan calls for a 50/50 distribution of the residential and office square footage under the

principle that balancing housing and jobs has a positive effect upon traffic impacts, enabling the vibrant mix of uses and densities envisioned by the EESAP. The applicant is currently investigating several possible sources of “unused floor area” in Carlyle and Eisenhower East, including from the Federal Courthouse (Block I), Blocks K and G, Block 27, and Blocks 29 and 30. Blocks 29 and 30 are the blocks being discussed as potential areas where unused floor area may be available as a result of the ongoing condemnation proceedings being processed by the Alexandria Sanitation Authority. If the available floor area is not used, close to a million square feet of development could be unrealized in the combined Carlyle and Eisenhower East areas.

If Carlyle is any indication, there will likely be unutilized floor area within Eisenhower East. While a future transfer may be a viable option, any future transfer will need to be evaluated based on the merits of the proposal as part of a subsequent special use permit including all necessary conditions.

While staff is recommending approval of the proposed design guideline amendment, the primary staff recommendations are:

- Annual reporting to the Planning Commission and City Council on the status of transfers to the site;
- LEED certification for the office building;
- Coordination with the open space to the south; and
- Unified coordination of the retail parking signage.

A. Annual Reporting

Because of the visual and physical importance of this site and the ground floor retail, staff is recommending that the applicant be required to provide an annual report on the status of the impending transfers for the east block of Block P. This approach will ensure that the applicant continues to pursue transfers to make certain that this important location for office and retail can be realized with good urban design in a timely and comprehensive manner.

B. LEED Certification

At the direction of City Council, the Planning Commission, and as articulated in Council’s Strategic Plan, staff has been incorporating various green and sustainable site and building elements into each development proposal in recent years. This approach has been very effective in providing considerable benefit to the City. As the Planning Commission and Council are aware, staff is evaluating elements such as cost and certification methods for commercial and residential uses and plans to begin meeting with members of the development community and residents. Staff intends to propose a city-wide green building policy for new developments by fall 2007.

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

In the meantime, staff has been working to implement the certification processes for cases such as the proposed North Payne St. residential project and the Fire Station/affordable housing development in Potomac Yard. Staff strongly encouraged the applicant to incorporate site and building elements that would enable the building to achieve 26 points necessary for a LEED certifiable building and the applicant has agreed to this staff recommendation.

C. South Carlyle Square Park

When the design guidelines for Block P were approved, it was anticipated that South Carlyle Square – located south of the western Block P property – would be constructed. A requirement of the special use permit states that “the applicant shall be responsible for improving all open space with amenities such as benches, trash receptacles, special paving, lighting, and landscaping within Block P to encourage its use to the satisfaction of the Director of P&Z and RP&CA.” Since the adoption of the design guidelines, the developer for Block 27 (Trammell Crow) was required to design the entire park and staff has evaluated several park designs. It has become apparent that because of the size and shape of the park, the southern open space portion of Block P needs to be carefully considered as part of the design of the open space. Staff has amended the conditions to state that in addition, “the applicant shall be responsible for ensuring that the design, treatment and materials of the open space on the southern portion of the site shall be integrated with the design of the public park to the south of the site to the satisfaction of the Directors of P&Z and RP&CA. The design of the open space on the southern portion of the site shall be submitted as part of the final site plan for Block P.”

South Carlyle Square – ownership diagram

Since the adoption of the design guidelines, the developer for Block 27 (Trammell Crow) was required to design the entire park and staff has evaluated several park designs. It has become apparent that because of the size and shape of the park, the southern open space portion of Block P needs to be carefully considered as part of the design of the open space. Staff has amended the conditions to state that in addition, “the applicant shall be responsible for ensuring that the design, treatment and materials of the open space on the southern portion of the site shall be integrated with the design of the public park to the south of the site to the satisfaction of the Directors of P&Z and RP&CA. The design of the open space on the southern portion of the site shall be submitted as part of the final site plan for Block P.”

D. Retail Parking

Staff recommends that short-term free parking in the garage be provided for retail patrons, not to exceed 2 hours. In order to foster a unified system for wayfinding, staff is also recommending that the parking signage for Block P be coordinated with ongoing signage/wayfinding efforts within Carlyle and Eisenhower East.

VIII. CONCLUSION:

Staff recommends **approval** of the proposed special use permit amendment and condition # 70A as outlined below.

STAFF: Faroll Hamer, Director, Department of Planning and Zoning;
Jeffrey Farner, Division Chief, Development; and
Natalie Sun, Urban Planner, Development.

IX. STAFF RECOMMENDATION:

Staff recommends **approval** subject to compliance with all applicable codes and ordinances.

Note: **The following conditions are brought forward from SUP #2253, as amended; Condition #70A has been revised.**

A. T&ES Conditions:

1. The construction or initial improvement of all public rights-of-way shown on the applicant's Plat of Subdivision, dated February 20, 1990, including the Black Heritage Park, shall be the responsibility of the applicant. Plans, profiles, and cross-sections, showing typical pavement and sidewalk sections, as well as full construction plans, for any street shown on the subdivision plat which is within or adjacent to the project area and which is to be constructed by applicant, shall be submitted with the final site plan for such construction or improvement and shall be approved prior to the release of the site plan. With the exception of landscaping (see ¶ III-15), the maintenance and repair of streets and sidewalks within public rights-of-way in the project area and of the Black Heritage Park shall be the responsibility of the city. With the exception of landscaping (see ¶ III-15), the maintenance and repair of all other public rights-of-way within the project area (primarily, medians running between the travel portions of streets) shall be the responsibility of applicant.
2. Preliminary plans and profiles for all storm and sanitary facilities for the entire project, together with all appropriate calculations, shall be submitted in conjunction with the first final site plan for the project and approved prior to the release of that site plan. These plans shall show any effects on upstream facilities which are or may be caused by the storm or sanitary lines or facilities serving the site.
3. The existing stone railroad bridge at Hooff's Run shall be retained as an historic 100 year old structure. Without disturbing the bridge, the Applicant shall design and construct, at its sole expense, a bypass structure and storm sewer to accommodate the stormwater flow from a 100 year storm; such design to be in accordance with a plan developed by the City Engineer or as mutually agreed upon by the City and the Applicant.

The Applicant shall stabilize and improve the bridge in accordance with its historic character. This stabilization and improvement shall include the replacement and securing of eroded and loose brickwork and stones, especially along the wing walls, and the clearance and removal of vegetation and trees growing within the walls in a manner which minimizes any disturbance to these walls; the repairing of the northern parapet of the bridge and the installation of handrails along the north and south parapets of the bridge.

The Applicant shall undertake and complete the work required by this condition in a manner which preserves the historical integrity and character of the bridge and its immediate environs, and the work shall be performed to the satisfaction of the Director of Transportation and Environmental Services. Applicant's final design and plans for the work required by this condition shall be submitted to the director for his review and approval.

The construction of the bypass structure/storm sewer and the stabilization and improvement of the bridge shall commence within 60 days after the City has completed the undergrounding of the 230 kv power lines identified in Condition #34 and after the City has made available to the applicant the requisite easement across the property of Virginia Power to the north of the bridge.

Applicant shall dedicate the bridge and adjacent right of way for the extension of Jamieson Street within six months following the completion of the bypass structure/storm sewer and the stabilization and improvement of the bridge as required in this condition.

4. Slope protection and channel improvements shall be provided along Hooff's Run, to the extent specified by the director of TES, to accommodate stormwater flow from the project site. Construction of this protection and these improvements shall occur at the same time the construction referenced in ¶ III-3 takes place.
5. Prior to the removal or abandonment of any existing storm or sanitary sewer on, serving or passing through the project site and except in situations covered by BOCA, a new replacement sewer shall be in place and in service, and all necessary dedications and easements shall have been recorded.
6. A plan and design providing channel protection along the portion of Hooff's Run which is adjacent to the Black Heritage Park and the adjacent cemeteries shall be submitted with the first final site plan for the project and shall be approved by the director of TES before the release of that site plan. Construction of this channel protection shall be the responsibility of the applicant and shall commence within six months of the release of the site plan and thereafter shall be diligently pursued.
7. Preliminary plans for undergrounding utilities throughout the project site, along with the engineering plans and profiles required under ¶ II-5, shall be submitted with the first final site plan for the project, and shall be approved prior to the release of that site plan. No utility facility or component (e.g., electric transformers, switches, inter-connections) shall be located on any sidewalk within the project area, including those (if any) not located within a public access easement, or below such an area in a manner which has any visible or physical effect on the sidewalk (e.g., grates, ventilation shafts), unless expressly approved by the director of TES and, where applicable, adequately screened to the

satisfaction of the director. Nor shall any such facility or component be placed on any vehicular right-of-way within the project area. Unless otherwise expressly approved by the director of TES, all utility facilities and components within the project area shall be located within project buildings and, where applicable, screened, to the satisfaction of the director, from the view of persons using a public right-of-way or pedestrian area within the project area.

8. Any traffic signalization proposed by the applicant and any signalization required by the director of TES shall be shown on the final site plan for the portion of the project area in which the signalization is to be installed. The acquisition and installation costs of any traffic signal or signalization approved or required by the director shall be the responsibility of the applicant, and payment of such costs shall be made to the city prior to the release of the site plan. Any signalization approved or required by the director as part of a final site plan shall be installed and properly operating prior to the issuance of a certificate of occupancy for any building which, in the director's view, is to be served by the signalization.
9. Specifications and associated calculations for the lighting of streets and other public rights-of-way and for the areas to be developed within the project area shall be submitted with final site plans. Prior to the release of any final site plan, the lighting for all streets and development areas covered by the plan shall be approved. In addition, light fixtures and poles proposed for streets and other public rights-of-way shall be identified in final site plans and shall be approved by the director of Planning and Community Development prior to the release of any plan. All fixtures located on or along streets and pedestrian access areas shall be uniform throughout the project area. The acquisition and installation costs of all lighting within the project area, including on public rights-of-way, and along the streets adjacent to the project area which the applicant is responsible for enlarging or otherwise improving (see ¶ II-5) shall be the responsibility of the applicant, and a bond in the amount of such costs shall be made to the city prior to the release of the site plan showing such lighting.
10. The names of all streets, within the project area shall be approved by the City's Planning Commission.
11. No demolition shall occur within the project area without a demolition permit issued by the city's Office of Code Enforcement.
12. All buildings constructed within the project area shall be protected against methane gas in a manner approved by the director of TES or his designee. Applicant shall study the economic alternatives for using methane gas from the project area and shall furnish a report to City Council within four months of the date of approval of this permit.

