MEMORANDUM

DATE: JUNE 6, 2008

TO: THE HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL

FROM: JAMES K. HARTMANN, CITY MANAGER

SUBJECT: ORDINANCE CLARIFYING THE REGULATIONS PERTAINING TO TRUCK HAUL ROUTE PERMITS

ISSUE: Consideration of an ordinance to clarify the regulations under which a truck haul route permit is required.

RECOMMENDATION: That City Council approve the proposed ordinance on first reading on Tuesday, June 10, and set it for public hearing, second reading, and final passage on Saturday, June 14.

BACKGROUND: The General Assembly of Virginia, in Section 2.04(j) of the City Charter, has given the City authority to "regulate or prohibit . . . the transportation of any offensive or dangerous substance," and in Section 2.04(o) to regulate the transportation of "inflammable substances." With respect to solid waste haulers, City Code Section 5-1-51, and other haulers, Code Section 5-2-27, City Council has established a uniform regulatory scheme which requires concentrated, high-volume, high-frequency bulk haulers to obtain a permit which specifies, inter alia, reasonable haul routes designed to minimize harmful impacts and promote safety.

DISCUSSION: Notwithstanding this comprehensive and long-standing regulatory scheme, the operators of the newly instituted high-frequency, high-volume ethanol hauling business have asserted that the haul route permit requirement does not apply to their operation.

In order to obviate any lack of clarity in the applicability of the haul route permit requirements, the proposed ordinance amends City Code Section 5-2-27 to specifically include bulk commodity and material haulers, including haulers not associated with construction activities. That ethanol hauling at the present scale and intensity is a new operation in the City, whereas construction is not, is no grounds for excluding that new operation from the established regulatory scheme.

In addition, the proposed ordinance further clarifies existing law to make explicit that a permit is not required for bulk deliveries to widely dispersed retail merchant businesses, such as gasoline
stations or retail lumber yards, or from such merchants to dispersed sites, such as small
renovation projects, which do not at the destination site exceed the five delivery per month
threshold for obtaining a permit.

New and additional truck traffic in the City necessitates these clarifications, in order better to
promote traffic safety, and to reduce the likelihood of disruption to established residential and
commercial areas in the City.

INFORMATION ON PROPOSED ORDINANCE

Title

AN ORDINANCE to amend and reordain Section 5-2-27 (HAULING OF WASTE MATERIALS, CONSTRUCTION MATERIALS, ETC., PROHIBITED) of Chapter 2 (STREETS AND SIDEWALKS), Title 5 (TRANSPORTATION AND ENVIRONMENTAL SERVICES) of The Code of the City of Alexandria, Virginia, 1981, as amended.

Summary

The proposed ordinance clarifies existing law by amending Section 5-2-27 of the City Code to make explicit that a hauling permit is required for all types of bulk materials and commodities, not just such materials and commodities utilized in connection with construction activities. The ordinance further clarifies existing law to make explicit that a permit is not required for bulk deliveries to retail merchants, such as gasoline stations or retail lumber yards, or from such merchants to sites, such as small renovation projects, which do not themselves trigger a permit requirement. New and additional truck traffic in the City necessitates these clarifications, in order better to promote traffic safety, and to reduce the likelihood of disruption to established residential and commercial areas in the City.
