Dash AT4 #22
2
3-10-10

First of all, I do appreciate your calling this meeting to give everyone a chance to explain their case.

Unfortunately, other people who would like to have come, could not. AT4 is

their means of
transportation.

For me, the AT4 is
the way to the big
world. Using the AT4
I can get to the
Braddock Metro, and
from there--wherever
I need to go.

For instance, I can take the AT4 to the Braddock Metro and go to King St. to take the AT108 to Shoppers in the Potomac Yard. To go home, I can easily reverse the route.

So you can see, the
AT4 is my charriot.

Driven by very nice polite drivers

I also want to give
kudos for erecting the
two nice waiting
stations on Slaters
Lane. They enhance
the use of the AT4 for
all the people who
live in the many

apartment buildings
and townhouses in
the area. That
includes me, a
person who values
her independence.