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

13. Prior to the release of any final site plan for any area within the project area, an analysis of the soil within the project area as well as of the groundwater below the project shall be submitted to the Virginia Department of Waste Management and the city, and a remediation plan meeting all requirements of that department and the Virginia Water Control Board, and agreed to by the directors of TES and the city's Department of Health ("DOH") and the applicant, shall be finalized. Unless otherwise required by a remediation plan, all remediation work in any portion of the project area required either by the Department of Waste Management, on the basis of the analysis submitted by applicant or otherwise, or by any other governmental entity having regulatory jurisdiction over such soil, groundwater, surface water or sediments, shall be completed in a manner found acceptable by the department or such other governmental entity prior to the release of any grading, building or similar permit for that portion of the project area.
- 13A. Also prior to the release of any final site plan for any area within the project area, the applicant shall have initiated contact with the United States Army Corps of Engineers and the Virginia Marine Resource Commission regarding the potential jurisdiction of those agencies over any of the applicant's proposed activities with respect to the project area. All necessary authorizations of both agencies shall be obtained by the applicant before the release of any grading, building or similar permit that could allow activities subject to the jurisdiction of either agency.
14. No interim parking of vehicles shall be permitted on vacant land within the project area without a special use permit, except that construction and worker vehicles may be parked on such land with the approval of the director of TES.
15. All landscaping within all public parks, and within all public street easements and public street medians shall be provided and maintained, including its replacement, by CDC and its successors with the following exceptions:
 - Landscaping within the Block A park shall be maintained and replaced by the City.
 - Any additional landscaping added by the City within the African American Heritage Park or the Block A Park after their dedication to the City shall be maintained by the City.
 - The replacement of any landscaping which is damaged or destroyed due to catastrophic weather events, or due to traffic or other such accidents shall be the responsibility of the City.
16. Maintenance of George's Lane shall be the responsibility of the City upon acceptance by the City of the street. (SUP97-0157)

17. A detailed soils report, together with recommendations for sheeting and shoring, excavation and foundation design, shall be submitted with each final site plan and shall address the construction proposed by the plan. No site plan shall be released until applicant's plans for sheeting and shoring, excavation and foundation work have been approved. See ¶ III-83.
18. All buildings within the project area and all individual residential units, retail establishments, offices and other uses within those buildings shall be designed to accommodate the separation of waste materials (e.g., office paper, glass, plastics, newspapers, metal) to facilitate their collection and recycling.
19. A permanent storage area, no smaller than 20 feet by 20 feet, shall be provided within the project area for the short-term placement by the city of sweeper debris. The area shall be made available to the city after certificates of occupancy have been issued, in the aggregate, for 1 million square feet of office space in the project area. The storage area shall be easily accessible by street sweeping and debris removal equipment, and may be incorporated in the waste disposal area of a building within the project area.
20. Trash receptacles, of a design approved by the director of TES, shall be provided along streets within the project area at locations approved by the director. Applicant shall be responsible for the initial acquisition, the maintenance and, where required, the replacement of all such receptacles.
21. Each townhouse constructed within the project area shall be designed to accommodate the refuse can utilized at the time in the city's "Super Can" refuse collection program. Applicant shall be responsible for purchasing from the city at least one such can for each townhouse at the time a building permit for the townhouse is submitted.
22. Condition 22 is intentionally deleted.
23. Bus shelters, designed to the satisfaction of the director of TES and the Alexandria Transit Company ("ATC"), shall be constructed throughout the project area at locations determined by the city, ATC and applicant. The costs of constructing all such shelters shall be the responsibility of the applicant. In addition, the maintenance of all such shelters shall be the responsibility of applicant.
24. The intersection at Duke Street and Diagonal Road shall be modified, to the satisfaction of the director of TES, to restrict motor vehicle travel between the project area and the King Street Metro Station to busses only.
25. A pedestrian tunnel under Duke Street from the west side of Dulany Street to the west side of Diagonal Road and related items shall be designed and constructed, or in the case of some related items reconstructed, by the applicant at its sole expense to the satisfaction

of the Directors of T&ES and P&Z. The related items shall consist of adjoining sidewalks, medians and the plaza at the Crescent Park, as well as lighting, gates, signage, security features and a kiosk or similar structure. No construction north of Duke Street shall be required except the minimum necessary to connect with the north side of the Duke Street right-of-way. Construction of the tunnel shall be completed by December 31, 2003 unless the U.S. Patent and Trademark Office relocation to Carlyle does not proceed, in which case the construction of the tunnel shall be completed by a date to be determined by City Council. Upon completion of construction of the tunnel and acceptance of the tunnel by the City, the City shall assume full responsibility for the tunnel, including all maintenance and liability, except that CDC and its successors or assigns acceptable to the City shall be responsible, at its or their sole expense, for providing cleaning/custodial services for the tunnel and for the costs to provide security for the tunnel. The City Manager shall determine the type and extent of security to be provided in the tunnel. The City Manager shall also determine the hours of operation for the tunnel. Funds for tunnel security may come from the TMP account for Carlyle, to the extent such funds are not otherwise obligated under paragraph 2 of the TMP.

26. Prior to the release of the first final site plan for the project area, applicant shall pay to the city \$100,000 as a contribution towards construction of a pedestrian connection between the King Street Metro Station and the adjacent commuter rail train station.
27. Lot 514, as shown on applicant's Plat of Subdivision, dated February 20, 1990, shall be dedicated to the city within 6 months of the release of the first final site plan for the project. Within 6 months of the release of this site plan, all rails, ties and other track elements shall be removed from this land and from the land owned by the city and by the Norfolk Southern Railroad which lies to the south of Duke Street and the east of Holland Lane. Following the removal of all track elements from the land described in this paragraph, but no more than 6 months after the release of the first final site plan for the project, all such land shall be graded, to the satisfaction of the director of TES, to provide adequate drainage.
28. All sidewalks within the project area, whether or not located within a public right-of-way, shall be constructed of brick and shall conform to all City of Alexandria construction standards.
29. All driveways entering a parking garage within the project area shall be aligned, to the satisfaction of the director of TES, to minimize conflicting vehicle movements. the location and width of each driveway entrance shall be shown on a final site plan. Each such driveway shall provide one entrance and one exit lane for every 500 parking spaces, or portion thereof, within the garage it serves. Thus, for instance, the driveway serving a parking garage of 1,300 spaces shall have a minimum of 6 lanes--3 for ingress and 3 for egress. However, with the approval of the director of TES, lanes may be made reversible, thereby reducing the number needed to be provided.

30. All on-street parking controls and restrictions within the project area shall be determined by the city. Any such controls and restrictions which applicant desires shall be shown on its final site plans. Any parking meters which are placed on public rights-of-way within the project area at applicant's request shall be acquired and installed, in accord with city specification, by applicant.
31. Any special paving materials which applicant decides to utilize within the project area for pedestrian crosswalks across public streets shall be approved by the director of TES and shall be purchased, installed, maintained and, if needed, replaced by applicant. Following the release of the first site plan for the project area which includes office or residential buildings, applicant shall, at all times, store at least 1,000 such pavers within the project area.
32. Holland Lane between Duke Street and Eisenhower Avenue shall be widened by applicant at its sole expense to four undivided lanes with curbs and gutters, sidewalks along both sides of the right-of-way, street lights and landscaping. Engineering plans and profiles for this widening shall be submitted with, and shall be approved prior to the release of, the first final site plan for the project area. See ¶ II-5. Construction of this widening shall commence within 6 months of the release of such site plan and shall thereafter be diligently and continuously pursued until completion.
33. Eisenhower Avenue shall be extended by applicant at its sole expense from Hooff's Run Drive to Holland as a four lane divided roadway with curb and gutters, sidewalks along both sides of the right-of-way, street lights and landscaping. Design and engineering plans and profiles for this widening shall be submitted with, and shall be approved prior to the release of, the first final site plan for the project area. See ¶ II-5. Construction of this widening shall commence within 6 months of the acquisition of all necessary land rights and shall thereafter be diligently and continuously pursued until completion.
34. The City of Alexandria shall underground the 230 kv power transmission lines along Holland Lane from the future location of Jamieson Street to a point approximately 150 feet south of the Alexandria Sanitation Authority bridge. The Applicant shall prepare a level pad site (approximately 70' x 150') at the southern point of this undergrounding and shall make available to Virginia Power any required easements relating to the undergrounding along Holland Lane. This undergrounding work shall be carefully coordinated with Applicant to ensure that it causes a minimum of disruption to other work which Applicant may be undertaking in the vicinity. Commencement of the undergrounding of the 230kv power lines shall begin as soon as practicable. Applicant shall reimburse the City for all costs associated with such undergrounding work in accordance with a schedule of payments to be determined by the Director of T&ES.
35. Condition 35 is intentionally deleted.

36. Modifications to the intersection of North Street and Mill Road shall be made by applicant at its sole expense, as defined by and to the satisfaction of the director of TES. Design and engineering plans and profiles for these modifications shall be submitted with, and shall be approved prior to the release of, the first final site plan for the project area. See ¶ II-5. Construction of the modifications shall commence within 6 months of the acquisition of all necessary land rights, and shall thereafter be diligently and continuously pursued until completion.
37. Modifications to the intersections of Eisenhower Avenue and streets providing access to the project area shall be designed and constructed by applicant at its sole expense, to the satisfaction of the director of TES.
38. No traffic circle at the intersection of Eisenhower Avenue and Holland Lane shall be constructed unless it is designed to the satisfaction of the Director of TES.
39. All intersections of Duke Street and street providing access to the project area shall be designed and constructed by applicant at its sole expense, to the satisfaction of the Director of TES. Engineering design plans and profiles shall be submitted with, and shall be approved prior to the release of, the first final site plan for the project area. Construction of these intersections shall commence either within 6 months of the release of the site plan or by another date determined by the director, and shall thereafter be diligently and continuously pursued until completion.
40. (a) A collector/distributor roadway, generally as shown in a January 29, 1990, document entitled "Draft Justification and Study of Modifications of the Existing Interstate 95 Interchanges, U.S. Route 1 and Telegraph Road Interchanges, Alexandria, Virginia," shall be designed, engineered and constructed along the north side of the Capital Beltway which connects the U.S. Route 1 and Telegraph Road interchanges to the Beltway and provides access to and from Mill Road. If the alignment of this roadway disturbs in any manner the current access which the Alexandria Police Department and Sheriff have from Mill Road to the Alexandria Public Safety Center, any modifications to the alignment of, or other alterations or improvements to, Mill Road necessary to preserve such access, as determined by the Director of T&ES, shall be made. The costs of designing, engineering and constructing this connector/distributor roadway and any such modifications, alterations or improvements to Mill Road shall be the sole responsibility of applicant; provided, however, that applicant's responsibility shall be reduced by any federal or state funding received for the such design, engineering and construction work; and provided further, that any contributions toward this work received by the city from owners or developers of other property in the Eisenhower Valley shall be paid to applicant. The design and construction of the connector/distributor roadway shall comply with all applicable state and federal requirements and standards, and all design and engineering plans and profiles for the roadway shall be submitted to the Director of T&ES for his approval. In the event that the U.S. Patent and Trademark Office relocation to Carlyle

does proceed in whole or in part, substantial construction of the collector/distributor roadway, pursuant to this condition, shall commence no later than July 1, 2003, and shall thereafter be diligently pursued to completion. As used herein, “construction” means the uniting together of construction materials on the site for the permanent, physical structure of the roadway. The applicant has agreed that, in the event it fails to comply with the requirements of the prior two sentences, it shall be subject to an action by the City, filed in the Circuit Court for the City of Alexandria, to enforce the requirements.

(b) No certificates of occupancy shall be issued for any office space located on Block P unless and until construction of the collector/distributor roadway described in paragraph (a) has been completed and the roadway is in operation.

(c) Notwithstanding any other provision in this condition, the requirement for the construction of the collector/distributor roadway described in paragraph (a), and the prohibition against the issuance of certificates of occupancy in paragraph (b), shall not apply in the event that, and for so long as, construction has commenced, and continues to be diligently pursued, of all or part of the Woodrow Wilson Bridge replacement project, said project being described in the Record of Decision issued by the United States Department of Transportation on November 25, 1997 (regardless whether that Record of Decision is supplemented or replaced by a subsequent similar decision document), and including access ramps providing direct access from the inner loop of the Beltway to Mill Road and from Mill Road to the outer loop of the Beltway. This condition shall be of no further force or effect once these access ramps linking the Beltway with Mill Road are in operation.

