

City of Alexandria, Virginia

14
11-27-01

MEMORANDUM

DATE: NOVEMBER 14, 2001

TO: THE HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL

FROM: PHILIP SUNDERLAND, CITY MANAGER *PS*

SUBJECT: COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR) FOR THE FISCAL YEAR ENDED JUNE 30, 2001

ISSUE: Receipt of the City's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2001.

RECOMMENDATION: That City Council receive the Comprehensive Annual Financial Report for the fiscal year ended June 30, 2001.

DISCUSSION: Virginia Code §15.2-2511 requires that all local governments have their books and records audited by an independent certified public accountant as of June 30 of each year. The State Code further requires the certified public accountant to present a written report to the local governing body at a public session by the following December 31.

Attached is a copy of the City's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2001, which meets the State requirement. This report, which follows a format prescribed by the national Governmental Accounting Standards Board (GASB), includes a description of the significant financial events of the fiscal year; the reports from KPMG LLP, the City's independent certified public accountants; the City's audited financial statements; and, selected financial and demographic information.

The following are highlights of the report:

- This is the second year the City has used new national accounting standards to prepare its financial statements. The City of Alexandria was the first local government in Virginia and among the first in the nation to issue its CAFR using the financial reporting model required by GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. That statement established a whole new financial reporting framework, or governmental financial reporting model. GASB Statement No. 34 mandated that by the end of Fiscal Year 2002, governments comparable to the City of Alexandria amend their financial reporting to provide additional information about their fiscal health, including information about the status of

public infrastructure. The "Report Format" section of this transmittal letter includes a detailed discussion of this new reporting starting on page 14 of the CAFR.

- On this entity-wide basis, the City government has recorded \$264.8 million in net assets (CAFR, Exhibit I, page 37) with the investment in capital assets and capital project commitments comprising \$181.3 million and \$58.3 million, respectively, of the total.
- Under the new model, the City government's net assets decreased by \$3.8 million in FY 2001 (CAFR, Exhibit II, page 39). The primary factor contributing to this decrease is the City's transfer in FY 2001 of \$17.6 million to City Schools capital accounts, which is not considered an asset of the City government using GASB 34 criteria.
- As reported in the Monthly Financial Report to City Council for the Period Ending September 30, 2001, General Fund revenues totaled \$337.0 million (CAFR, Exhibit IV, page 41). Final General Fund expenditures totaled \$289.2 million and transfers to other City funds totaled \$44.9 million (CAFR, Exhibit IV, page 41).
- Driven largely by an ongoing, expanding local economy, FY 2001 General Fund revenues exceeded budgeted revenues by 5.9% or \$18.9 million (CAFR, Exhibit XIII, page 102). Most of these additional revenues were projected at the time the FY 2002 budget was approved, with some \$17.5 million set aside for cash capital projects in FY 2002 and FY 2003. Real and personal property taxes including penalties and interest, exceeded budget by \$5.7 million. Other Local Taxes, which exceeded budget by \$7.9 million, included excess recordation taxes (\$0.8 million), sales taxes (\$0.6 million), consumer utility taxes (\$1.5 million), business license taxes (\$3.0 million) and meal taxes (\$0.8 million). Permits, Fees and Licenses exceeded budget by \$0.3 million, and Fines and Forfeitures were less than budget by \$0.1 million (primarily due to decreased red light camera revenues). Interest earnings on the City's cash were \$2.7 million higher than budget primarily because of increased interest rates in the beginning of the year and increased available cash balances available for investment. General Fund expenditures ended the year with approximately \$6.2 million unexpended.
- After accounting for the allocation of projected excess revenues and underexpenditures, the City ended FY 2001 with some \$1.8 million greater than what was projected at the time the FY 2002 budget was adopted.
- Undesignated General Fund balance of \$22.5 million (page 139) as a percentage of the General Fund revenues was 6.6 percent at the end of FY 2001 (CAFR, page 12), which is greater than the adopted target for General Fund balance as a percentage of General Fund revenues of 5.5 percent. Undesignated General Fund balance is the accumulated total of all prior years actual General Fund revenues in excess of expenditures, less resources reserved for inventory and encumbrances and less resources designated for the FY 2002 operating budget, self-insurance, compensated absences, subsequent years' capital expenditures and ongoing projects (CAFR, page 58).

- Including the effects of a planned \$27.6 million transfer to capital projects (CAFR, page 82) to fund the pay-as-you-go portion of the Capital Improvement Program, total Unreserved General Fund balance, which includes all designated and undesignated resources, was \$55.8 million at the end of FY 2001 (CAFR, Exhibit III, page 40), which compares to the total Unreserved General Fund balance of \$53.1 million at the end of FY 2000.
- The City continues to comply with all of the debt-related financial targets. (CAFR, page 12).
- The City's financial statements for the year ended June 30, 2001, have received a "clean opinion" from the auditors. The auditors found that the City's financial statements "present fairly" the City's financial position and results of operations (CAFR, page 21) and that the City has complied with applicable laws and regulations related to federal grants (CAFR, pages 146 and 147).
- There were no audit findings related to federal grants.
- Because they are financially dependent on the City, certain financial information for the Alexandria City Public Schools (ACPS), the City of Alexandria Library System, and the Alexandria Transit Company (which operates the DASH bus system) are included in the City's CAFR as component units.

Staff is confident that our FY 2001 CAFR will be awarded the Government Finance Officers Association's Certificate of Achievement for Excellence in Financial Reporting. The City has received this award for the last 23 consecutive years.

The City also received a Certificate of Recognition for early implementation of GASB Statement No. 34 from GASB for our FY 2000 CAFR. GASB Chairman Tom Allen said "Statement 34 is the most significant change in the history of governmental accounting. It represents a dramatic shift in the way state and local governments present financial information to the public." Mr. Allen also said "We (GASB Board) are extremely pleased and impressed by your City's ability to prepare the new financial statements in such a timely fashion."

When Standard & Poor's (S&P) issued their report re-affirming the City's AAA bond rating this past June, they noted that the City had "consistently strong financial operations and planning that employ practices that are in the forefront of government management." This is among the most positive statements that many in the municipal finance sector have ever seen stated by a bond rating agency about a governmental entity's financial management. It appears that the combination of long-standing Council-adopted financial policy guidelines (the bond rating agencies are pressing other jurisdictions to adopt written debt policies) and the City's early implementation of new national accounting and reporting standards (GASB 34) triggered this very positive language. It should be noted that Alexandria implemented GASB 34 two years before it was required for local governments of our size, and in doing so, the City was the largest

unit of government in the nation to fully implement these new and complex accounting and reporting standards.

