

City of Alexandria

MEMORANDUM

DATE: MARCH 12, 2012

TO: THE HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL

FROM: RASHAD M. YOUNG, CITY MANAGER 

SUBJECT: STATUS REPORT (NO. 4) ON LEGISLATION INTRODUCED AT THE 2012 GENERAL ASSEMBLY SESSION

ISSUE: Status report (No. 4) on legislation introduced at the 2012 General Assembly Session.

RECOMMENDATION: That City Council receive this report.

DISCUSSION: The 2012 General Assembly Session adjourned as scheduled on March 10. Unfortunately, the House and Senate failed to pass a budget or to fill judicial vacancies. As a result, the General Assembly convened a Special Session—to deal with these two issues—immediately after it adjourned. The Special Session recessed immediately and is scheduled to reconvene on March 21.

City Package. The following are bills from the City's legislative package that the City asked members of the City's delegation to introduce or support (Attachment 1 is a status report on "City Package" bills):

- The final bill (HB 1063) that would have allowed local school boards to set the opening day of school was defeated by the Senate Education and Health Committee on a vote of 9-6.
- SB 261, introduced by Senator Ebbin, sought to create a grant program to improve preschool programs, using unused moneys that have been appropriated to the Virginia Preschool Initiative. It passed the Senate, but was defeated by the House Appropriations Committee, which had defeated an identical bill (patroned by Delegate Englin) several weeks ago.
- HB 894 and SB 493 are identical bills that direct the State Corporation Commission to evaluate potential energy saving and conservation projects based on total energy savings and the return on investment they create for the entire state. The bills passed both the House and Senate. The Governor proposed an amendment (which was accepted by the General Assembly) to make the legislation effective immediately.

Attachment 2 is a report on other bills on which the City has taken a position.

Resolution Commending the Alexandria Library. Senator Ebbin introduced a resolution commending the Alexandria Library as it celebrates its 75th anniversary as a public library. Copatrons on the resolution were the other members of the City's delegation. Attachment 3 is a copy of the resolution.

Regional Transportation Governance—NVTC and NVTA. Bills were introduced in both houses on behalf of the Governor to make a number of changes relating to government organization. One of these was a proposal to combine the Northern Virginia Transportation Authority (NVTA) and the Northern Virginia Transportation Commission (NVTC). After much discussion, the proposal was modified to have NVTA, NVTC and the Northern Virginia Regional Commission (NVRC) undertake a study and propose an implementation plan that would combine NVTA, NVTC, and NVRC into one or two organizations.

When the bill was considered by the House and Senate, each body included different language in a number of the bill's provisions. Because of this, it was sent to a Conference Committee to develop compromise language. Some of the proponents of the NVTA-NVTC merger sought to have the three organizations merged into one—rather than one or two. Others opposed this change, noting that the original language seeking one or two organizations had been developed after negotiation with local officials on VML Day. Furthermore, they said, it is premature to assume the best alternative is to combine all three existing organizations into one.

As a result, a group of Senators agreed not to support inclusion of the NVTA-NVTC merger in the reorganization legislation. Instead, they developed a letter (Attachment 4) that is being sent to the Chairs of NVTA, NVTC, NVRC, and the Potomac and Rappahannock Transportation Commission (PRTC), which performs some of the same functions as NVTC for localities between Prince William and Spotsylvania Counties. The letter, signed by nearly all members of the Northern Virginia delegation, asks that the four organizations study whether any consolidation of these organizations is advisable, and address issues such as governance, membership, voting procedures, geographical representation, legal obstacles, funding matters, and the role of the Transportation Planning Board in the regional transportation planning process. The letter also asks that the study be completed by October 1, 2012.

Regional Transportation Governance—WMATA Board. Legislation (HB 601) to set qualifications and requirements for persons appointed to the WMATA Board has passed the House and the Senate. In the Senate, it was modified to:

- Specifically require that the Governor's designee to the WMATA Board be a resident of a locality served by WMATA.
- Clarify that persons already serving on the WMATA Board will not have their service prior to July 1, 2012, counted toward the term limit of two consecutive four-year terms.
- State that any person appointed to an initial one or two-year term will not have that term counted toward the term limit of two consecutive four-year terms.

- Make anyone appointed to an unexpired term, in which two years or less is remaining, eligible to serve two consecutive four year terms after completing the unexpired term.

Transportation Funding. The House and Senate reached agreement on the Governor's transportation proposal. The most controversial portion of the bill, which would have used general fund sales tax revenues for transportation, was removed from bill. Components that remain include the following:

- The Commonwealth will sell naming rights to private entities for state highways, bridges, interchanges, and other transportation facilities.
- The VDOT revenue sharing program (the State provides a match equal to local revenue being spent on projects) will be available for maintenance projects; prior to now, it was limited to construction projects. Alexandria has participated in this program.
- The Commonwealth Transportation Board (CTB) may allocate up to \$500 million annually, outside the normal funding formula, for what it deems to be priority projects including bridge reconstruction and rehabilitation, reconstructing deteriorated interstate and primary system pavements, Public-Private Transportation Act projects, and paving unpaved roads.
- Every locality must ensure that its transportation plan, which is a component of its comprehensive plan, is consistent with the Commonwealth Transportation Board's Statewide Transportation Plan and Six Year Plan. Prior to the adoption of the transportation plan or any amendment thereto, each locality must submit the plan or amendment to VDOT for review and comment. VDOT then has 90 days (or another deadline if agreed upon by both parties) to provide written comments to the locality. Once the plan or amendment is adopted, the locality must resubmit it to VDOT for "informational" purposes. If VDOT finds that the submission is inconsistent with the VDOT Statewide or Six Year plans, it can allocate funds away from any non-conforming projects in the locality.
- If a locality asks the CTB to terminate an active federal or State-funded project, or fails to advance a project once it is underway, the CTB may require the locality to reimburse the State for any funds that have been spent.
- If a locality requests changes to a project once it is underway (even if this is due to unforeseen circumstances), and the changes will cost more than 10 percent of total project costs, the CTB can require the locality to pay for the additional costs.

State Budget. As Council is aware, adoption of a 2012-2014 State budget did not occur prior to the close of Session. The Senate membership is evenly split between Democrats and Republicans, and both party caucuses are voting as a bloc on the budget. Since 21 Senators must

vote to approve the budget (the Lieutenant Governor cannot break a tie on the budget), the Senate was unable to enact a budget bill. There are, however, informal talks taking place between House Appropriations and Senate Finance Committee members, aimed at resolving differences between the House budget and the Senate Finance Committee budget. The General Assembly is scheduled to return to Richmond on March 21 to continue the Special Session.

Virginia Retirement System (VRS). The General Assembly considered four bills proposing significant changes to the Virginia Retirement System during the 2012 Session. SB 497 sought to require local government and school employees to pay the five percent employee contribution to VRS, and local governments to give their employees a salary increase equal to the employee contribution amount. SB 498 would have created a new hybrid retirement plan that would be mandatory for most new VRS-covered employees and would include defined benefit and defined contribution components. HB 1129 proposed major changes to the current defined benefit plan for Pre-2010 (Plan A) employees, including a lengthier period of time for calculation of average final pay; caps on cost of living adjustments; and a reduction in the multiplier (the percentage of average salary multiplied by years of service to determine retirement benefits). HB 1130 would have created a new optional hybrid retirement plan with defined benefit and defined contribution components for state employees.

On the last day of Session, the House and Senate agreed on compromise legislation. As a result:

- Teachers and local employees will be required to pay five percent of their salary as the employee contribution beginning July 1, 2012 (localities and school boards may choose to phase in the employee contributions and raises over a 5-year period for employees who were hired prior to July 1, 2012). Local governments and school boards will be required to increase employee salaries by a like percentage to cover this contribution.
- New employees (state and local, including teachers) not vested prior to January 1, 2014¹ will be required to participate in a hybrid plan (defined benefit/defined contribution); existing employees will be given the opportunity to participate in the plan if they choose to do so. The hybrid plan will require an employee contribution of 4 percent, and an employer contribution rate for the defined benefit component that will be determined actuarially. The defined benefit pension will be based on a multiplier of 1 (as opposed to 1.7 currently), so the benefit will be lower than under the current defined benefit plan.² For the defined contribution component, employees will have to contribute at least one percent and may contribute up to 5 percent of salary. The employer will be required to provide an equal match for the first 2 percent, and must contribute 0.5 percent for every 1.0 percent contributed by the employee in excess of 2 percent; the maximum employer

¹ Vesting occurs once an employee has been a member of VRS for 5 years.

² For example, an employee under the current VRS defined benefit plan who works for 30 years and whose average salary for the last 3 years was \$100,000 will receive \$51,000 annually (not counting COLAs) once he retires ($\$100,000 \times 30 \times 1.7 = \$51,000$). Under the new defined benefit portion of the plan, the same person will receive \$30,000 annually ($\$100,000 \times 30 \times 1 = \$30,000$). Under the hybrid plan, the employee will receive additional retirement income from the defined contribution plan.

contribution for each employee under the defined contribution portion of the plan will be 3.5 percent. Local governments will be required to participate in the VRS deferred compensation plan to the extent necessary to provide benefits under the hybrid retirement plan.

- Changes were also made to the existing defined benefit plan. For Plan 2 employees (those hired after June 30, 2010) and non-vested Plan 1 employees (those hired into a VRS-covered position prior to 7/1/10 who currently have less than 5 years' service), the multiplier used to determine benefits is lowered from 1.7 to 1.65; the average final compensation will be determined by the average salary over 60 months (it is now 36 months); and the annual COLA is capped at 3 percent.
- In the future, the State must use the VRS Board actuarial assumptions³ (although the requirement to do so is being phased in over 6 years). More often than not in the past, the State assumed a rate of return on investments that was higher than the VRS actuary assumption. This has resulted in a large unfunded liability for the teacher and state employee plans.

Staff is continuing to review the VRS legislation, and will provide Council with some additional information at the March 13 meeting. A more comprehensive review, with greater analysis of the impact of the legislation on the City budget and City employees, will take place at the budget work session on employee compensation and school issues planned for March 28.