41. Each building to be constructed within the project area shall be included in a final site plan, meeting all applicable requirements of the city's then existing site plan ordinance and filed with the Department of TES, and no construction of any building may commence until a final site plan encompassing the building has been approved and released by the department.
42. All parking garages shall have clearances, at least on their first parking level, which are adequate to accommodate full-size vans.
43. No structure within the project area shall be constructed at a height, in a location or otherwise in a manner which will obstruct, in any way, the nature or quality of microwave transmissions between the tower of the Masonic Temple, located at the intersection of King Street, Russell Road and Callahan Drive, and the city's Public Safety Center located on Mill Road. Nor shall any construction or other activity within or adjacent to the project area cause any obstruction to such microwave transmissions.

44. Pursuant to applicant's offer, in response to a request for proposals issued by the city in March 1989, to convey land within the project area to the city as the site for a new United States Courthouse and the city's March 18, 1989 acceptance of applicant's offer, applicant shall enter into a contract with the City within 30 days of the decision by City Council, under section 7-6-28(i) of the Alexandria City Code, to grant a special use permit approving a plan of development for the project area, for the conveyance of Block I to the city; provided, that applicant's obligation to convey Block I is contingent upon the city's subsequent conveyance of the block to the United States for construction of a new United States Courthouse.

45. Except as otherwise expressly stated in the code requirements and conditions set out above and in the conditions set out below, applicant shall develop the project area in full accord with, and shall be subject to all narrative statements and drawings made in, its Plan of Development, as defined in ¶ I-1.

B. Recreation Conditions:

46. Within six months of the issuance of this permit by city council, applicant shall contribute \$200,000 to the city for upgrading, maintaining, lighting or otherwise improving one or more athletic fields within the city.

47. Two tennis courts shall be provided within the project on Block A. In addition, a dog run area shall be constructed on the adjoining 2.12 acres of land. The surface for the dog run area shall be the existing mix of gravel and landscaping, with no fewer than ten shade trees planted at locations around and/or within the area to the satisfaction of the Director of RP&CA. Further, the dog-run shall be fully fenced, water shall be provided to the site, and no fewer than four benches shall be provided. The courts and the dog run shall be dedicated to the City for recreation purposes. Once the City accepts the dedication of the courts and dog area, the City shall be responsible for their maintenance.

48. Within 12 months of the approval of a special use permit for the project area, one or more athletic fields shall be constructed on Block P in the project area, in accordance with specifications provided by and to the satisfaction of the director of Recreation and Cultural Affairs. Such construction shall include the clearing and grading of Block P in accordance with specifications provided by the director of Recreation and Cultural Affairs. This athletic field or fields so constructed shall remain the sole use of Block P until the approval and release of a final site plan providing for the development of the block. Applicant shall not be responsible for lighting or maintaining any athletic field on Block P.

49. In connection with all street trees within the project area, below-grade planting troughs, meeting the specifications of the director of Recreation and Cultural Affairs, shall be provided to increase available growing space, and adequate under drainage and soil

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

mixtures shall be furnished. Trees located above parking garages shall be placed in above-grade planting troughs meeting the specifications of the director.

50. A playground shall be constructed in connection with the day care center to be built within the project area. The playground shall meet all specifications of the director of Recreation and Cultural Affairs.
51. (a) John Carlyle Square, Dulany Gardens, The Crescent, Courthouse Square, and the Eisenhower Avenue Rotary are major open spaces which shall be constructed and maintained by the Carlyle Community Association, but subject to a public access easement. The design of these spaces shall be to the satisfaction of the Directors of P&Z and RP&CA who may consult with the DRB. At a minimum, the spaces shall be developed with the level of landscaping shown on the approved development plan. In addition, the following requirements shall be met:
 - (i) John Carlyle Square shall be designed consistent with the proposed Block D guidelines, to include landscaping and hardscaping intended to accommodate informal and formal outdoor events, shows and other activities for workers, residents, retail patrons and visitors to Carlyle, as well as residents of the city at-large. At a minimum, the Square shall include a small stage, fountain or similar design element, tables and benches for eating and playing chess or other games, space for lawn games, irrigation for landscaping and lights. Vendors shall be permitted to operate on the Square generally if approved specifically by separate SUP or, for specific events or activities, if authorized by the Director of RP&CA. The City shall have the right to program use of the Square for up to 10 events per year. Jamieson Street shall not go through the park.
 - (ii) Dulany Gardens shall be developed with lawn and landscaping, pathways, seating, and a fountain, in keeping with the design which has already been approved by the Design Review Board for portions of the park as depicted on the plan entitled 'The Parks at Carlyle, Alexandria, Virginia, Dulany Gardens' and dated 3/03/95.
- (b) The African American Heritage Park and the Block A Park shall be dedicated to the city.
52. Consideration shall be given to the development of an ice skating rink in the Gardens area which would convert to a fountain/pool in the summer.
53. Assistance in the planning of an extension of the bike trail from Eisenhower Avenue underneath the Beltway at Payne Street/Hooff's Run to link up with the Mt. Vernon Trail at Hunting Creek shall be provided.

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

53A. A good-faith effort shall be made by applicant to locate and develop active recreational space at the south end of the Black Heritage Park near the Alexandria Sanitation Authority or elsewhere within the project area.

C. Housing Conditions:

54. At least 40% of the floor area dedicated to residential use, excluding that provided for elderly housing, shall consist of dwelling units with not less than two bedrooms.

54A. Condition 54A is intentionally deleted.

55. Prior to the release of the first site plan for the project area, applicant shall contribute \$2.3 million to the City's Housing Trust Fund. An additional \$2.3 million shall be paid in five equal annual installments on the anniversary date of the first payment of \$2.3 million, with each payment adjusted so that it is made in constant 1990 dollars. Constant 1990 dollars shall be defined according to the Index known as the "U.S. Bureau of Labor Statistics Consumer Price Index For All Urban Consumers: Selected Areas, By Expenditure Category And Commodity And Service Group," for the expenditure subcategory "shelter," for the Washington D.C.-Maryland-Virginia SMSA. In the event the subcategory "Shelter" shall cease to be maintained, the designated category shall be "All Items" of the aforesaid Index. The designated Index and category or subcategory published next before the initial payment of \$2.3 million shall serve as the "base index," and like data published next before each subsequent installment shall serve as the "installment index." Each such annual installment shall be the sum of (i) \$460,000 and (ii) an amount computed by multiplying the sum of \$460,000 by the percent change in the designated CPI Index between the "base index" and the applicable "installment index."

All payments made pursuant to this paragraph shall be placed and retained in a special City fund until a report from staff is received and approved by City Council regarding the manner in which these monies are to be used to subsidize rents and/or home purchases at this project or elsewhere in the City.

56. Applicant shall diligently pursue tax exempt financing, tax credits and other forms of housing subsidies which could be used together with the contributions provided under ¶ III-55 to maximize the number of non-elderly subsidized housing units constructed and occupied within the project area. In pursuing these matters, applicant shall work closely with the City's Office of Housing.

57. A plan for employer-assisted housing options to be presented to businesses leasing or purchasing space in the project area shall be submitted to the city's Office of Housing within 6 months of the issuance of the project's first certificate of occupancy. This plan shall be designed to assist employees working within the project area to reside there or elsewhere within the city.

- 58. First priority for the non-elderly subsidized housing provided within the project area shall be given to households with at least one member who works within the city, including within the project area, and second priority shall be given to households living but not working in the city.
- 59. Applicant shall work with the City's Department of Human Services Private Industry Council and the Urban League of Northern Virginia to develop and implement a job training and job placement program designed to provide training and employment opportunities to city residents with construction, retail, office and other employers working within the project area.
- 59A. The Oliver Carr Company will post notices of job openings (not filled internally) with Alexandria Office of Employment and Training, the Alexandria Urban League, the Virginia Employment Commission, and the Alexandria newspapers and use these entities as a first source for the hiring of engineers, porters, day matrons, security guards, receptionists and secretaries for the buildings managed by Carr within the CNS project. In addition, Carr will provide training for those employees at Carr's expense. It is anticipated that up to 150 to 200 employees will be hired for these positions.

In addition, CNS will educate the office and retail tenants and the hotel operator within the project regarding the services provided by the Alexandria Office of Employment and Training and will provide matching funds up to \$100,000 to any tenant(s) who hire the Alexandria OET to train employees within the project.

D. Vesting, Phasing and Related Conditions:

- 60. Upon issuance of this special use permit by city council under section 7-6-28(i) of the Alexandria City Code and so long as all conditions set out in this permit, including the conditions in ¶¶ III-62, -63, -64 and -65 below, and in the permit issued by council under section 7-6-325 of the city code are satisfied, applicant shall be entitled to develop the project area in accordance with the following schedule of uses and "gross square footage," as that term is defined below:

<u>use</u>	<u>gsf</u>
office.....	1,797,500
office with no more than one parking space per 1,000 gsf...	1,000,000
courthouse.....	400,000
residential.....	3,147,500
hotel.....	300,000
retail and health club.....	258,000
day care center.....	<u>4,500</u>
total.....	6,907,000

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

"Gross square footage" shall mean the sum of all horizontal areas under a roof or roofs, measured from the exterior faces of walls or from the centerline of party walls, excluding (i) penthouses and other structures containing heating, cooling, ventilating and related equipment and not susceptible to storage or occupancy, (ii) areas uses exclusively for the parking of motor vehicles and ancillary areas (e.g., elevator lobbies and shafts, and stairwells, serving such parking areas), whether above or below grade, (iii) attic space less than 7 feet, 6 inches in height, and (iv) areas dedicated solely to pedestrian 'skywalks, arcades, tunnels and bridges' as identified on the preliminary plan for the PTO project, provided that all such connections across public streets shall be underground. In the event any of the conditions referenced above in this paragraph are not satisfied, this permit shall, unless otherwise provided by city council, become null and void as to all development within the project area on which construction has not commenced; provided, that it is understood and agreed that the United States of America (USA) as the owner of Lot 506 within the project area is not subject by law to the conditions herein, and that the failure of the USA as the owner of Lot 506 to comply with this Special Use Permit shall not void, nullify or otherwise invalidate the rights of the Applicant, its successors or assigns to develop the project area, in accordance with this Special Use Permit as amended. At such time, if ever USA conveys Lot 506 to a non-governmental entity, that the owner of the lot and the lot itself shall be subject to the provisions of this Special Use Permit, and the lot shall become a part of the owner's association for the lands subject to this Special Use Permit.

The gross square footage numbers in this condition are all maximum development levels and may be reduced on a block-by-block basis by the applicant as development progresses, notwithstanding the provisions of R-65, and so long as development remains consistent with the overall concept plan for the development and the block-by-block design guidelines, as determined by the Director of Planning and Community Development.