INTRODUCTORY SECTION

ALEXANDRIA CITY GOVERNMENT ORGANIZATIONAL CHART

November 2, 2001

To the Honorable Mayor and Members of City Council,
the Citizens of the City of Alexandria, and
the Financial Community:

We are pleased to present the City of Alexandria's (the City) **Comprehensive Annual Financial Report** (the CAFR) for the fiscal year ended June 30, 2001. The report is designed to present fairly the financial position and results of financial operations of the City in all material respects and to demonstrate compliance with applicable finance-related legal and contractual provisions. The report adheres to the principle of full disclosure so that the reader may gain the maximum understanding of the City's financial affairs.

The Finance Department has prepared this report in accordance with the following standards:

- Accounting principles generally accepted in the United States, which are uniform minimum standards and guidelines for financial accounting and reporting in the United States;
- Governmental accounting and financial reporting statements, interpretations and technical bulletins issued by the Governmental Accounting Standards Board (GASB), including GASB Statement No. 34 which the City fully implemented beginning with the FY 2000 CAFR and;
- Uniform financial reporting standards for counties, cities and towns issued by the Commonwealth of Virginia's Auditor of Public Accounts (APA).

The responsibility for the accuracy, completeness and fairness of the data presented in the report, including all disclosures, rests with the City.

THE CITY

Alexandria, Virginia, which is located on the west bank of the Potomac River across from Washington, D.C., is an integral part of the Washington metropolitan area, serving as a financial, commercial, and transportation center. Alexandria is also one of America's most historic cities. George Washington and George Mason served as two of the City's first Trustees (the forerunner of the Alexandria City Council.)

Alexandria is an independent full-service city with sole local government taxing power within its boundaries. The City is autonomous from any county, town or other political subdivision of the Commonwealth of Virginia. Alexandria derives its governing authority from a charter granted by the General Assembly of the Commonwealth of Virginia.

The City adopted the Council-Manager form of government in 1922. The governing body of the City is the City Council, which formulates policies for the administration of the City. The City Council is composed of a Mayor and six Council Members elected at-large for three-year terms. The Mayor is elected on a separate ballot. City Council appoints the City Manager who serves as the City's chief executive officer and is responsible for implementing the policies established by City Council.

The City provides a comprehensive range of municipal services including education, health, welfare, housing and human services programs, public safety and administration of justice, community development, recreation, library, cultural and historic activities, transportation, environmental services, and planning.

FINANCIAL REPORTING ENTITY

This report includes the financial activities of the City of Alexandria government (the primary government), as well as the financial activities of the City's component units. Component units are legally separate entities for which the primary government is financially accountable. Discretely presented component units are reported in a separate column in the financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operations, and cash flows from those of the primary government. The School Board, the Library System, and the Alexandria Transit Company are reported as discretely presented component units. This report does not include the financial activities of the City's Deferred Compensation Plan, Alexandria Hospital, Alexandria Industrial Development Authority, Alexandria Redevelopment and Housing Authority, Alexandria Economic Development Partnership, Inc., Alexandria Sanitation Authority, or Sheltered Homes of Alexandria because the City Council is not financially accountable for these entities and therefore these entities are not component units.

LOCAL ECONOMY

Over the last decade, Alexandria has emerged as a major job center in the Washington metropolitan area, with over 94,000 persons employed as of December 31, 2000 in a broad range of industries, including corporate headquarters, technology firms, and national trade and professional associations. During 2000 and 2001, the local economy had modest growth in real terms. Local jobless rates rose last year, from 1.8 to 2.9 percent as of June 30, 2001. Given the City's proximity to National Airport and the Pentagon, the events of September 11, 2001 had an immediate effect on the City's economy and tax revenues. However, the City projects that most of the negative impact will taper off by the end of FY 2002. The City Manager has directed departments to develop operating and capital budget contingency plans in order to keep the FY 2002 budget in balance.

The real estate market, which is the principal source of tax revenue for area local governments, has improved. Total real property assessments increased by 10.1 percent, or \$1.3 billion. Of the total increase, 31.5 percent is the result of new growth, including \$169.8 million in new residential growth and \$251.6 million in new commercial growth. The reassessments of existing properties increased \$895.7 million, reflecting the strong market demand for residential properties, as well as the healthy condition of income producing commercial properties. Some new residential and commercial development in Eisenhower Valley, Cameron Station, and Potomac Yard is expected to continue to contribute to some growth over the next decade and beyond. As these last few major undeveloped parcels are built out, however, fewer opportunities for this type of new development will become available.

MAJOR INITIATIVES

Strong fiscal management remains a hallmark of Alexandria's City government and has enabled the City to respond to priority needs, including public safety, public education, and modernization of heavily used recreation and library facilities. Alexandria is among an elite group of cities in the United States to hold the top AAA/Aaa bond ratings from both of Wall Street's major credit rating agencies. These top bond ratings were reconfirmed in June 2001.

During the past fiscal year, the City made progress in a number of important areas:

- In FY 2001, a newly renovated fire station and fire administrative headquarters was completed and reopened to the public. In September 2000, the City opened the first new public school in the City in 30 years. Development continues in Cameron Station, one of the largest new residential developments in the City and the City completed and opened a new Cameron Station park.
- During the 2001 fiscal year, Alexandria continued to enjoy a strong economy, but signs of a slowdown have started. The City's office vacancy rate on June 30, 2001 was 7.6 percent, which is higher than last year, but still low. Retail sales grew by 4.7 percent, down from 6.7 percent in FY 2000. Unemployment and violent crime remain down and the City experienced continued growth in its population and an increase in its diversity as more families, single professionals and retirees discovered Alexandria's outstanding quality of life.

SERVICE EFFORTS AND ACCOMPLISHMENTS - ALEXANDRIA INFORMATION TECHNOLOGY SERVICES

In accordance with Government Accounting Standards Board (GASB) Concept Statement No. 1, Service Efforts and Accomplishments, each year the City selects a department to highlight for its efforts and accomplishments. In FY 2001, the Information Technology Services Department has been selected for its efforts and accomplishments.

