FROM: PHILIP SUNDERLAND, CITY MANAGER *PS*

SUBJECT: BUDGET MEMO # 43 : UPDATED FY 2002 BUDGET DATA FOR
NORTHERN VIRGINIA JURISDICTIONS

Attachment 1 provides updated comparative budget summary data for the City of Alexandria and six of its neighboring jurisdictions (Fairfax, Arlington, Loudoun and Prince William Counties, and Falls Church and Fairfax Cities). All of these six jurisdictions have now adopted their budgets. This memo updates budget memo # 11 by providing updated budget information for the adopted budgets of Prince William County, Fairfax County and the City of Falls Church.

The major budget and tax rate information for each of the major Northern Virginia jurisdictions are described below¹.

Arlington County (adopted):

- The adopted CY 2001 real property tax rate of \$1.023 per \$100 of assessed value remains the same as the CY 2000 adopted tax rate.
- The FY 2002 budget, when proposed, funded a 2.0 percent cost-of-living (COLA) increase for all County and school employees. Subsequent to presenting the proposed budget, the County Manager increased the recommended COLA for County and school employees to 3.0 percent. Additional pay enhancements for County employees include a 1.0 percent market adjustment, adding three steps (15, 16 and 17) to the pay scale and eliminating 2-year step increments.
- The approved FY 2002 Arlington County General Fund budget represents an increase of 8.0 percent as compared to the FY 2001 approved General Fund budget.
- The Board formally adopted the budget on April 16, 2001.

¹ Real property tax rates in Virginia are established on a calendar year basis, with the calendar year tax rate set in conjunction with the annual fiscal year budget.

Fairfax County (adopted):

Employees at the top of their pay scale will be eligible for annual bonuses of 0, 3.0 or 5.0 percent. Pay scales will be reviewed against the market annually and adjustments to the overall grade range will be made as necessary.

- ¹⁵ Although Loudoun County is not a comparator for pay purposes, 2.0 percent COLA has been adopted for government employees and 3.0 percent COLA for school employees.
- ¹⁶ In many cases, in-step increases vary depending upon length of service and type of employee. "Yes" indicates that monies are included in the proposed budget to fully fund these merit (in-step) increases.
- ¹⁷ Pay-for-Performance replaced the merit increment system for all merit employees except uniformed public safety personnel. Under the new system, all merit employees will be eligible for increases of 0, 3.0, 5.0, or 7.0 percent based on their performance rating until they reach the top of their pay grade. Employees at the top their pay scale will be eligible for annual bonuses of 0, 3.0, or 5.0 percent.
- ¹⁸ Prince William County General Government will receive a Merit in-Step increase from 3.1 to 3.8 percent for eligible employees and School employees will receive a step increase of 2.6 percent for satisfactory performance.
- ¹⁹ Although Loudoun County is not a comparator jurisdiction for pay purposes, a Pay-for-Performance increase averaging 8.0 percent for lower grade employees and 4.0 percent for higher grade employees has been adopted for government employees. School employees will receive an average increase of 3.5 percent for FY 2002.
- ¹⁰ Falls Church has a Pay for Performance system, with an average increase of 4.4 percent.
- ¹¹ Unreserved General Fund Balance is the accumulated total of all prior years' General Fund revenues in excess of expenditures. The larger the unreserved General Fund balance, the greater a jurisdiction's ability to cope with financial emergencies and fluctuations in revenue cycles. Unreserved General Fund balance is composed of "designated" and "undesignated" resources. Designated unreserved General Fund balance contains resources set aside for contingencies and specific purposes.