61. Upon the occurrence of any event identified in subparagraphs (a) through (g) below, applicant may request permission from city council to "transfer" gross square feet of development, up to the number of feet specified below for each "event," from the category of "residential" or "office with one parking space per 1,000 gsf" use (the "transferor use") to "office" use (the "transferee use"), subject to the provisions in ¶ III-62; provided, however, that no transfer may occur unless and until the "event" identified in subparagraph (a) occurs and Norfolk Southern has engaged in serious and constructive dialogue regarding the extension of the commuter rail line beyond Manassas as determined by the City Manager. Without council approval of a transfer request made under this paragraph, the transfer from "transferor" to "transferee" use shall not be undertaken. council may deny a request made pursuant to this paragraph upon a finding that the increase in morning or afternoon peak hour traffic traveling to or from, respectively, the project area which will result from the requested transfer (i) exceeds the additional traffic-carrying capacity of the road system serving the project area which will

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

result from the "event" and (ii) will have a significantly adverse effect upon the morning or afternoon peak hour traffic conditions on that road system. In addressing the standard in the preceding sentence, council shall consider, in addition to all other evidence, a study, prepared by a qualified consultant who has been selected jointly by applicant and the city and who is compensated by applicant and the city or, at the city's discretion, solely by applicant, which analyzes and compares the traffic impacts of existing development within the project area and the "transferor" use without the "event," and the traffic impacts of such existing development and the "transferee" use with the "event." Council shall decide a request made pursuant to this paragraph within 60 days of the filing with the city of the consultant study and, if a decision has not been made within that period, the request shall be deemed approved, unless applicant consents to an extension of the 60-day period. "Events" and the maximum number of gross square feet which they will support are as follows:

- a. commencement of construction of the collector/distributor roadway described in III-40: 500,000 gsf
- b. commencement of construction of the Clermont interchange: 500,000 gsf
- c. commencement of construction of the widening of the Wilson Bridge: 500,000 gsf
- d. commencement of construction of the extension of Metro to Springfield: 500,000 gsf
- e. commencement of construction of a flyover from westbound I-95 to Eisenhower Avenue at Stovall Street: 250,000 gsf
- f. initiation of commuter rail operations from Fredericksburg and Manassas to Alexandria: 250,000 gsf
- g. commencement of construction of Eastern Bypass to the Capital Beltway: 250,000 gsf

This paragraph does not limit or affect in any other manner applicant's right to transfer "office" or "office with no more than one parking space per 1,000 gsf" use to "residential" use.

Notwithstanding the foregoing, the applicant may transfer gross square feet of development, up to the number of feet specified for each event, from the category of residential or office with one parking space per 1,000 gsf use to office use, subject to the provisions in condition 62, provided that the General Services Administration selects Carlyle as the new location of the U.S. Patent and Trademark Office. Such transfers may occur regardless of whether the event identified in subparagraph a. above has occurred and shall not require further Council approval. (Amended SUP96-0092)

62. Any transfer of square feet of development to "office" use pursuant to ¶ III-61 is subject to the following limitations and conditions:

- a. At the conclusion of all transfers authorized pursuant to R-61, the project shall not exceed the following schedule of uses and gross square footage:

<u>USE</u>	<u>GSF</u>
office.....	3,989,796
courthouse.....	400,000
residential*	2,024,463
hotel.....	229,334
retail and health club..	258,000
day care center.....	<u>4,500</u>
Total.....	6,906,093

* Residential includes elderly housing
 (Lipnick or other entity approved by the City)

- b. no transfer after January 1, 1995, may result in development within the project area being inconsistent with the zoning regulations then applicable to the area; provided, that the regulations with which the development is inconsistent (i) become effective after January 1, 1995, (ii) are enacted pursuant to a rezoning of at least the area of the city addressed in the city's 1990 small area plan for the King Street Metro area and the Eisenhower Valley, which rezoning applicant, stipulates and agrees shall be a comprehensive rezoning for purposes of judicial review, and (iii) are, in the event of a judicial challenge, sustained by a court of law
- c. no transfer may result in a combination of uses within the project area which is inconsistent with the percentages set out in ¶ III-63 below
- d. no transfer may occur following the failure of applicant to satisfy the conditions set out in ¶ III-64 below
- e. no transfer may result in conditions which are inconsistent with the Plan of Development unless expressly authorized by council. (Amended SUP96-0089)
63. Condition 63 is intentionally deleted.
64. Construction of development, which for purposes of this paragraph includes infrastructure improvements, shall commence within the project area prior to April 18, 1995, and thereafter Applicant shall diligently and continuously pursue completion of all development within the project area. In the event there is no substantial construction activity proceeding on a continuous basis within the project area for more than 24 months, applicant shall be deemed not to have satisfied the requirement that it "diligently and continuously pursue" completion of development within the project area.
65. Minor revisions to the project area's Plan of Development, as authorized by this special use permit, may be approved by the directors of TES and Planning and Community

Development. Major revisions to the Plan of Development may only be approved by city council. The determination whether a proposed plan revision is a "major" or "minor" revision shall be made by the directors of TES and Planning and Community Development; provided, that neither a transfer, request made under ¶ III-61, nor the changes to applicant's original Plan of Development which are necessary to bring it into conformity with the schedule in ¶ III-60 shall be deemed a major revision under this paragraph. In making this "major or minor" determination, the directors shall be guided by the following criteria:

- a. any significant change in the use of a building shall be a "major" revision
- b. any significant change to a building footprint, including one which reduces the footprint, shall be a "major" revision
- c. any significant increase to a building envelope shall be a "major" revision
- d. any significant increase to the square footage of a building shall be a "major" revision

Notwithstanding any other provision in this permit to the contrary, in approving a "major" revision to the Plan of Development which is requested by applicant, city council may, in its sole discretion, adopt other revisions to the development plan, including to the terms and conditions in this permit; provided, that, prior to any council approval of a "major" revision, applicant shall have the opportunity to withdraw its request for the revision.

66. Applicant acknowledges and agrees that any "vested rights" it may have to the use or development of the land which makes up the project area shall arise solely, if at all, under paragraphs ¶ III-60 through ¶ III-65 of this permit, and that no provisions of the Code of Virginia, including provisions which are enacted after the issuance of this permit, shall have any effect upon or applicability to its right or ability to develop such land. Under paragraphs ¶ III-60 through ¶ III-65, upon the issuance of this permit, applicant is vested in the uses and square footages set out in ¶ III-60 so long as applicant complies with all conditions set out in this permit and in the permit issued by council under section 7-6-325; provided that applicant's rights under this sentence shall always be subject to council's authority to modify such uses and square footages pursuant to ¶ III-65.

E. Design Review Conditions

67. A Design Review Board shall be established to review the architectural proposals for buildings within the project area. The Board shall include five members selected as follows: (1) one member of city council selected by council for a three year term beginning the September following the Council election; (2) the city manager or her designee; (3) one citizen member selected annually by City Council; provided, that once certificates of occupancy have been issued for more than 1.5 million gross square feet of development within the project area, this member shall be selected by council from a list of three persons nominated by the association or organization representing residents of

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

the project area; and (4) two members from one or more design professions who shall be selected annually by the above three members and who shall be compensated by the city (which, in turn, shall be reimbursed for such costs by applicant). The Department of Planning and Zoning shall serve as staff to the Board.

68. For all blocks within Carlyle, the Design Review Board:
- a. shall approve the final design of each building to be constructed on the blocks or portions thereof, including but not limited to materials, color and architectural elements, and, in so doing, shall ensure that the design meets all applicable design guidelines in Plan of Development and the urban design policies stated below in this paragraph; and
 - b. may approve minor changes sought by applicant to the design guidelines applicable to the blocks or portions thereof, but may not approve any increase in the height or gross square footage of any building or buildings to be constructed on the blocks or portions thereof or any change in the use or the square footage of any use approved for the blocks or portion thereof.

The urban design policies applicable under this paragraph are as follows:

- * buildings should be oriented toward the street and designed to have a human scale at street level;
- * building design should encourage street vitality by maximizing activity along the street and by creating many openings onto the street;
- * buildings should be articulated vertically, as well as horizontally, in order to break up their mass;
- * building entrances and lobbies should be given architectural prominence; and
- * each building shall be compatible with and enhance the design of adjacent buildings and all other development within the project area.

69. Condition 69 is intentionally deleted.

70. With respect to Block O, applicant's design guidelines are not approved, and the Board:

- a. shall approve new design guidelines which shall provide for the residential development of the blocks and portions thereof at a gross square footage equal to or less than that provided in applicant's design guidelines in the Plan of Development and, in so doing, shall consider the urban design factors stated below in this paragraph;

SUP #2007-0094
CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

- b. shall review and comment on the final design of each building to be constructed on the blocks or portions thereof and, in so doing, shall ensure that the design meets all applicable new design guidelines;
- c. shall approve the materials, color and minor architectural elements of each building to be constructed on the blocks or portions thereof; and
- d. may approve minor changes sought by applicant to the new design guidelines applicable to the blocks or portions thereof, but may not approve any increase in the height or gross square footage of any building or buildings to be constructed on the blocks or portions thereof or any change in the use or the square footage of any use approved for the blocks or portion thereof.

The urban design factors applicable under this paragraph are as follows:

- * the solar orientation of the units;
- * the relationship of the units to open space; and
- * the relationship between residential units and very tall buildings.

70A. **(CONDITION AMENDED BY THE PLANNING COMMISSION)** The development of Block P shall be consistent with the Design Guidelines dated 04/04/2006, the special use permit conditions contained herein the approved transportation management plan, all applicable approvals and the following:

- a. The extension of John Carlyle Street, the construction of the approximately 30 ft. wide portion of the street to the south of the east block and the improvements to Hooffs Run shall be constructed and the street(s) and sidewalks(s) shall be operational prior to a certificate of occupancy permit for any of the building(s) for Block P.
- b. The applicant shall be responsible for a "temporary" emergency vehicle easement (EVE) along the southern portions of the east and west blocks of the property. The EVE shall be temporary until the street(s) on the adjoining block to the south (Block 27) are constructed. At the City's request, the applicant shall dedicate to the City for construction by others the property along the southern portion of the east block of Block P required to complete the construction of the street and sidewalk improvements per the Eisenhower East Small Area Plan (as amended) and shown on the design guidelines for Block P and Block 27. The temporary emergency vehicle easement on the west block shall be removed and replaced with open space when the streets to the south of the block are constructed to the satisfaction of the Directors of Code Enforcement and Planning and Zoning. The applicant shall be responsible for ensuring that the design, treatment and materials of the open space on the southern portion of the site shall be integrated with the design of the public

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

park to the south of the site to the satisfaction of the Directors of P&Z and RP&CA. If the segment of the future east-west Street from John Carlyle Street to the Alexandria Sanitation Authority property has not been constructed by others prior to the issuance of the building permit for the final building on Block P, the developer of Block P will construct this segment at such time as required for fire access prior to the release of the Certificate of Occupancy for such building. This segment shall be built as shown on the design guideline for Block P unless the necessary right of way is not dedicated by Block 27, in which case, Block P shall only construct the 30 foot wide portion of this segment that is Block P.