The City provides modern information technology (IT) services which are delivered through microcomputer-based client/servers, through mainframe services leased from a neighboring jurisdiction and through Internet technologies such as web browsers. The City's IT services are locally interconnected through a fiber-optic institutional network (I-Net) provided as part of the local cable television service franchise agreement. This service connects all major schools, government buildings and libraries.

The City also embraces a robust planning process for ensuring that complex IT services are efficiently and effectively addressed. The City publishes an annual technology plan which is substantially incorporated as part of the City's capital improvement program document.

The Information Technology Services (ITS) department's goals are to:

- Provide information service to City departments that is reliable, credible and accessible in a timely manner, and assess satisfaction with services on an on-going basis.
- Ensure that the City's IT human resources are appropriately managed and trained.
- Provide timely response to requests for service.
- Improve City management and operational capabilities through the use of information systems by providing City management and legislative leadership with reliable, well-informed information about the cost-effective application of technology to the City's business processes.
- Safeguard the City's physical computer system hardware and to safeguard access to the City's electronically stored data.

These goals are addressed through a planning process which emphasizes active team-based participation by all stakeholders and through a project management process which places an emphasis on insuring that the proper resources are allocated at the appropriate time to help ensure that City information technology (IT) projects are, to the extent feasible, delivered on time and on budget.

The City's structure for governing IT planning and oversight is composed of the following elements:

- The Information Technologies Steering Committee (ITSC);
- Groups chartered by the ITSC to accomplish function specific planning and oversight tasks; and
- An ITSC Projects Management Board whose responsibilities include identifying IT projects for which highly structured planning and oversight are appropriate and for providing oversight for those projects.

The ITSC, composed of representatives from the City's top-level management and user agencies, was established in 1987 to advise the City Manager on the planning and prioritization of City information technology systems and services, and to coordinate all major computer hardware and software acquisitions. To direct its work, the ITSC is guided by the following strategic principles:

- Expand, where cost-effective, the use of interconnected networks, minimizing the use of leased mainframe computer resources;
- Give priority to addressing urgent public safety and public health needs; meeting legal requirements; maintaining vital financial processes; exploiting available non-City resources for funding; and attaining quantifiable returns on investment;
- Identify the cost of Information Technology Services (ITS) internal services to user departments and agencies in the budget document to reflect the cost of services provided;
- Use outside contractors to meet applications and maintenance needs where appropriate;
- Continue to exploit new communications technology to deliver services cost effectively and to improve public access to City services and information; and
- Reduce the need for training and facilitate rapid deployment of new systems by striving to employ integrated user interfaces for computer applications.

ITSC Chartered Groups

To ensure that key functional areas are appropriately planning and coordinating City IT efforts, the ITSC has created ITSC Chartered Groups to provide planning guidance, to identify budget priorities and, in some cases, to monitor budget implementation. These groups cover (a) Finance, (b) Permitting, (c) Geographic Information Services, (d) the City's Web Site, (e) the City's intranet - called CityNet, (f) Public Safety Systems, (g) Radio

Systems, (h) Telephone Systems, (i) Justice Systems, and (j) Human Resources Services. Ad hoc groups are formed to address standards issues such as desktop publishing, imaging services and desktop office software.

ITSC Projects Management Board

To ensure that the major IT projects that the City undertakes are appropriately planned, to include staffing resources, so that the City's investment in IT is properly used, the ITSC appointed a number of its members to review major IT project requests and, for those that it recommends approval, and which are approved and funded by City Council, provides periodic oversight of the implementation of these projects.

As part of this project, the City provides formal training in IT project management, through a joint arrangement with a neighboring jurisdiction, to ensure that staff appointed to manage these projects have the most up-to-date project management concepts and tools available to them. The work of these bodies is directed toward identifying key IT initiatives on which the City is to focus its efforts and to help ensure that those directions are addressed.

ITS Accomplishments in FY 2001

In FY 2001, the City, after successfully completing the transition to Year 2000 with virtually no impact on service delivery, began addressing projects that had been placed on hold while the last stages of Year 2000 preparation work took precedent. Some key accomplishments during FY 2001:

- The City has recently concluded a joint City government - school administration acquisition of replacement telephone services. These services are designed to grow with new technologies, improve the flexibility of the City's telephone services and reduce the annual cost of providing telephone services.
- The City implemented electronic payment of fines, taxes and fees through its web site to improve convenience for citizens and businesses. The City will continue to seek improved and less costly means of providing this service.
- The City continues to rapidly grow its award winning web site, now serving over 1.4 million pages of information and services per month. The City is developing a strategic plan for electronic government that includes the availability of an increasing array of services - not just information - to its citizens and businesses. These include electronic check payment of fines, taxes and fees; acquisition of simple building permits and the ability to register and pay for recreation services through the City's web site.
- The City has a strong commitment - for which it won Governor of Virginia and Washington Metropolitan Area Council of Governments awards for technological innovation - to providing for accountable government by making City Council, Planning Commission, Board of Zoning Appeals and Boards of Architectural Review dockets and docket materials available on-line through the City's web site in advance of the public meeting.
- To ensure that the City is delivering quality IT services to City departments and agencies, the City engaged staff of the Institute of Public Policy of George Mason University to conduct a customer satisfaction survey covering help desk, training and general ITS services. The survey was conducted confidentially by GMU staff, so that City staff are not able to learn the identities of any respondents, helping to ensure not only confidentiality, but assurance that the results are statistically valid and the outcome can be viewed with confidence. The survey result, which provides a baseline for future surveys, indicated that on a five point scale, ITS provided service that was, for the view of the average City employee, better than the mid-point of three, and can be characterized as above satisfactory. Staff will use the results of the survey to seek ways of improving ITS services and to adjust performance measures accordingly.

The City's web site, which received national recognition for its user-oriented design, continues to grow in use as the City provides additional information and services to citizens and businesses. During FY 2001 the average number of monthly web site pages accessed increased by about 1 million; from 0.4 million June 2000 to 1.4 million in June 2001, an increase of 250 percent in a single year. This increase is substantially attributable to availability of

real estate assessment data for individual properties and reflects the City's continuing commitment to providing accountable government to all citizens.

