I. DISCUSSION

The applicant, Prime Auto Care, Inc. by Robert Byrnes, agent, requests Special Use Permit approval to continue operation of a noncomplying general automobile repair business at 311 North Henry Street.

SITE DESCRIPTION

The subject property consists of five lots of record with 104.5 feet of frontage on North Henry Street, 116 feet of depth and a total lot area of 12,122 square feet. The site is developed with a two-story, 3,912 square-foot building.

The surrounding land uses include residential townhouses to the east and west and a mix of commercial and residential uses to the north and south along North Henry Street. A public alley borders the site on the south.

BACKGROUND

An automotive rental business was first approved at the subject site in 1985. A five-year expiration date was first included in 1990 when City Council approved SUP#1778B to change the business to general automobile repair. The subject property was rezoned in 1992 and the existing general automobile repair became a noncomplying use. City Council approved five year extensions for the business on four occasions, the most recent of which occurred in December 2006 (SUP#2006-0089).

On July 18, 2011 staff inspected the premises and found one minor violation of the condition of SUP#2006-0089 regarding the storage of vehicle tires outside of a proper receptacle, which the applicant promptly corrected.

PROPOSAL

The applicant proposes to continue operating his general automobile repair business for an additional five years. The business offers vehicle tune-ups, transmission work, and other repairs to approximately five to ten customers each day in a total of five repair bays. Additional elements of the applicant’s business are as follows:

Hours of Operation: 7:30am – 7:00pm, Monday-Friday
                   9:00am – 5:00pm Saturdays
Number of Employees: Four
Number of Customers: Approximately five to ten each day
Noise: Low noise levels are expected. Compressor unit has been boxed to reduce noise potential.
Odors: No odors are anticipated
Trash/Recycling: Boxes, hoses, small parts and paper products are disposed in on-site dumpster and is collected once each week. Used antifreeze and motor oil is collected and recycled once each month.

PARKING

According to Section 8-200(A)(17) of the Zoning Ordinance, a general auto repair use requires one parking space for every 400 square feet. A 3,912 square-foot general auto repair use will be required to provide 10 off-street parking spaces. The applicant exceeds this parking requirement with 19 parking spaces on the property.

ZONING/MASTER PLAN DESIGNATION

The subject property is located in the CL zone, having been rezoned from I-1 / Industrial in 1992. The business is a noncomplying use since automobile repair uses are not allowed in the CL zone.

The existing use is not consistent with the Braddock Road Small Area Plan chapter of the Master Plan which designates the property for Commercial Low uses.

II. STAFF ANALYSIS

Staff does not object to a five-year extension of the applicant’s Special Use Permit to allow for the continuation of the general automobile repair business. The site is in good condition generally and the business has operated without any complaints since prior SUP approval. The business has the appearance of being a single-family dwelling from the street, which enhances its compatibility in the neighborhood despite being a noncomplying use.

Redevelopment of this site in a manner consistent with the Braddock Road Metro Station Small Area Plan has been anticipated for many years and is the reason for the inclusion of an expiration date in prior SUP approvals. Staff finds that this redevelopment is likely to occur at some point in the future, especially now that the Braddock Metro Neighborhood Plan is complete. Given the current economic climate, however, redevelopment seems unlikely in the next five years. Staff is therefore recommending the continued operation of the business but with another five-year expiration date so that the site’s redevelopment potential may be reassessed at that time.
Staff’s approach here is consistent with the City Council’s inclusion of a five-year expiration date in an SUP for a light automobile repair business on Madison Street near Route 1 approved about a year ago.

Staff has included minor changes to existing condition language and new standard condition language requiring the applicant to pick-up litter at and around the site and to schedule a security survey with the Police Department. Subject to the conditions included in Section III of this report, staff recommends approval of the applicant’s request.