- c. The applicant shall dedicate the right-of-way for Eisenhower Avenue prior to the release of the final site plan. Alternatively, if requested earlier by the City upon a written formal request by the City, the applicant shall provide the necessary plats, and accompanying applicable documentation necessary for the City to accept dedication of the property by the City within 60 days.
- d. Perpetual public access easement shall be provided for all streets and sidewalks. The street(s) shall contain public access easements or be dedicated to the City as determined by the Director of T&ES.
- e. The amount of retail square footage shall continue to be 53,991 sq.ft and the retail space shall comply with the following:
 - i. A minimum of 15 ft. clear interior heights.
 - ii. A minimum depth of 40 ft. on John Carlyle Street and 60 ft. on Eisenhower Avenue.
 - iii. A portion of the retail space shall incorporate venting systems required for food preparation, exhaust vent shafts and grease traps, service corridors/areas to not preclude the provision for retail and/or restaurant uses.
- f. The above grade parking on Eisenhower Avenue shall be setback a minimum of 30 ft and John Carlyle Street shall be setback a minimum of 22 ft. from the exterior building walls of the first and second floor of the street frontage.
- g. The above grade parking on Hooffs Run Drive shall be architecturally treated to be in harmony with the overall building design and to screen interior lights, ceiling pipes, exposed row concrete etc.
- h. The screening of the parking garages on John Carlyle and Eisenhower Avenue shall be revised pursuant to Condition #102 contained herein
- i. The applicant shall be responsible for improving all open space with amenities such as benches, trash receptacles. special paving, lighting, and landscaping within Block P to encourage its use to the satisfaction of the Director of P&Z and RP&CA.. A public access easement shall be granted over all ground level open space. The open space easement(s) shall be approved by the City prior to the release of the final site plan.
- j. The City shall be responsible for the design and construction of the adjoining "T" intersection, including curb, gutter, sidewalks and street lights and

associated elements. The applicant shall be responsible for the design and installation of landscaping including trees, lawn and an irrigation system to the satisfaction of the Directors of P&Z, RP&CA, and T&ES. The design of the open space-park should be complimentary to the open space-park on the north side (Block O) of Eisenhower Avenue. The maintenance of the park shall be the responsibility of the City.

- k. A freestanding subdivision or development sign shall be prohibited.
- l. The height of retail pavilion shall be 30 ft. tall to comply with condition # 76 as contained herein.
- m. The applicant shall hire a LEED certified consultant as a member of the design and construction team. The consultant shall work with the team to incorporate sustainable design elements and innovative technologies into the project so that numerous building components may earn the developer points under the U.S. Green Building Council’s system for LEED certification. The applicant shall include sustainable elements in design and construction that are sufficient to meet the requirements for seven (7) LEED Prerequisites and include a minimum of 26 LEED points for New Construction credits. The applicant shall register the project with the USGBC as assurance that the project will seek LEED certification. The applicant shall provide documentation and certification to the Department of Planning & Zoning prior to the issuance of the certificate of occupancy for the building. **The applicant shall provide documentation of LEED certification within one year of the issuance of the certificate of occupancy.**
- ~~m. The applicant shall hire a LEED certified consultant as a member of the design and construction team. The consultant shall work with the team to incorporate sustainable design elements and innovative technologies outlined below into the project and achieve with the goal of achieving 20 points towards LEED certification under the U.S. Green Building Council’s systems. The architect shall provide a checklist and specific examples prior to the release of a building permit, to the satisfaction of the Director of P&Z and T&ES which shall include the elements outlined below.~~

Sustainable Sites

- ~~i. Utilize an Energy Star rated membrane roofing that exhibits a high reflectivity. This roof can reduce cooling load, and thus HVAC size, by as much as 10%.~~
- ~~ii. Minimize exterior lighting fixtures. Provide shielding to exterior lights to ensure that there is no direct beam light trespass onto adjacent property lines.~~
- ~~iii. Provide bicycle storage facilities and showers as well as other methods to encourage alternative transportation to the site.~~

Water Efficiency

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

- iv. ~~Utilize native or adaptive plant species for the exterior planting beds and boxes.~~
- v. ~~Provide water efficient fixtures.~~

Energy and Atmosphere

- vi. ~~Perform fundamental building commissioning prior to occupancy to ensure optimal performance of the building's systems.~~
- vii. ~~Minimize the need for artificial lighting for the interior spaces by maximizing day lighting opportunities.~~

Materials and Resources

- viii. ~~Work to reuse salvageable materials from the existing building on site and for leftover building materials upon completion of construction.~~
- ix. ~~Provide centralized recycling collection point(s) within the building.~~
- x. ~~Provide a waste management plan to target a reduction of waste being transported to local landfills.~~
- xi. ~~Where practical utilize materials that have high recycled content, such as steel and concrete with flyash. Purchase locally harvested and manufactured materials where practical.~~
- xi. ~~Provide tenant fit out guidelines to encourage that materials chosen are environmentally sensitive.~~

Indoor Environmental Quality

- xii. ~~Encourage open office spaces with low partitions along the perimeter of the building to maximize day lighting into the space. Encourage the placement of enclosed spaces toward the core of the building and glass partitions or vision panels to take advantage of day lighting.~~
 - xiii. ~~Provide interior finishes such as paint and carpet with low VOC off gassing.~~
- n. The applicant shall submit a wall check to the Department of Planning & Zoning prior to the commencement of framing for the building(s) or parking structure(s). The building and garage footprint(s) depicted on the wall check shall comply with the approved final site plan. The wall check shall also provide the top-of-slab and first floor elevation as part of the wall check. The wall check shall be prepared and sealed by a registered engineer or surveyor. The wall check shall be approved by the City prior to commencement of framing.
 - o. As part of the request for a certificate of occupancy permit, the applicant shall submit a building and site location survey to the Department of P&Z for all

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

site improvements, including the structured parking. The applicant shall also submit a certification of height for the building as part of the certificate of occupancy for each building(s). The certification shall be prepared and sealed by a registered architect and shall state that the height of the building complies with the height permitted pursuant to the approved special use permit and that the height was calculated based on all applicable provisions of the Zoning Ordinance.

a. Within twelve (12) months of the date of the approval of SUP#2007-0094, the applicant or its successors shall be responsible for submitting a report to the Planning Commission and City Council on the status of any transfers and/or redevelopment plans and/or proposals for the proposal for the portion of the eastern portion of the site. The information within the report shall include all necessary and applicable information as determined necessary for review by the Director of P&Z. As part of the twelve (12) month review, the Planning Commission and/or City Council may require additional reports and/or information on an as needed basis.

b. The applicant shall be responsible for all appropriate signage directing customers and office workers to the garage. The parking signage shall be coordinated with the on-going signage-wayfinding efforts within Carlyle and Eisenhower East to the satisfaction of the Director of P&Z. (PC)

71. The Board shall approve the new design guidelines, which applicant is required to submit under ¶ III-75, for the blocks within the project area which are affected by the changes applicant makes to its original Plan of Development in order to bring it into conformity with the schedule of uses and gross square footage in ¶ III-60.
72. The Board may recommend to city council changes to the design guidelines which it is without authority to approve under ¶ ¶ III-68, -69 and -70, but council may approve such changes only with the concurrence of applicant.
73. Decisions of the Board may be appealed to city council by the applicant. Such an appeal shall be filed in writing with the director of Planning and Community Development within 15 days of the Board decision, and shall be heard by council within 45 days of the filing.
- 73A. Buildings shall be predominantly masonry (brick, stone, cast stone, precast) and predominantly with punched windows.

F. Other Planning Conditions:

74. Within 6 weeks of the issuance of this permit by city council, applicant shall submit a revised plan for the project area showing, to the satisfaction of the director of Planning and Community Development, the location within the project area of the uses identified in ¶ III-60.
75. Within a time period to be determined by the director of Planning and Community Development, applicant shall submit revised design guidelines for the blocks identified in ¶ III-70, for review and consideration by the Design Review Board, and a composite plan for the project area which shows, to the satisfaction of the director, the uses identified in ¶ III-60 and the design guidelines applicable to such uses.
76. At the build-to line, all buildings facing Duke Street, Holland Lane, Eisenhower Avenue, Second Street, Fountain Court and Retail Square shall be at least three stories. At the build-to line, all other buildings in the project area shall be at least two stories. The requirements of this paragraph shall not apply where the design guidelines are revised by City Council to modify streetwall requirements. (Amended SUP94-374).
77. Within the project area, except along Eisenhower Avenue for the garages on the PTO property, the maximum uninterrupted streetwall length, without recesses or ground floor setbacks, shall be 150 feet, unless approved by the director of Planning and Zoning.
78. Applicant shall consider moving the hotel from Block K to Block J.

G. Miscellaneous Conditions:

79. Applicant expressly agrees that all findings, code requirements and conditions set out in this permit shall run with the land which makes up the project area and shall be binding upon each and every person and legal entity who or which succeeds to any interest of applicant in any of such land. The term "applicant," as used in this permit, shall include all such successor persons and entities.
80. No space designated as retail in the development plan for the project area shall be used for office use except that 3,850 sq.ft. of retail space may be used for office space for the Time Life building on Block B, as explicitly approved by City Council. (Amended SUP94-374)
81. A soils report meeting the requirements of 1987 Uniform Statewide Building Code ("USBC") § 1202.1 shall be filed with the building permit application for every building to be constructed within the project area.

82. Separate demolition permits and asbestos certification reports shall be filed with the city's Office of Code Enforcement prior to the demolition of existing buildings within the project area.
83. Sheeting and shoring plans for each building to be constructed within the project area shall be approved, prior to the commencement of any construction activity, by the Department of TES and the Office of Code Enforcement.
84. All underground electrical vaults to be constructed within the project area shall be shown on a final site plan.
85. Permits for all outside fountains and pools shall be obtained from the Office of Code Enforcement prior to the commencement of construction of such items.
86. All "mixed use groups," within the meaning of USBC §313.0, shall be separated as required by that section of the code.
87. Any building over 50 feet in height shall contain fire suppression systems to the satisfaction of city's Office of Code Enforcement Fire Department.
88. Permits for any retaining walls shall be obtained from the Office of Code Enforcement prior to the commencement of construction of such walls.
89. Prior to the release of a building permit for any building within the project area, a code analysis shall be conducted by applicant and one or more code conferences with staff of the Office of Code Enforcement shall be held.
90. All construction within the project area shall comply with the provisions of the Virginia Uniform Statewide Building Code.
91. Emergency vehicle easements shall be provided the city over all private roads within the project area, and all such roads shall be no less than 22 feet in width. Such easements shall be given the city prior to the release of any final site plan containing private roads, and plats showing the easements shall be filed with the Fire Department prior to the release of the site plan.
92. Prior to the release of any final site plan, applicant shall discuss with the city's Chief of Police, or his designee, any security concerns of the Police Department and shall implement all reasonable security measure recommended by the chief or his designee.