FINANCIAL CONDITION

The City government continues to be in very sound financial condition as demonstrated by the financial statements and schedules included in this report. Within the context of a fiscally prudent budget, the City has continued to provide basic services, has achieved many of its program goals, and enhanced the quality of life in the City. The City's cash and investment position was strong throughout the fiscal year.

The City will continue to experience budget pressure over the next several years. Keeping existing programs funded, salaries of public employees competitive, and addressing the budget and expanded program requests of citizens and community groups will continue to challenge the City. In addition, as the City grows, so will the services needed to support additional residents and new or expanded businesses. Debt service costs from the six-year capital improvement plan are expected to increase from \$9 million to \$20 million by the year FY 2005. In reference to public schools, the need for increased operating and capital support due to growing enrollment and educational initiatives of the schools remains as one of the City's major budget challenges. Over the next year, revenues are budgeted to grow by 3.0 percent over FY 2001 actual revenues. The City will also need to monitor revenues as the impact of fewer travelers at National Airport becomes known. The City believes, in general, that the overall state of its infrastructure of streets, bridges, and other public facilities is good, with the adopted \$197.3 million capital improvement program aimed at maintaining and improving the City's infrastructure.

The amount of development in the City will also influence future expenditure and revenue levels with all major new developments projected to generate more tax revenues than expenditures. Cameron Station, one of the City's largest residential developments, continues to add housing units. The relocation of the federal Patent and Trademark Office (PTO) headquarters and its more than 7,100 employees to the Carlyle development area is also expected to have a major positive impact on the City's economic development. The PTO will include 2.5 million square feet of office and related space, housed in five buildings, with two parking garages containing 3,838 spaces. A multi-screen cinema with 4,150 stadium-style seats and retail space in the City opened this summer.

Over the last ten years, the City's property tax base has had modest growth while the pace of expenditures continued to increase. The City has been able to maintain its fiscal strength as the result of the City Council's adoption of, and subsequent adherence to, the series of financial policies listed on page 12. These policies are aimed at (1) limiting debt and annual debt service requirements and (2) maintaining an appropriate General Fund fund balance so as to retain the City's AAA/Aaa bond rating and to keep the City on firm financial footing. When City Council initially adopted the financial policies in 1987, the City's general obligation debt as a percentage of the tax base was 1.4 percent. Because the City continued to use "pay-as-you-go" financing for many capital projects over the last decade, the City reduced its outstanding debt ratios since 1987. At the end of FY 2001, the City's debt to tax base ratio was just 0.68 percent. The City's financial policies encourage the use of surplus General Fund Revenue to fund capital projects rather than to fund operating programs.

Additional information on the City's financial status can be found in the Management's Discussion and Analysis section of this report.

GENERAL GOVERNMENT FUNCTIONS

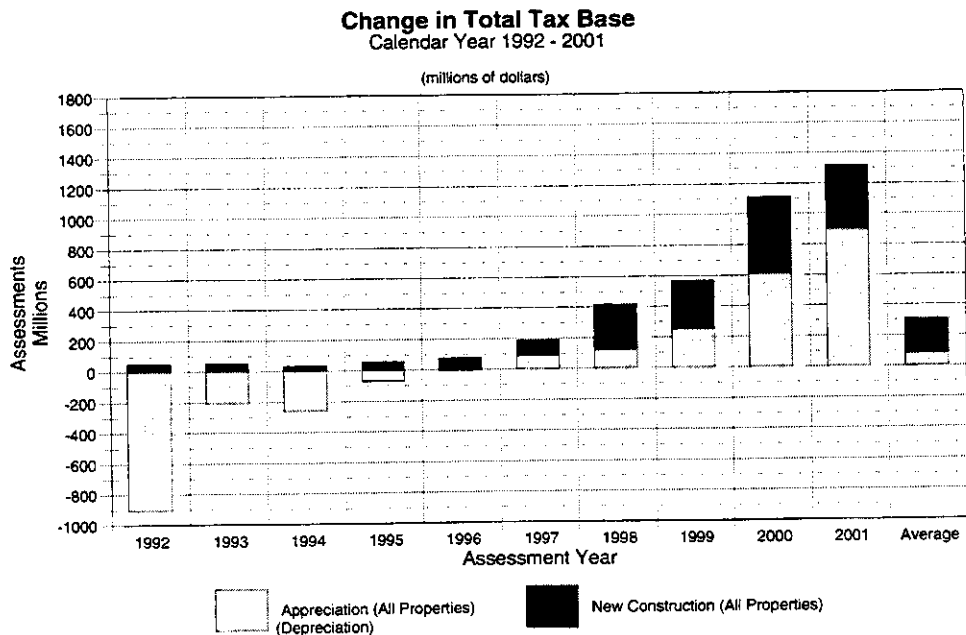

This is the seventh consecutive year that the overall assessed values of real property have increased. The following table shows that, after several years of decline, the overall real property assessed value has increased by \$3.8 billion since 1994, including a \$1.3 billion increase from 2000 to 2001. Real property taxes, which are based on assessments as of January 1 of each year, are due in two payments. The first half tax is due on June 15 and the second half tax is due on November 15.

CHANGE IN ASSESSED VALUE OF REAL PROPERTY (Amounts in thousands of dollars)

<u>Year</u>	<u>Residential Assessed Value</u>	<u>Residential % Increase (Decrease)</u>	<u>Commercial¹ Assessed Value</u>	<u>Commercial % Increase (Decrease)</u>	<u>Total Assessed Value</u>	<u>Total % Increase (Decrease)</u>
1992	\$ 5,402,012	(3.2)	\$ 5,841,899	(11.0)	\$ 11,243,911	(7.4)
1993	5,465,820	1.2	5,561,158	(4.8)	11,026,978	(1.9)

The next chart dissects the increases and decreases in assessed values since 1991 into appreciation and depreciation of existing properties and new properties (this chart is comprised of single year snapshots and is not cumulative).

Source: Department of Real Estate Assessments
Prepared by: Office of Management and Budget

The General Fund Unreserved Fund Balance financial policies are a keystone to the City's overall financial strength and stability. At the end of FY 2001, the City's General Fund fund balance was \$60.8 million and included \$16.7 million designated for future capital funding, as well as an undesignated portion of Fund Balance totaling \$22.5 million (Exhibit XVIII), slightly higher than at FY 2000. At the end of FY 2001 the City's ending General Fund fund balance condition was consistent with the City's established financial policies, and somewhat above expectations. This positive outcome above expectations allowed the capital funding designation to be increased by \$5.5 million from the planned \$11.2 million to the previously cited \$16.7 million.

