

City of Alexandria, Virginia

MEMORANDUM

DATE: MAY 2, 2011

TO: THE HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL

FROM: JAMES K. HARTMANN, CITY MANAGER 

SUBJECT: CONSIDERATION OF AN ORDINANCE TO ADJUST THE BOUNDARIES FOR THE CORA KELLY, MOUNT VERNON, GEORGE WASHINGTON, LEE CENTER AND LYLES CROUCH ELECTION PRECINCTS

ISSUE: Consideration of an ordinance to adjust the boundaries for The Cora Kelly, Mount Vernon, George Washington, Lee Center and Lyles Crouch election precincts.

RECOMMENDATION: That City Council introduce the ordinance (Attachment 1); pass it on first reading, and schedule it for public hearing, second reading and final passage on Saturday, May 14.

BACKGROUND: On April 12, staff gave City Council an overview of actions that must or may be taken as a result of redistricting related to the 2010 U.S. Census. Among the changes that were discussed were modifications to some electoral precinct boundaries.

The Alexandria Electoral Board, which is comprised of three bipartisan members who are appointed by the Alexandria Circuit Court for staggered three-year terms, is responsible for making recommendations to City Council concerning changes in precinct boundaries and the establishment of new precincts. City Council has the statutory authority to make these changes.

In making its recommendations to Council, the Alexandria Electoral Board is primarily concerned with ensuring that precincts conform to legal requirements, are of manageable size, and have suitable voting facilities. After reviewing the General Assembly's redistricting legislation (which was based on the 2010 Census results), and looking ahead to the 2012 Presidential Election, the Board carefully considered each of the City's precincts noting the current number of registered voters, in-person turnout statistics from the 2008 Presidential Elections, the size of the voting facility, and any likely residential development within the precinct.

As a result of its review, the Board identified two precincts that are in need of change—Cora Kelly and Lee Center. These are the two precincts in the City with the largest numbers of registered voters, and two of the three largest precincts with the largest turnout in the most recent presidential election (presidential elections result in greater turnout than other elections). Furthermore, there is potential for substantial growth in both of these precincts (due to development in Potomac Yard and the Eisenhower Valley) in future years.

DISCUSSION: On April 28, 2011, the Alexandria Electoral Board voted to recommend that City Council reduce the number of voters in the Cora Kelly and Lee Center precincts by adjusting the precinct boundaries for these precincts and three others that are adjacent to them: Mount Vernon, George Washington, and Lyles Crouch, effective with the August 23 General Assembly Primary Election.

As shown on the attached maps (Attachments 2 and 3), boundary changes will result in the following transfers of voters:

- Some voters will be moved from Cora Kelly to Mount Vernon and George Washington; a smaller number will be moved from Mount Vernon to Cora Kelly; and an even smaller number will be moved from Mount Vernon to George Washington. This will result in 1,055 fewer voters in Cora Kelly; an increase of 157 voters in Mount Vernon; and an increase of 898 voters in George Washington; and
- 1,190 voters will be moved from Lee Center to Lyles Crouch.

Although these adjustments are not required by law, the Alexandria Electoral Board believes it is necessary to make these adjustments to serve voters more efficiently and better manage the 2012 Presidential Election. The Board recommends immediate action to address the growth that has occurred in the existing precincts and to accommodate future growth.

BENEFITS OF PROPOSED CHANGES: The changes in precinct boundaries, if adopted, offer the following benefits:

Cora Kelly/Mount Vernon/George Washington Precinct Boundary Change:

1. The total numbers of registered voters in the Cora Kelly, Mount Vernon and George Washington precincts will be better balanced, and Cora Kelly and Mount Vernon will be able to accommodate some of the anticipated residential growth from Potomac Yard;
2. This will allow for fuller use of the George Washington polling facility, which is the school's large "mini-gym" next to the rear parking lot; and
3. Most of the voters affected will live closer to their polling place.

Lee Center/Lyles Crouch Precinct Boundary Change:

1. This change will make fuller use of the Lyles Crouch polling facility, which is the large gym near the school's main entrance;
2. It will eliminate the need for any current Lee Center voters to cross over Route 1 near the Beltway to get to their polling place; and
3. It will allow Lee Center to accommodate anticipated residential growth in the Eisenhower Avenue area.

Attachment 4 is a chart which reflects the specific changes at the five precincts and the resulting projected impact on 2012 Presidential-year voter turnout.

These changes will not affect the City’s School Board boundaries or the proposed State House or Senate boundaries. In addition, the recommended adjustments to precinct lines follow “clearly observable boundaries” (in this case—named streets) as required by State law.

If City Council approves this ordinance, the United States Justice Department will also need to approve this request pursuant to the federal Voting Rights Act. The City Attorney will prepare the submission for the Justice Department. In addition, after the City has received Justice Department approval, the Electoral Board will send notification by first class mail to all affected voters.

OUTREACH AND PUBLIC PARTICIPATION: Before bringing its recommendations to City Council, the Alexandria Electoral Board conducted extensive outreach to stakeholders, including neighborhood associations and community organizations, providing them with information links, maps of possible precinct changes, and invitations to two public meetings (April 12 and April 28) in which the precinct plans were discussed and finalized (see Attachment 5 for a list of the groups contacted). Details of the proposals have been posted on the City’s web site, and information was shared via press releases and social media. The initial feedback from the public has been favorable. There have been a few technical questions, but no expressed opposition to the plan, and most people have offered their clear support.

FISCAL IMPACT: It will cost approximately \$4,000 to send notifications to all the affected voters and to prepare other materials announcing these changes. This can be accommodated within the budget for the Office of Voter Registration and Elections.