93. No final site plan for the project area shall be released until the Chief of Police has reviewed the adequacy of the security measures to be undertaken in conjunction with the development proposed in the site plan.
94. Prior to the issuance of certificates of occupancy for 1 million gross square feet of development within the project area, applicant shall provide at least 800 net square feet of space within a building, which is located within the project area and is satisfactory to the Chief of Police, for use as a "store front facility" by the Police Department.
95. To the extent there are inconsistent provisions within the Plan of Development, the more restrictive provisions shall prevail and apply under this special use permit.
96. The areas above the parking decks on blocks H, L, and O will be landscaped to the satisfaction of the Director of Planning and Zoning.
97. Rooftop mechanical penthouses shall be permitted subject to the following limitations:
 - a. Only one penthouse is permitted for each building unless the number is increased by the Design Review Board, except that three separate penthouses shall be permitted for the main PTO building, one on the main tower and one on each wing of the tower.
 - b. The penthouse may exceed 15 feet in height with the approval of the Design Review Board but shall not exceed 22 feet in height without an amendment to this special use permit, except that penthouses on the PTO buildings may be up to 22' in height.
 - c. The penthouse must be limited in size to the minimum space required to house necessary mechanical equipment and to provide access for maintenance of such equipment; and
 - d. No equipment may be placed above the roof of the penthouse to increase its height if such equipment could be located elsewhere on the building.
98. The 10,955 sq.ft. of land vacated by the City generally located on the north side of block B (case #VAC94-004) is hereby incorporated into the Carlyle special use permit and all conditions of the Carlyle special use permit shall be applied to this added land area. (Added SUP94-374)
99. Incorporate the brewery site into the park to be developed at the corner of Duke and Dulaney Streets and mark the site with a proper marker or plaque indicating it is a valued 19th century beer lager. (Added SUP94-374)
100. Call Alexandria Archeology immediately (703-838-4399) if any buried structural remains (foundation walls, wells, privies, cisterns, etc.) or concentrations of artifacts are discovered during construction activities. A City archaeologist will visit the site without delay to evaluate its significance and record the presence of the archaeological remains. The archeologist may also collect a sample of the artifacts from the site for further study

in the laboratory. This will not result in construction delay or the expenditure of any funds beyond those additional funds already committed in the October 1993 agreement. (See attached January 20, 1994 letter from Wiley Mitchell). (Added SUP94-374)

101. Parking built above grade shall be set back a minimum of 30 feet from the exterior building walls of the first and second floor of the street frontage where commercial or retail uses are required at grade, except along John Carlyle Street and Elizabeth Lane, where the setback shall be a minimum of 22'. Where residential uses are required, the setback shall be the reasonable depth of a residential unit, as determined by the Director of P&Z. Blocks M, and N shall be exempt from this requirement along the Eisenhower Avenue street frontage in conjunction with the PTO project, if the garages facing Eisenhower Avenue are designed of high quality materials consistent with the other buildings in Carlyle, and with openings and other architectural treatments approved by the Carlyle Design Review Board.

- 102A. Ground Floor Retail: Ground floor uses of areas designated as “retail” shall be to limited to retail, personal service uses and restaurants as defined below.

1. Permitted Uses:

- a. Retail Shopping Establishments.
- b. Personal Service Uses: Barbershops and beauty salons, dressmakers and tailors, dry-cleaning (limited to pick-up only), optical centers, professional photographer’s studios, and photocopying service. A bank is permitted if it does not adjoin another bank or a financial investment office.

2. Uses Allowed by Administrative Approval:

- a. Full-Service Restaurants: Full-service restaurants may be approved administratively by the Director of Planning and Zoning, provided that any restaurant approved under this provision complies with the conditions listed below and is compatible with the character of the Carlyle Development District. Restaurants that do not meet these criteria may be approved subject to a special use permit.
 - i. Restaurants shall close no later than 12:00 a.m.
 - ii. All patrons shall be seated by a host or hostess, printed menus shall be provided at the tables, service shall be provided at the tables by a waiter or waitress, and tables shall be preset with non-disposable tableware and glassware.
 - iii. Deliveries to the business shall not take place between the hours of 7:00 a.m. and 9:30 a.m., or between 4:00 p.m. and 6:00 p.m., Monday through Friday. Deliveries to restaurants within residential buildings or whose service drive adjoins a residential building shall not take place before 7:00 a.m. or after 10:00 p.m.
 - iv. If any food delivery services are provided, they shall clearly be accessory to dine-in food sales, and all deliveries shall be nonvehicular (made on

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

- foot, via bicycle, etc.). Alcoholic beverages shall not be delivered off-site, and delivery of nonalcoholic beverages shall only be in association with food deliveries.
- v. Alcoholic beverages may be sold for on-premises consumption only, and shall clearly be accessory to food sales.
 - vi. Grease traps shall be located within the building. Kitchen equipment shall not be cleaned outside, nor shall any cooking residue be washed into the streets, alleys, or storm sewers.
 - vii. No food, beverages, or other material shall be stored outside.
 - viii. Trash and garbage shall be placed in sealed containers, which do not allow odors to escape and shall be stored inside or in a closed container, which does not allow invasions by animals. No trash or debris shall be allowed to accumulate on-site outside of those containers.
 - ix. Litter on the site and on public rights-of-way and spaces adjacent to or within 75 feet of the premises shall be picked up at least twice a day and at the close of business, and more often if necessary, to prevent an unsightly or unsanitary accumulation, on each day that the business is open to the public.
 - x. Cooking odors, smoke and any other air pollution from operations at the site shall be properly ventilated and shall not be permitted to become a nuisance to neighboring properties, as determined by the Department of T&ES.
 - xi. The applicant shall contact the Crime Prevention Unit of the Alexandria Police Department for a security survey and a robbery awareness program for all employees.
 - xii. The design of the restaurant shall reflect the character and quality of materials consistent with the high standards established in Carlyle.
- b. Restaurants - Outdoor Dining: Outdoor dining is encouraged and may be permitted administratively by the Director of Planning and Zoning subject to the following minimum criteria and conditions:
- i. All outdoor dining areas shall be accessory to an approved indoor restaurant.
 - ii. An unobstructed pathway with a minimum width of 8 feet shall be provided at all times.
 - iii. Any permanent structures which are required for the outdoor seating area shall be subject to review and approval by the Carlyle DRB.
 - iv. No live entertainment shall be permitted in the outdoor seating area.
 - v. No sound amplification shall be permitted in the outdoor seating area.
 - vi. Any outdoor seating areas shall not include advertising signage. The design of the outdoor seating shall be compatible with the design of the building.

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

- vii. On site alcohol service shall be permitted; no off-premise alcohol sales are permitted.
 - viii. No food, beverages, or other material shall be stored outside.
 - ix. The applicant shall provide, at its expense, one city trash container Model SD-42- exclusively for each outdoor dining area. The trash container shall be emptied at the close of business each day.
 - x. Trash and garbage shall be placed in sealed containers, which do not allow odors to escape and shall be stored inside or in a closed container, which does not allow invasions by animals. No trash and debris shall be allowed to accumulate on-site outside of those containers.
 - xi. Litter on the site and on public rights-of-way and spaces adjacent to or within 75 feet of the premises shall be picked up at least twice a day and at the close of business, and more often if necessary, to prevent an unsightly or unsanitary accumulation, on each day that the business is open to the public.
 - xii. The outside dining area shall be cleaned at the close of each day of operation.
 - xiii. The applicant shall control odors, smoke and any other air pollution from operations at the site and prevent them from leaving the property or becoming a nuisance to neighboring properties, as determined by the Department of T&ES.
 - xiv. The applicant shall contact the Crime Prevention Unit of the Alexandria Police Department for a security survey and a robbery awareness program for all employees.
- c. Other Uses: The Director of Planning and Zoning may approve other commercial activities that involve a high degree of pedestrian activity subject to the following:
- i. The use provides goods or services to the general public.
 - ii. The business is determined to be consistent with the high quality requirements, design and character of Carlyle.
 - iii. The primary entrance for the business shall open onto a public sidewalk or a retail lobby or court.
 - iv. Exterior signage, oriented to the public sidewalk, shall be provided.
 - v. Windows shall not be opaque or otherwise obstructed. Either well-maintained and regularly updated window displays shall be provided, or windows shall provide open views into the tenant space.
 - vi. In no cases shall these uses include pawn shops, laundromats, locksmiths, musical instrument repair, or furniture upholstering shops.
- d. The Director of Planning and Zoning shall promulgate procedures for the processing of applications and notifying the public that an application has been filed under this condition, such procedures to include at a minimum the

posting of the site with a placard, a brief period for public comment to the Director, and the listing of the pending application on the City's web site. (PC)

3. Special Use Permit. The following uses may be allowed subject to a special use permit:
 - a. Restaurants which do not meet all of the minimum criteria described in §102A.2.a above.
 - b. Banks which do not meet the separation limitations in §102A.1.b above.
 - c. Financial investment offices
 - d. Entertainment uses.
- 102B. Retail, above or below ground level. Use of areas that are designated as “retail” and are located above or below ground level shall be limited to those uses as listed below:
1. Permitted Uses
 - a. Those uses which are listed in §102A.1 above.
 - b. Banks,
 - c. Financial investment offices,
 - d. Private schools,
 - e. Public schools,
 - f. Health clubs,
 - g. Realty offices, and
 - h. Tax preparation services.
 2. Uses Allowed by Administrative Approval
 - a. Full-service restaurants, subject to the provisions of §102A.2.a above.
 - b. Restaurants - outdoor dining, subject to the provisions of §102A.2.b above.
 - c. Other commercial activities that involve a high degree of pedestrian activity, subject to the provisions of §102A.2.c above.
 3. Special Use Permit. The following uses may be allowed subject to a special use permit:
 - a. Restaurants which do not meet all of the minimum criteria described in §102A.2.a above.
 - b. Entertainment uses.
- 102C. The ground floor office use in the southeast quarter of the building at 333 John Carlyle Street shall be discontinued by December 31, 2009. All other uses which have been established as of June 12, 2004, and which do not meet the requirements of §102A and §102B above shall be considered to be noncomplying uses and subject to §12-300 of the Zoning Ordinance.

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

- 102D. The ground floor of the townhouses at 400-412 John Carlyle Street shall be subject to the following: If, after making a good faith effort as determined using guidelines issued by the director, the building owner is unable to lease or sell space required by the design guidelines and the special use permit to be in retail use, the director may authorize that space to be leased for non-retail use for a period not to exceed ten years, after which time subsequent leases may be authorized on the same conditions. For the purpose of this requirement, retail uses shall include retail shopping establishments, restaurants, banks, financial investment and consulting offices, professional offices, travel agencies, realty offices, personal service uses, educational uses and any other commercial activity that involves a high degree of pedestrian activity, as determined by the Director of Planning & Zoning. The professional office use may be permitted with subsequent approval of the property owners, Homeowners Association and City Attorney. (PC)
- 102E. A grocery store of no less than 25,000 square feet shall be provided within the retail space at Carlyle, unless the grocery store approved in DSUP #2002-0009 for the corner of Duke Street and Holland Lane is constructed and operational. If the requirement for a grocery store is nullified, the 25,000 square feet shall be provided on Block P as retail use that is concentrated along the street and located at ground level.
103. The height for Carlyle Towers Building III shall be permitted to be increased to a maximum height of 193'. Prior to the release of any final site plan for a building which incorporates the increased height, the design guidelines sheet for Block A shall be updated to incorporate the height change and shall be provided to the City. (Added SUP99-0021.)
104. Maximum heights within the project shall be as shown on the approved design guidelines for each block. Two blocks have no approved guidelines: Blocks O and P. On Block O, heights shall not exceed 60', except along Holland Lane, where heights may increase up to 155', and along Eisenhower Avenue at its intersection with John Carlyle Street, where heights may increase up to 110'. Heights on Block P shall be determined by City Council as part of its special use permit review of the applicant's revised design guidelines for Block P.
105. The 313 parking spaces not required by the PTO SFO but located within the PTO parking garages shall be made available to the public in the evening and on weekends until at least 10 p.m. In addition, at least 500 additional spaces within the garages shall be made available to the public on evenings and weekends if the Directors of P&Z and T&ES determine that all or a specific portion of such parking spaces are needed to serve uses in the surrounding area; in the event of such a determination, security for and related to these parking spaces, satisfactory to PTO, shall be provided. A fee may be charged for any parking provided pursuant to this condition.