City Of Alexandria General Fund - Fund Balance (amounts in millions)

CAPITAL FINANCING AND DEBT MANAGEMENT

In conjunction with the annual operating budget preparation, the City Manager annually prepares a six-year Capital Improvement Plan to provide for the financing of improvements to the City's public facilities. The first year of the program constitutes the capital budget for the current fiscal year; the remaining five years serve as a planning guide. The City accounts for capital improvement expenditures in the Capital Projects Fund and finances the projects from the General Fund (including appropriations of Designated Fund Balance), general obligation debt, the sale of surplus property, and intergovernmental grant revenues. The City's Capital Improvement Plan for FY 2002 through 2007 represents \$197.3 million of City-funded public improvements to the City's schools, public buildings, parks, and transportation systems. In addition, state and federal grants and other sources will provide \$99.6 million in capital funding for the FY 2002-FY 2007 time period.

To continue a strategy of improving and then maintaining the City's creditworthiness, the City Council established the following key target and ceiling ratios as of June 30 of each year:

	<u>Ceiling</u>	<u>1995</u>	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>	<u>2001</u>	<u>Target</u>
Debt as a Percentage of Fair Market Value	1.6%	0.48%	0.41%	0.34%	0.26%	0.54%	0.86%	0.74%	1.1%
Debt Per Capita as a Percentage of Per Capita Income	3.25%	1.1%	1.0%	0.7%	0.6%	1.1%	1.7%	1.6%	2.25%
Debt Service as a Percentage of General Governmental Expenditures ¹	10.0%	3.8%	3.2%	2.9%	2.5%	1.7%	2.3%	3.1%	8.0%
General Fund Balance as a Percentage of General Fund Revenue:									
Unreserved	10% (floor)	22.4%	20.6%	19.1%	17.6%	16.5%	17.3%	16.6%	---
Undesignated	4% (floor)	6.6%	5.5%	6.7%	7.6%	6.9%	6.4%	6.6%	5.5%

¹ Data includes School Board and Library component units.

The adopted financial policies include the following:

- The City will increase its reliance on current revenue to finance its capital improvements.
- The City will consider a designation for pay-as-you-go capital a priority when additional General Fund resources become available at the end of a fiscal year.
- The City will not use General Fund equity to finance current operations for periods of longer than two years.
- The City will annually prepare a six-year Capital Improvement Plan.
- The City will not issue tax or revenue anticipation notes to fund governmental operations.
- The City will not issue bond anticipation notes for a term of longer than two years.

The City's General Obligation Bonds have the top available ratings as follows:

<u>Moody's Investors Service</u>	<u>Standard & Poor's</u>
Aaa	AAA

CASH MANAGEMENT

The primary objectives of the City's cash management and investment program are the safety and preservation of principal, liquidity, and yield.

The City takes full advantage of temporarily idle cash and the scheduling of vendor payments. To ensure the most competitive rates on investments, the cash resources of the individual funds (excluding Bond Proceeds in the Capital Projects Fund, certain cash with fiscal agents in the Fiduciary Funds, and certain cash accounts of discretely presented component units) are combined to form a pool of cash and investments. The investment pool's portfolio policy articulates that the portfolio should be composed of obligations of the U.S. Government and its agencies, repurchase agreements fully collateralized by obligations of the U.S. Government or its agencies, and highly rated commercial paper. The City maintains security over its investments in repurchase agreements through an agreement with its portfolio management services whereby the collateral on the City's investments is maintained in the City's name at the Bank of New York. The City's investments in obligations of the U.S. Government and its agencies are held by the Atlanta, Georgia Federal Reserve Bank in a pledge account in the City's name. All investments are stated at fair value.

For the cash and investment pool, the average daily investment portfolio in FY 2001 was \$129.5 million. The City earned interest income during the year at an average rate of return of 5.62 percent.

BUDGETARY ACCOUNTING AND INTERNAL CONTROLS

The City Charter requires the City Manager to submit a balanced budget to City Council no later than the first regular meeting in April of each year. Each department and agency prepares its own budget request for review and amendment by the Office of Management and Budget and the City Manager prior to inclusion in the City's general operating budget. The School Board prepares the Schools' budget and transmits it to the City Manager. The City Manager then submits his recommendation to City Council for consideration. The City's practice is to prepare and present a budget document that meets the Government Finance Officers Association (GFOA) criteria to receive the Distinguished Budget Presentation Award. According to GFOA, "in order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operation guide, as a financial plan, and as a communications device." Since the budget document for fiscal year 1990, the City has presented budgets every year that conformed to GFOA requirements (has received one GFOA Award) and the City plans to do so for future budget documents.

City Council establishes a time and place for public hearings on the budget. One of the hearings must be at least 60 days before the beginning of the next fiscal year. Except for the Schools' budget, which may only be increased or decreased by major category or as a whole, City Council may insert new items of expenditure or may increase, decrease or strike out items of expenditure (other than debt service or other legal requirements). If Council does not adopt a budget before June 27, the budget submitted by the City Manager for the upcoming fiscal year has full force and effect as if it had been adopted by Council. During FY 2001, as is customary, the City Council also approved supplemental budget amendments.

As a management tool, budgetary control is maintained in the General Fund at the character level (i.e., personnel, non-personnel, capital outlays) and by the encumbrance of estimated purchase amounts before the release of purchase orders to vendors. Management can transfer appropriations at the department appropriation level without approval from City Council. The City follows a similar procedure with the Special Revenue Fund, but the level of control is at the grant or program level. In the Capital Projects Fund, the level of control is at the project level. With the Schools' budget, the level of control is at the total appropriation level.

City management is responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft or misuse. Internal controls are intended to provide reasonable, but not absolute, assurance that these objectives are met. In addition to the examination of controls performed by members of the Finance Department, the City's Internal Audit staff continually reviews and assesses the soundness and adequacy of the City's financial systems.