³ The VRS Board recently set the investment return rate at 7 percent. The Governor and General Assembly overrode the Board decision and set it at 8 percent. Once the requirement to follow the VRS Board decision is phased in, the Governor and General Assembly will not be able to set a different rate.

Summary as passed:

Provides that an energy efficiency program proposed by an electric utility is in the public interest if, among other factors, the net present value of the benefits exceeds the net present value of the costs as determined by the Commission upon consideration of the following four tests: (i) the Total Resource Cost Test; (ii) the Utility Cost Test (also referred to as the Program Administrator Test); (iii) the Participant Test; and (iv) the Ratepayer Impact Measure Test. The Commission's determination shall include an analysis of all four tests, and a program or portfolio of programs shall not be rejected based solely on the results of a single test. An electric utility's energy efficiency program may be deemed to be in the public interest if it provides measurable and verifiable energy savings to low-income customers or elderly customers. The current standard for what constitutes a cost-effective conservation and energy efficiency program conducted by a natural gas utility is revised to conform to these new provisions for electric utilities. Finally, the measure expands the definition of "energy efficiency program" with regard to electric utilities to include customer engagement programs that result in measurable and verifiable energy savings that lead to efficient use patterns and practices. Constitutional amendment (second resolution); taking or damaging of private property; public use. Revises the prohibition on the enactment by the General Assembly of laws whereby private property may be taken or damaged. An existing provision authorizing the General Assembly to define what constitutes a public use is removed. The proposed amendment provides that private property can be taken or damaged only for a public use, only with just compensation to the owner, and only so much taken as is necessary for the public use. Just compensation must equal or exceed the value of the property taken, lost profits and lost access, and damages to the residue caused by the taking. A public service company, public service corporation, or railroad exercises the power of eminent domain for public use when such exercise is for the authorized provision of utility, common carrier, or railroad services. In all other cases, a taking or damaging of private property is not for public use if the primary use is for private gain, private benefit, private enterprise, increasing jobs, increasing tax revenue, or economic development, except for the elimination of a public nuisance existing on the property. The condemnor bears the burden of proving that the use is public, without a presumption that it is.

A public service company, public service corporation, or railroad exercises the power of eminent domain for public use when such exercise is for the authorized provision of utility, common carrier, or railroad services. In all other cases, a taking or damaging of private property is not for public use if the primary use is for private gain, private benefit, private enterprise, increasing jobs, increasing tax revenue, or economic development, except for the elimination of a public nuisance existing on the property. The condemnor bears the burden of proving that the use is public, without a presumption that it is. The Resolution incorporates SJR 67 and SJR 117.

SB 162 Fuels taxes; indexing of tax rates.

Patron: Petersen

Summary as introduced:

Fuels taxes; indexing of tax rates. Increases or decreases each year the rates of Virginia's fuels taxes using a fuel efficiency index. The bill would define the fuel efficiency index as the quotient that is obtained when using as the numerator the total annual vehicle miles traveled in the Commonwealth for the relevant year and using as the denominator the total gallons of motor fuel consumed for highway use in the Commonwealth for the relevant year. The numerator and denominator would be the corresponding amounts as published by the Federal Highway Administration of the United States Department of Transportation. The bill would establish 2007 as the base year for the fuel efficiency index. Thus, the percentage change in the fuel efficiency index between the current year and 2007, the base year, would determine the annual percentage increase or decrease in the rates of Virginia's fuels taxes. Each December the Commissioner of the Department of Motor Vehicles would compute the adjusted rates of fuels taxes. Currently, Virginia's fuels taxes are fixed at the rate of \$0.175 per gallon for each gallon of gasoline, gasohol, and diesel fuel.

Hon. Michael C. May, Chairman
Potomac and Rappahannock Transportation Commission
14700 Potomac Mills Road
Woodbridge, VA 22192

Dear Chairmen Fiset, Nohe, and May:

As you are aware, the General Assembly has spent much time discussing issues related to regional planning including the coordination and duplication of transportation planning and services in Northern Virginia. Various legislative proposals have called for a merger of "planning" functions in several Northern Virginia agencies including the Northern Virginia Transportation Authority (NVTA), Northern Virginia Transportation Commission (NVTC), Northern Virginia Regional Commission (NVRC), certain functions located in the Metropolitan Washington Council of Governments Transportation Planning Board (TPB) and the Potomac Rappahannock Transportation Commission (PRTC).

As chairs of NVTA, NVRC, NVTC and PRTC we ask you to engage your organizations in an effort to determine whether consolidation and/or improved coordination would enhance regional planning, including transportation planning and services. The goal of this effort should be to accomplish the stated missions of these organizations in a more efficient and effective manner. It would be wise to consider issues related to governance, membership, voting procedures, geographical representation, legal obstacles and funding matters in your study. The study should also consider the role of the TPB in Northern

Virginia regional planning processes and also address any potential impacts on the Virginia Railway Express (VRE). We ask that your recommendations be presented to us by October 1, 2012.

Like you, we believe that regional planning is worth getting right. Thank you in advance for your efforts.

Sincerely,

Members of the Northern Virginia Delegation