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

- 105A. Sufficient spaces for PTO visitors shall be made available from the parking spaces allocated to PTO; provided that no more than 352 (10% of the total PTO spaces) shall be required to be made available for this purpose.
106. The following improvements are required as mitigation of the proposed relocation of the U.S. Patent and Trademark Office to Carlyle and shall be deleted as requirements if the relocation of the U.S. Patent & Trademark Office to Carlyle does not proceed. However, the City reserves the right to require some or all of the following improvements in the context of requests for other amendments to the Carlyle special use permit or in the context of a request for transfer of density pursuant to condition #61 of this special use permit.

(a) The applicant shall construct, at its own expense, or pay for the construction of the following road improvements as generally shown and described in the PBSJ Traffic Impact and Analysis Report on Carlyle dated 1/25/00:

1. Duke Street/Dulany Street/Diagonal Road: dual left turn lanes from westbound Duke Street into Dulany Street and from northbound Dulany Street to Duke Street, and enhancements to the pedestrian crossings at that intersection to include additional and widened sidewalks, and modified medians and crosswalks
2. Duke Street/John Carlyle Street/entrance to King Street Station: improved pedestrian crossings on Duke Street
3. Eisenhower Avenue: widen to provide one additional westbound lane between John Carlyle Street and Elizabeth Lane.
4. Eisenhower Avenue/John Carlyle Street: left turn bay from eastbound Eisenhower Avenue to John Carlyle Street.
5. Eisenhower Avenue/Elizabeth Lane: left turn bay from southbound Elizabeth Lane to Eisenhower Avenue.
6. Jamieson Avenue: extend to West Street.

All of the above improvements shall be accommodated within existing city right-of-way or on property under CDC's control and CDC shall not be required to acquire any additional property to meet these obligations.

(b) The applicant shall reimburse the city for the installation and initial timing of new signals and for retiming of existing signals at the following intersections:

1. Eisenhower Avenue/John Carlyle Street
2. Eisenhower Avenue/Elizabeth Lane

CARLYLE SPECIAL USE PERMIT AMENDMENT – BLOCK P

3. Eisenhower Avenue/Mill Road
4. Duke Street/Holland Lane
5. Duke Street/John Carlyle Street
6. Duke Street/Dulany Street/Daingerfield Road

Design and engineering profiles of all improvements required by this condition shall be submitted to and approved by the City as an infrastructure plan prior to release of any final site plan related to the PTO buildings. Construction shall commence within 12 months of the approval of the first final site plan for the PTO and shall thereafter be diligently pursued.

(c) The applicant shall pay the city \$200,000 prior to July 1, 2001 to be utilized by the City for other traffic measures.

107. In the event the U.S. Patent and Trademark Office relocation to Carlyle does not proceed, approval of the design guidelines for the eastern portion of Block F, the western portion of Block G, and all of Blocks J, K, M and shall be suspended until such time as the applicant requests and City Council approves an amendment to the Carlyle special use permit to address the changes created by the loss of the PTO.
108. During the initial 20-year term of the lease of the five buildings within the Carlyle site to be leased to the United States of America for use by the United States Patent and Trademark Office, the real property subject to the lease is intended to remain in private ownership and to be subject to City of Alexandria real estate taxes. Prior to final site plan approval for any of the five buildings to be leased to the United States, the applicant or any successor in interest to the applicant shall cause to be recorded among the land records of the City of Alexandria, a covenant, approved by the city attorney, that provides that, before any voluntary sale of any of the real property that is being leased to the United States (the Property”) to a purchaser which is not obligated to pay City of Alexandria real estate taxes, the seller of the real property, shall, at the election of the seller either (i) provide to the City a payment equal to the present value of the estimated real estate tax payments (to be calculated pursuant to a mutually agreeable formula to be set forth in the recorded covenant) which would otherwise become due on the Property during the balance of the initial 20-year term of the lease to the United States, or (ii) enter into a binding and enforceable agreement with the City, approved by the city attorney and including such surety as deemed necessary by the city attorney, that requires the seller to make semi-annual payments to the City during the balance of the 20-year term which shall be equal to and made at the same time as the real estate tax payments that would otherwise have been due on the Property. Such covenant shall expressly provide that (i) its terms and obligations shall run with the land and be an encumbrance upon the Property, for the benefit of the City, and the applicant or the applicant’s successors in interest shall ensure that the covenant and the obligation thereof shall have priority over every mortgage, deed of trust, or other lien or encumbrance on the Property, whether created prior to, or subsequent to, the grant of such covenant, and (ii) it shall be released

obligations shall run with the land and be an encumbrance upon the Property, for the benefit of the City, and the applicant or the applicant's successors in interest shall ensure that the covenant and the obligation thereof shall have priority over every mortgage, deed of trust, or other lien or encumbrance on the Property, whether created prior to, or subsequent to, the grant of such covenant, and (ii) it shall be released of record in the event of a sale of the Property to a real estate tax exempt purchaser at such time as the foregoing conditions have been satisfied or the expiration of the 20 year term of the lease to the United States. In no event shall this condition or such agreement be deemed to impose the obligation to pay any City of Alexandria real estate taxes upon a real estate tax-exempt purchaser of any Property.

109. In addition to the requirements of the Transportation Management Plan for Carlyle, the applicant or its successor in interest to the PTO Property shall, within six months of approval of the SUP, initiate contact with, and shall thereafter use its best, good faith efforts to work with city staff, WMATA, the Virginia and Maryland Secretaries of Transportation, the developer of National Harbor, other local governments and interested parties, to develop and implement a transportation plan for public transit service across the Woodrow Wilson Bridge, from the Branch Avenue Metro Station (opening in 2001) to the Eisenhower Avenue Metro Station, with service stops at National Harbor, PTO, and other appropriate locations. Such service should be operational using buses, at the time of occupancy of the first PTO building, if feasible, and service should eventually be provided by light or heavy rail. This condition does not require the applicant to fund such transit service. (City Council)
110. The applicant shall update the Design Guidelines and provide digital originals to the City within 30 days from the approval date of the special use permit approval that reflect the current and all previous amendments to the Guidelines. The revised Guidelines shall be administratively approved by staff prior to an application for Blocks F, G, J and/or K. (P&Z)
111. The development of Blocks F, G, J and K shall be in accordance with the attached design guidelines dated May 23, 2003. (P&Z)
112. Condition deleted (PC)
113. The building setbacks for Block G shall be increased to a minimum of 10 feet along Ballenger and Jamieson Avenues at the 45-foot-height. A setback at the fifth level shall be provided if deemed necessary by the Director of P&Z.
114. The retail parking for Blocks F, G and P shall be limited to a maximum of 3.5 spaces/1,000 GSF. Blocks J and K shall provide a maximum of 277 parking spaces, 94 of the spaces shall be provided for retail uses. The parking shall be allocated proportionally between the two blocks. (PC)

APPLICATION

SPECIAL USE PERMIT

SPECIAL USE PERMIT # 2007-0094

PROPERTY LOCATION: 1800 Eisenhower Avenue

TAX MAP REFERENCE: 079.01-01-14 ZONE: CDD#1

APPLICANT

Name: Carlyle P, LLC

Address: 1900 K Street, NW, Suite 850, Washington, DC 20006

PROPERTY OWNER

Name: Carlyle Development Corporation

Address: 110 Franklin Road, SE, Roanoke, Virginia 24042

PROPOSED USE: Amendment of the Design Guidelines for Carlyle Block P

[] **THE UNDERSIGNED** hereby applies for a Special Use Permit in accordance with the provisions of Article XI, Section 4-11-500 of the 1992 Zoning Ordinance of the City of Alexandria, Virginia.

[] **THE UNDERSIGNED**, having obtained permission from the property owner, hereby grants permission to the City of Alexandria to post placard notice on the property for which this application is requested, pursuant to Article IV, Section 4-1404(D)(7) of the 1992 Zoning Ordinance of the City of Alexandria, Virginia.

[] **THE UNDERSIGNED** hereby attests that all of the information herein provided and specifically including all surveys, drawings, etc., required to be furnished by the applicant are true, correct and accurate to the best of their knowledge and belief. The applicant is hereby notified that any written materials, drawings or illustrations submitted in support of this application and any specific oral representations made to the Director of Planning and Zoning on this application will be binding on the applicant unless those materials or representations are clearly stated to be non-binding or illustrative of general plans and intentions, subject to substantial revision, pursuant to Article XI, Section 11-207(A)(10), of the 1992 Zoning Ordinance of the City of Alexandria, Virginia.

ACTION - CITY COUNCIL: _____

APPLICATION

SPECIAL USE PERMIT

All applicants must complete this form. Supplemental signs are required for child care facilities, restaurants, automobile-oriented uses and freestanding signs requiring special use permit approval.

1. The applicant is the *(check one)*:

Owner

Contract Purchaser

Lessee or

Other: _____ of the subject property.

State the name, address and percent of ownership of any person or entity owning an interest in the applicant, unless the entity is a corporation or partnership in which case identify each owner of more than ten percent.

49% owned by JM Zell Carlyle LLC c/o JM Zell Partners Ltd.

49% Alder Branch Carlyle LLC c/o JM Zell Partners Ltd.

If property owner or applicant is being represented by an authorized agent such as an attorney, realtor, or other person for which there is some form of compensation, does this agent or the business in which the agent is employed have a business license to operate in the City of Alexandria, Virginia?

Yes. Provide proof of current City business license

No. The agent shall obtain a business license prior to filing application, if required by the City Code.

2. Submit a floor plan and a plot plan with parking layout of the proposed use. One copy of the plan is required for plans that are 11" x 17" or smaller. Twenty-four copies are required for plans larger than 11" x 17" if the plans cannot be easily reproduced. The planning director may waive requirements for plan submission upon receipt of a written request which adequately justifies a waiver. This requirement does not apply if a Site Plan Package is required.

NARRATIVE DESCRIPTION

3. The applicant shall describe below the nature of the request **in detail** so that the Planning Commission and City Council can understand the nature of the operation and the use. The description should include such items as the nature of the activity, the number and type of patrons, the number of employees, the hours, how parking is to be provided for employees and patrons, and whether the use will generate any noise. (Attach additional sheets if necessary.)

The applicant requests a modification of the Design Guidelines for Carlyle Block P in order to clarify that the applicant may construct a building or buildings containing up to 365,000 square feet of floor area on the west side of John Carlyle Street provided that the proposal is approved by the Design Review Board.

The requested modification of the Design Guidelines is appropriate in that 1) the Design Review Board supports the approval of the proposed building on the western side of John Carlyle Street with its current massing and design, 2) the remaining 31,000 square feet of approved density for Block P will enable the applicant to construct a building on the eastern side of John Carlyle Street that complies with the Design Guidelines, 3) the applicant has the opportunity to transfer additional floor area to the eastern side of Block P from other nearby properties if needed, and 4) the Design Review Board approved a reduction of the building massing on Block O below that which was originally conceived. Therefore, even if additional floor area is not transferred to Block P, then the Design Review Board will have the option to approve of a building with reduced massing for the eastern side of Block P which would be compatible with the building to be constructed on Block O.