RISK MANAGEMENT PROGRAM

The City's risk management program is designed to protect against accidental losses that would significantly affect personnel, property, the budget, or the City's ability to fulfill its responsibility to the taxpayers and the public. To limit its exposure to the various risks of loss, the City carries several types of insurance, has joined several risk pools, and is self-insured for some of its workers' compensation liabilities and other liabilities. A total of \$5 million of the unreserved General Fund fund balance has been designated to meet potential self-insurance losses as of June 30, 2001.

In addition, the risk management program includes employee training in prevention and administration of workers' compensation claims. As part of this program, all employees who drive City vehicles must attend defensive driving classes.

REPORT FORMAT

The City's Finance Department has prepared this **Comprehensive Annual Financial Report (CAFR)** in an effort to present all the information necessary to meet the needs of the many persons and groups that have an interest in the City's financial affairs. The objective of this report is to present financial information on a comparative basis with other governmental entities in Virginia and in accordance with established national standards. We believe the data is accurate in all material respects and is reported in a manner designed to present fairly the City's financial position and results of operations.

This **Comprehensive Annual Financial Report** is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes a list of principal officials, the City's organizational chart, and this transmittal letter. The financial section includes the management discussion and analysis (MDA), basic, fund, and component unit financial statements, notes to financial statements, budgetary comparison schedules, required supplementary information for public employee retirement systems, and other supplementary information, as well as the independent auditors' report. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The single audit section contains information on the City programs that are financed by federal grants. This information is required by the Single Audit Act Amendments of 1996, and by the Auditor of Public Accounts of the Commonwealth of Virginia.

INDEPENDENT AUDIT

Section 5.18 of the City Charter requires an annual audit of the accounting and financial records of the City by independent certified public accountants. This section requires the auditor to examine all funds of the City in accordance with generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards*. In addition, the auditor must conduct the compliance examinations required by the Single Audit Act Amendments of 1996, the related U.S. Office of Management and Budget's Circular A-133, and the *Specifications for Audit of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

The Alexandria City Council has selected the firm of KPMG LLP to perform these audit services. Their reports are presented in the Financial Section and the Single Audit Section of this report.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the City of Alexandria a Certificate of Achievement for Excellence in Financial Reporting for the City's **Comprehensive Annual Financial Report** for the 23rd consecutive year in 2000. The GFOA awards a Certificate to governmental units that exemplify excellence in financial reporting and conform to stringent reporting requirements promulgated by that Association and various authoritative bodies.

To earn a Certificate of Achievement, a CAFR must tell its financial story clearly, thoroughly, and understandably. The report must be efficiently organized, employ certain standardized terminology and formatting conventions, minimize ambiguities and potentials for misleading inference, enhance understanding of current generally accepted accounting theory, and demonstrate a constructive "spirit of full disclosure."

A Certificate is valid for a period of one year only. The City believes our current report continues to conform to the Certificate of Achievement Program requirements and standards. We are submitting it to GFOA to determine its eligibility for another certificate for FY 2001.

REPORTING REQUIREMENTS

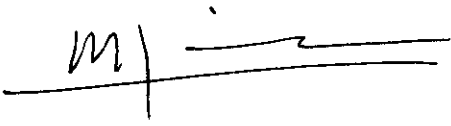

As required by the U.S. Securities and Exchange Commission Rule 15c2-12, the City has agreed for the benefit of the owners of City general obligation bonds and joint enterprise waste-to-energy-revenue bonds, to provide each nationally recognized municipal securities information repository and to any appropriate state

provide each nationally recognized municipal securities information repository and to any appropriate state information depositor, if any is hereafter created, certain financial information not later than 270 days after the end of each of its fiscal years, commencing with the fiscal year ended June 30, 1996. This CAFR provides the 15c2-12 general bond obligation bond information which includes the "Debt Statement" found in Note 10 of Notes to the Financial Statements, a "Five Year Summary of General Fund Revenues and Expenditures" found in Table XX, a Summary of Debt found in Table XXI, and Tax Revenues by Source found in Table III.

ACKNOWLEDGMENTS

We would like to express our appreciation to everyone in the City who assisted with and contributed to the preparation of this report. Special recognition is extended to David Ebersole for his many years of dedicated pursuit of excellence and leadership in financial reporting.

Respectfully submitted,

Mark B. Jinks
Assistant City Manager for
Fiscal and Financial Affairs

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Alexandria,
Virginia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2000

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

2001 M Street, N.W.
Washington, D.C. 20036

Independent Auditors' Report

The Honorable Mayor and Members of the City Council
City of Alexandria, Virginia:

We have audited the accompanying basic financial statements and the combining and individual fund financial statements and schedules of the City of Alexandria, Virginia (the City) as of and for the year ended June 30, 2001, identified as Exhibits I through XII and Schedules 1 through 7 in the Financial Section of the accompanying table of contents. These financial statements and schedules are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements and schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America; and *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the City as of June 30, 2001, and the results of its operations, cash flows of its proprietary funds, and changes in its fiduciary net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the combining and individual fund financial statements and schedules referred to above present fairly, in all material respects, the financial position of each of the individual funds of the City as of June 30, 2001, and the results of operations of such funds, cash flows of each of the proprietary funds, and changes in net assets of each of the fiduciary funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in note 19 to the basic financial statements, the City adopted Governmental Accounting Standards Board Statements No. 37, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus*" and No. 38, "*Certain Financial Statement Note Disclosures*," effective July 1, 2000.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 2, 2001 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis on pages 23-33 and the budgetary comparison schedules and the schedules of funding progress and employer contributions identified as Exhibits XIII through XVI in the Financial Section of the accompanying table of contents are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements and on the combining and individual fund financial statements and schedules taken as a whole. The information identified as Schedules 8 through 10 in the Financial Section and Table IX in the Statistical Section of the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the City. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Introductory and Statistical Sections of the report are presented for the purposes of additional analysis and are not required parts of the financial statements of the City. Such additional information, except as to Table IX as described in the preceding paragraph, has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

KPMG LLP

November 2, 2001

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the City of Alexandria's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2001. Please read it in conjunction with the transmittal letter at the front of this report and the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS FOR FY 2001

The General Fund, on a current financial resource basis, reported revenues in excess of expenditures and other financing sources and uses by \$2.8 million (Exhibit IV) after making a \$27.4 million transfer to the capital projects fund.

