**Narrative Request for a Special Use Permit to Install Athletic Field Lighting, a Storage Structure, and Bleachers at Hammond Middle School**

Alexandria City Public Schools is requesting approval to add lighting to an existing athletic field, construct a storage structure, and bleachers at Hammond Middle School (4646 Seminary Road). The property is located in the R-8 and R-20 zone, which requires a special use permit for the lighting of the athletic field area.

The existing rectangular athletic field is a well-used, and much needed athletic/recreational resource in the City, including scheduled use by the Alexandria Department of Recreation and Cultural Activities. In order to better meet the recreational needs of Alexandria's citizens and the students of Hammond Middle School, and to improve evening use of the site, ACPS is proposing to add lighting to the athletic field. The proposed lighting for the athletic field will consist of field lights mounted on four poles on both sides of the field, with a maximum height of 70 feet.

In addition to lighting the field, ACPS proposes to add safety lighting for the track as a courtesy to neighboring citizens so that they have the ability to use the track in the evening. Safety lighting for the track will be provided with fixtures that will be mounted on the same four 70' poles at a lower height and lower lighting level.

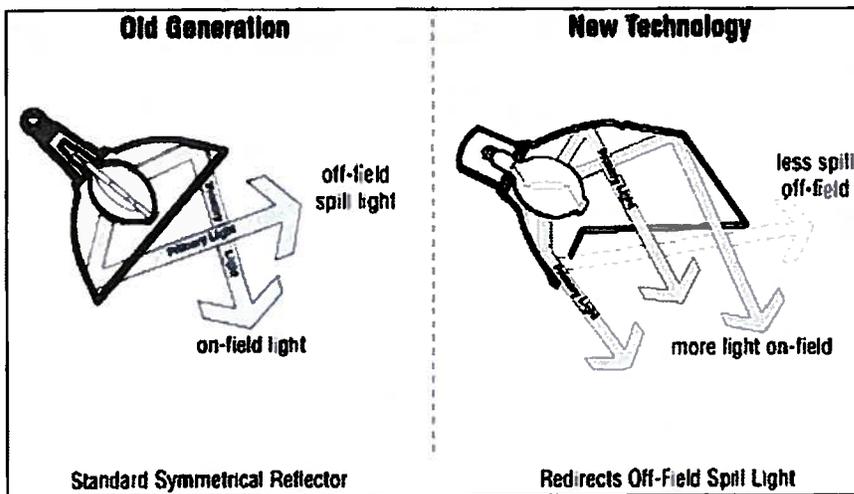

Locations for the light poles are indicated on the proposed site plan (attached). The proposed lighting system will use technologically advanced fixtures that significantly limit light spill-over beyond the playing field area and track. An example of a similar product is attached for information/demonstration only (please see below in this narrative).

In addition to the athletic field lighting, ACPS requests approval to construct a ~~storage shed and bleachers~~ adjacent to the athletic field and track. The ~~storage~~ structure would not exceed 2,900 square feet and would be used to store equipment used by the athletic department at Hammond Middle School. Bleachers are proposed in an area adjacent to the school and at alternate locations at the ends of the field to provide seating for users and spectators of the field and track.

Additional improvements to the Hammond Middle School athletic field and track are planned in the future, including the replacement of the existing natural turf field with a synthetic turf infill system. In addition, the existing track will be reconfigured around the synthetic turf field. These improvements will better accommodate athletic activities at Hammond Middle School. These field improvements and track will be submitted to the City under a separate grading plan application.