USE CHARACTERISTICS

4. The proposed special use permit request is for (*check one*):
[] a new use requiring a special use permit,
[] a development special use permit,
[] an expansion or change to an existing use without a special use permit,
[X] expansion or change to an existing use with a special use permit,
[] other. Please describe: _____

5. Please describe the capacity of the proposed use:
- A. How many patrons, clients, pupils and other such users do you expect?
Specify time period (i.e., day, hour, or shift).
_____ N/A _____
- B. How many employees, staff and other personnel do you expect?
Specify time period (i.e., day, hour, or shift).
_____ N/A _____

6. Please describe the proposed hours and days of operation of the proposed use:
- | | |
|-------|--------|
| Day: | Hours: |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

7. Please describe any potential noise emanating from the proposed use.
- A. Describe the noise levels anticipated from all mechanical equipment and patrons.
_____ N/A _____
- B. How will the noise from patrons be controlled?
_____ N/A _____

8. Describe any potential odors emanating from the proposed use and plans to control them:

N/A

9. Please provide information regarding trash and litter generated by the use.

A. What type of trash and garbage will be generated by the use?

N/A

B. How much trash and garbage will be generated by the use?

N/A

C. How often will trash be collected?

N/A

D. How will you prevent littering on the property, streets and nearby properties?

N/A

10. Will any hazardous materials, as defined by the state or federal government, be handled, stored, or generated on the property?

Yes. No.

If yes, provide the name, monthly quantity, and specific disposal method below:

11. Will any organic compounds, for example paint, ink, lacquer thinner, or cleaning or degreasing solvent, be handled, stored, or generated on the property?

Yes. No.

If yes, provide the name, monthly quantity, and specific disposal method below:

N/A

12. What methods are proposed to ensure the safety of residents, employees and patrons?

ALCOHOL SALES

13. Will the proposed use include the sale of beer, wine, or mixed drinks?

Yes. No.

If yes, describe alcohol sales below, including if the ABC license will include on-premises and/or off-premises sales. Existing uses must describe their existing alcohol sales and/or service and identify any proposed changes in that aspect of the operation.

N/A

PARKING AND ACCESS REQUIREMENTS

14. Please provide information regarding the availability of off-street parking.

A. How many parking spaces are required for the proposed use pursuant to section 8-200 (A) of the zoning ordinance?

N/A

B. How many parking spaces of each type are provided for the proposed use:

- _____ Standard spaces
- _____ Compact spaces
- _____ Handicapped accessible spaces.
- _____ Other.

C. Where is required parking located? (check one)

- on-site
- off-site

If the required parking will be located off-site, where will it be located?

Pursuant to section 8-200 (C) of the zoning ordinance, commercial and industrial uses may provide off-site parking within 500 feet of the proposed use, provided that the off-site parking is located on land zoned for commercial or industrial uses. All other uses must provide parking on-site, except that off-street parking may be provided within 300 feet of the use with a special use permit.

D. If a reduction in the required parking is requested, pursuant to section 8-100 (A) (4) or (5) of t

other. Please describe: _____

Carlyle Development Plan in Alexandria, Virginia Block P Design Guidelines

Block P is the last remaining developable parcel in the Carlyle Master Plan Area. The approach from Holland Lane on the east and the adjacent African American Heritage Park across Holland Lane is a major gateway to the Carlyle Development. The rotary at the intersection of Holland Lane and Eisenhower Avenue is planned for a possible modification into a T- intersection with the remaining areas of the circle designated as public open space in two crescent-shaped open space -parks. The buildings proposed at this intersection should reflect this significance, the crescent shape and opportunity to create a “gateway” to Carlyle and Eisenhower East. The ground floor areas of Block P shall be developed with retail uses at this major gateway to create a lively and attractive entrance and provide a pedestrian activity anchor at this location. The extension of John Carlyle Street across Eisenhower Avenue through Block P will allow a public street connection to future residential development to the south, which is part of the Eisenhower East Small Area Plan. This extension of the street will create two separate parcels within Block P. Retail use along John Carlyle Street should respond to both the needs of office workers and local residents. To the south of Block P will be a new street and a public park. Additional retail development along the south facing wall of the building west of John Carlyle Square should provide an active retail use that takes advantage of this public amenity and creates a pedestrian activity node.

	<p>Landscape Zone (East of John Carlyle Street) A 22 -35 Ft Pedestrian – Bike Landscape Zone (Hoofs Run Drive, Holland Lane, and the Future Southern Street) 14 ft wide sidewalk, consisting of a 10 ft wide unobstructed sidewalk with 4 ft. wide tree wells.</p>	
<p>Ground Floor Summary Office</p>	<p>Primary entries shall be located on John Carlyle Street.</p>	<p>Public pedestrian access from East Parking Garage to John Carlyle Street may be provided through the building's retail frontage.</p>
<p>Retail</p>	<p>Storefront retail entries shall have primary access fronting Eisenhower Avenue, the rotary/crescent, portions of John Carlyle Street, Holland Lane and any public park or open space.</p> <p>The location, amount and depth of retail shall be consistent with the attached schematic site plan. Minimum 60 ft. retail depth on Eisenhower Avenue and minimum 40 ft. retail depth on John Carlyle Street.</p>

RE: Carlyle Block P

Dear Ms. Hamer:

On behalf of our client, Carlyle P, LLC ("Carlyle P"), we are writing to request a revision to and a clarification of the staff report and conditions for Special Use Permit 2007-0094 for Carlyle Block P. First, we respectfully request a revision to condition 70A(m) regarding the timing of LEED certification. The United States Green Building Council ("USGBC") will perform its final evaluation and audit of the proposed credits for LEED certification only after the building is completed. It is our understanding that it will take the USGBC several months to complete the final evaluation and audit. Therefore, we request that the last sentence of condition 70A(m) be revised as follows:

The applicant shall provide documentation of this registration ~~and certification~~ to the Department of Planning and Zoning prior to the issuance of a certificate of occupancy for the building. The applicant shall provide documentation of LEED certification within one year of the issuance of the certificate of occupancy.

Second, we also note that there are certain discrepancies between the staff report and the conditions of approval. Based on our discussions with planning staff, it is our understanding that the conditions of approval are controlling. We, therefore, request clarification that this is in fact the case.

We look forward to discussing this amendment with you and the Planning Commission. Please let me know if you have any questions or if we can provide any additional information.

Sincerely,

Jonathan P. Rak

DOCKET ITEM #10: BLOCK P/SPECIAL USE PERMIT #2007-0094

Dear Mr. Chairman and Members of the Planning Commission:

I am writing on behalf of the Board of Directors of the Eisenhower Partnership to express our support for the Block P SUP amendment (item #10) on the docket for the October 2nd meeting. The Partnership has a long history of reviewing development plans for the Valley and providing guidance to developers during the site plan approval process. In our view, the proposed SUP amendment for Block P at 1800 Eisenhower Avenue would be in keeping with the original vision and design for the gateway to the Eisenhower East/Carlyle Corridor.

Representatives for the Block P project provided our Board with a presentation about the proposed revisions and the Partnership Board decided to submit a letter of support. The proposed office/retail complex clearly conforms with the spirit of the Carlyle and Eisenhower East plans, and is an integral part of the effort to energize the redevelopment of this section of the Valley. The key component of the SUP amendment is the request to have 95 percent of the allowed office space built on the western portion of the property. While this sounds lopsided at first blush, the balance would be restored by transferring unutilized floor area to the eastern portion in the future, thus restoring the symmetry to Block P while preserving the density levels set in the Carlyle Plan and Eisenhower East SAP.

The Carlyle Design Review Board has approved the SUP amendment and the staff report recommends approval. The developers, JM Zell Partners have a long history in the community and thus understand the design and land use goals sought for the Carlyle and Eisenhower East area of Alexandria. With the completion of the Mill Road beltway ramp on to Eisenhower Avenue, the desire to create an attractive gateway to the city here becomes even more important.

We urge your favorable consideration of this proposal. In the meantime, if you have questions or need additional information, please contact me. Thank you.

Sincerely yours,

Janet R. Gregor
Executive Director

Faroll Hamer, Department of Planning and Zoning

SPEAKER'S FORM

DOCKET ITEM NO. 12

**PLEASE COMPLETE THIS FORM AND GIVE IT TO THE CITY CLERK
BEFORE YOU SPEAK ON A DOCKET ITEM**

PLEASE ANNOUNCE THE INFORMATION SPECIFIED BELOW PRIOR TO SPEAKING.

1. NAME: Jonathan Rak

2. ADDRESS: 1750 Tysons Blvd. McLean, VA 22102

TELEPHONE NO. 703 ~~757-4683~~
712 5411 E-MAIL ADDRESS: jrak@mcquicewoods.com

3. WHOM DO YOU REPRESENT, IF OTHER THAN YOURSELF? _____

Applicant

4. WHAT IS YOUR POSITION ON THE ITEM?
FOR: AGAINST: _____ OTHER: _____

5. NATURE OF YOUR INTEREST IN ITEM (PROPERTY OWNER, ATTORNEY, LOBBYIST, CIVIC INTEREST, ETC.):

Attorney

6. ARE YOU RECEIVING COMPENSATION FOR THIS APPEARANCE BEFORE COUNCIL?
YES NO _____

This form shall be kept as a part of the permanent record in those instances where financial interest or compensation is indicated by the speaker.

A maximum of three minutes will be allowed for your presentation, except that one officer or other designated member speaking on behalf of each *bona fide* neighborhood civic association or unit owners' association desiring to be heard on a docket item shall be allowed five minutes. In order to obtain five minutes, you must identify yourself as a designated speaker, and identify the neighborhood civic association or unit owners' association you represent, at the start of your presentation. If you have a prepared statement, please leave a copy with the Clerk.

Additional time not to exceed 15 minutes may be obtained with the consent of the majority of the council present; provided notice requesting additional time with reasons stated is filed with the City Clerk in writing before 5:00 p.m. of the day preceding the meeting.

The public normally may speak on docket items only at public hearing meetings, and not at regular legislative meetings. Public hearing meetings are usually held on the Saturday following the second Tuesday in each month; regular legislative meetings on the second and fourth Tuesdays in each month. The rule with respect to when a person may speak to a docket item at a legislative meeting can be waived by a majority vote of council members present but such a waiver is not normal practice. When a speaker is recognized, the rules of procedures for speakers at public hearing meetings shall apply. If an item is docketed *for public hearing* at a regular legislative meeting, the public may speak to that item, and the rules of procedures for speakers at public hearing meetings shall apply.

In addition, the public may speak on matters which are not on the docket during the Public Discussion Period at public hearing meetings. The mayor may grant permission to a person, who is unable to participate in public discussion at a public hearing meeting for medical, religious, family emergency or other similarly substantial reasons, to speak at a regular legislative meeting. When such permission is granted, the rules of procedures for public discussion at public hearing meetings shall apply.

Guidelines for the Public Discussion Period

(a) All speaker request forms for the public discussion period must be submitted by the time the item is called by the city clerk.

(b) No speaker will be allowed more than three minutes; except that one officer or other designated member speaking on behalf of each *bona fide* neighborhood civic association or unit owners' association desiring to be heard during the public discussion period shall be allowed five minutes. In order to obtain five minutes, you must identify yourself as a designated speaker, and identify the neighborhood civic association or unit owners' association you represent, at the start of your presentation.

(c) If more speakers are signed up than would be allotted for in 30 minutes, the mayor will organize speaker requests by subject or position, and allocated appropriate times, trying to ensure that speakers on unrelated subjects will also be allowed to speak during the 30 minute public discussion period.

(d) If speakers seeking to address council on the same subject cannot agree on a particular order or method that they would like the speakers to be called on, the speakers shall be called in the chronological order of their request forms' submission.

(e) Any speakers not called during the public discussion period will have the option to speak at the conclusion of the meeting, after all docketed items have been heard.