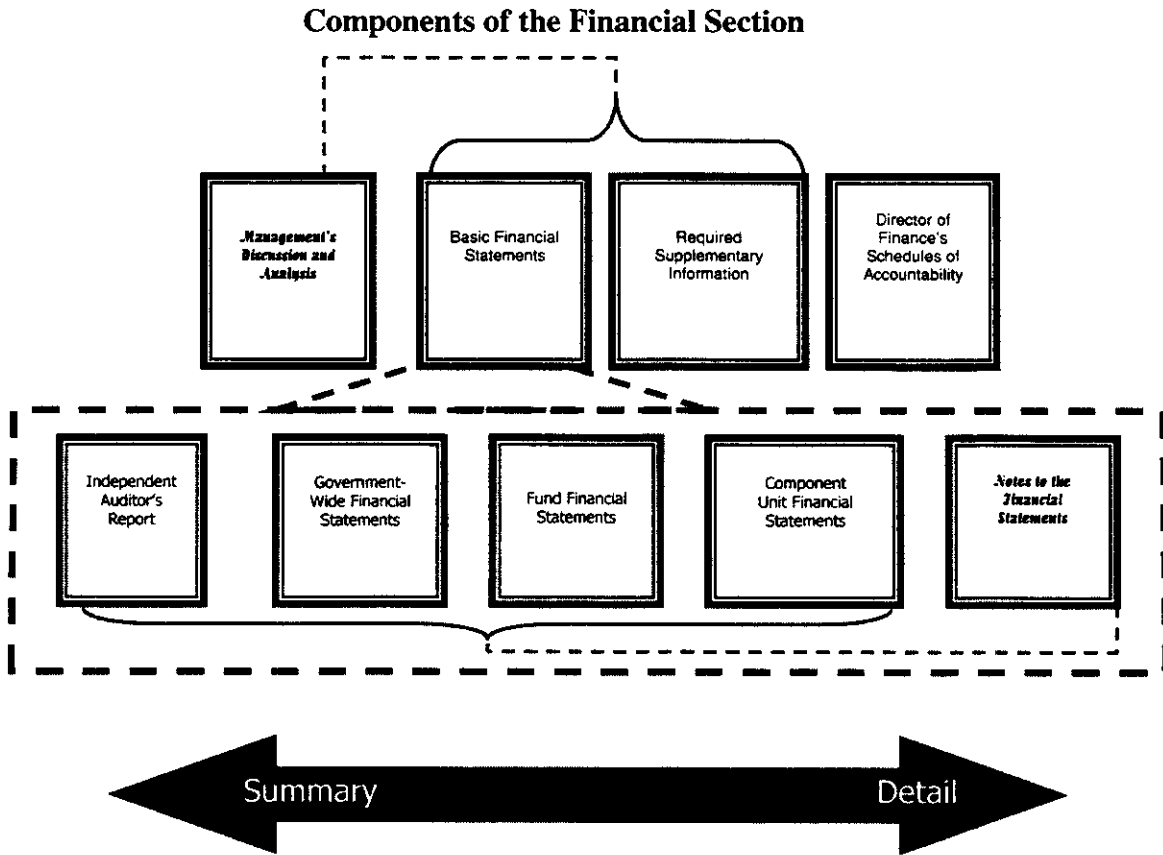

On a government-wide basis for governmental activities, the City had expenses net of program revenue of \$301.4 million, which were \$3.5 million more than the general revenues of \$297.9 million (Exhibit II).

The City's total net assets excluding component units, on the government-wide basis, totaled \$264.7 million at June 30, 2001. Of this amount, \$25.1 million is unrestricted. (Exhibit I).

On July 11, 2001, the City sold \$54.5 million in general obligation bonds at a true interest cost of 4.599 percent. The tax-exempt bonds, which will mature incrementally over the next 20 years, will be used to finance public improvements, including approximately 40 percent for School facilities.

USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT

This Comprehensive Annual Financial Report consists of four sections: introductory, financial, statistical, and single audit. As the following chart shows, the financial section of this report has four components - *management's discussion and analysis* (this section), the *basic financial statements*, *required supplementary information* and the *Director of Finance's Schedules of Accountability*.

For the past 20 years, the primary focus of local government financial statements has been summarized fund type information on a current financial resource basis. This approach has been modified and the City's financial statements now present two kinds of statements each with a different snapshot of the City's finances. The new focus is on both the City as a whole (government-wide) and the fund financial statements. The government-wide financial statements, which are new, provide both long-term and short-term information about the City's overall financial status. The fund financial statements, which have been provided in the past, focus on the individual parts of the City government, reporting the City's operations in more detail than the government-wide statements. Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison (year to year or government to government) and enhance the City's accountability.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities, which are the government-wide statements, report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net assets and changes in them. One can think of the City's net assets - the difference between assets and liabilities - as one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net assets are one indicator of whether its financial health is improving or deteriorating. Other nonfinancial factors will need to be considered, however, such as changes in the City's property tax base and the condition of the City's roads, to assess the overall health of the City.

In the Statement of Net Assets and the Statement of Activities, we divide the City into the following:

Governmental activities - Most of the City's basic services are reported here: Police, Fire, Transportation and Environmental Services, Recreation, Parks & Cultural Activities Departments, and general administration. Property taxes, other local taxes, and state and federal grants finance most of these activities.

Business-type activities - The City's recycling program operations are reported here as the City charges a fee to customers to help it cover all or most of the cost of certain services it provides.

Component units - The City includes three separate legal entities in its report - the City of Alexandria School Board, the City of Alexandria Library System, and the Alexandria Transit Company. Although legally separate, these "component units" are important because the City is financially accountable for them, and provides operating and capital funding.

FUND FINANCIAL STATEMENTS

Traditional users of government financial statements will find the fund financial statement presentation more familiar. The focus is now on the City's most significant funds. The fund financial statements provide more information about the City's most significant funds - not the City as a whole.

The City has three kinds of funds:

Governmental funds - Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statement that explains the relationship (or differences) between them.

Proprietary funds - Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information.

In fact, the City's enterprise fund (one type of propriety fund) is the same as its business-type activities, but the fund financial statements provide more detail and additional information, such as cash flow. The City's only enterprise fund accounts for the operation of the City's recycling program.

The City uses an internal service fund (the other kind of propriety fund) to report activities that provide supplies and services for the City's other programs and activities. The Equipment Replacement Reserve Fund is the City's only internal service fund. Its purpose is to provide for the accumulation of money to replace capital equipment used in City operations.

Fiduciary funds - The City is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets (known as agency funds) that - because of a trust arrangement - can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. The City excludes these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations. Agency Funds are City custodial funds used to provide accountability of client monies for which the City is custodian.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Statement of Net Assets:

The following table reflects the condensed Statement of Net Assets:

Table 1
Summary of Statement of Net Assets
as of June 30, 2001 and 2000
(in millions)

	<u>Governmental Activities</u>		<u>Business-type Activities</u>		<u>Total Primary Government</u>		<u>Component Units</u>	
	<u>2001</u>	<u>2000</u>	<u>2001</u>	<u>2000</u>	<u>2001</u>	<u>2000</u>	<u>2001</u>	<u>2000</u>
Current and other assets	\$ 297	\$ 314	\$ 1	\$ 2	\$ 298	\$ 316	\$ 31	\$ 30
Capital assets	244	234	--	--	244	234	31	27
Total assets	\$ 541	\$ 548	\$ 1	\$ 2	\$ 542	\$ 550	\$ 62	\$ 57
Other liabilities	161	159	--	--	161	159	--	--
Long-term liabilities	117	123	--	--	117	123	22	30
Total liabilities	\$ 278	\$ 282	\$ --	\$ --	\$ 278	\$ 282	\$ 22	\$ 30
Net assets:								
Invested in capital assets, net of related debt	\$ 181	\$ 173	\$ --	--	\$ 181	173	\$ 31	\$ 27
Restricted	58	39	--	--	58	39	--	--
Unrestricted	24	55	1	2	25	57	9	--
Total Net Assets	\$ 263	\$ 267	\$ 1	\$ 2	\$ 264	\$ 269	\$ 40	\$ 27

Amounts may not add due to rounding

The City's combined net assets (which is the City's bottom line) decreased to \$264 million from \$269 million as a result of a capital contribution to the Schools in the Statement of Activities (Exhibit II). This \$18 million School contribution was offset by a \$7 million in non property tax revenues, primarily including sales taxes (\$0.9 million) utility taxes (\$1.9 million), business license taxes (\$1.7 million), bank franchise taxes (\$0.4 million) recordation taxes (\$0.3 million), transient lodging taxes (\$0.6 million) and restaurant food taxes (\$0.6 million) and the donation of a \$6 million rail station to the City. The City's unrestricted net assets - the part of net assets that can be used to finance day-to-day operations - were \$24 million (Exhibit I). The component units' net assets increased primarily because of the \$18 million in capital contribution from the City. The component unit School Board completed construction of the new Samuel W. Tucker elementary school building. The City's capital assets increased \$10 million, including the rail station and a \$3 million increase in construction in progress (Note 5), primarily to fund improvements to the City's infrastructure and governmental buildings.

The net assets of business-type activities decreased to \$1 million with funds being used to finance the operations of the fund. The City can use these net assets to finance the continuing operation of its recycling program. The annual cost for this program is approximately \$0.6 million per year, and in future years, alternative funding for this program will be required.

Statement of Activities

The following chart shows the revenue and expenses of the governmental activities:

Amounts may not add due to rounding

REVENUES

For the fiscal year ended June 30, 2001, revenues from governmental activities totaled \$374 million. Real Estate Tax Revenues, the City's largest revenue source, reflecting the accrual of the last half calendar year 2000 and the first half of calendar year 2001 real property tax billing, were \$153 million. The City's assessed real property tax base for calendar year 2001 increased 10.1 percent.

In fiscal year 2001, the City accrued \$25.0 million in personal property tax revenue on a full accrual basis, the City's second largest revenue source, and received reimbursement from the Commonwealth of \$13.3 million for total

personal property tax related receipts of \$38.3 million. Under the provisions of the Personal Property Tax Relief Act of 1998 (PPTRA), the State's share of the local personal property tax payment for calendar year 2000 (FY 2001) was 47.5 percent of most taxpayers' payments. The decrease in tax revenue on a government-wide basis reflects a write-off of prior year tax bills resulting from the City's policy of aggressively billing personal property taxes. This billing process had no impact on personal property tax revenues recorded in the governmental funds. See Table V for the history of the City's personal property billings and collections.

Grants and contributions not restricted to specific programs include revenues from the Commonwealth. These FY 2001 revenues included the \$13.3 million for the City's PPTRA reimbursement as discussed above. The City also received \$6.1 million in HB 599 law enforcement aid from the Commonwealth.

EXPENSES

For the fiscal year ended June 30, 2001, expenses for governmental activities totaled \$377 million that includes increases for employee compensation, budgeted increases in payments for educational expenses to the School Board, and interest expenses.

With historically low unemployment levels and high demand for skilled employees in both the public and private sectors in this region, it is important that the City provide competitive compensation levels for our employees. The FY 2001 expenses included funding for merit in-step increases, which are awarded based on satisfactory performance, for both City and School Board employees, plus funding for a 2.0 percent general salary adjustment.

Education continues to be one of the City's highest priorities and commitments. The City's operating subsidy to the Schools for FY 2001 totaled \$98.8 million. In addition, the City contributed \$17.6 million to the Schools for capital project expenses.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

For the fiscal year ended June 30, 2001, the governmental funds reflect a combined fund balance of \$137.8 million (Exhibit III). Included in this year's increase in fund balance (Exhibit IV) is \$2.9 million in General Fund revenues in excess of expenditures and other financing sources and uses. The primary reason for the General Fund's increase in fund balance reflects the increases in tax collections discussed earlier. In addition, these other changes in fund balance should be noted:

- The General Fund contributed \$27.4 million to pay-as-you-go financing of capital projects in FY 2001.
- The City contributed \$116.4 million in operating and capital funds to finance the Schools operations and construction.
- The City paid \$4 million in expenditures for public works in the City's General fund. This represents a change in the way highway maintenance funds are recorded. In the past these expenses were recorded in the Special Revenue fund. Beginning in FY 2001 these expenditures are reported in the General Fund.
- The City paid \$1million less in FY 2001 for Health and Welfare activities in the Special Revenue and General funds primarily because of the positive impact of Welfare to Work legislation. In addition, decreased expenditures in the Special Revenue Fund for community development were attributable to a change in the timing of funding some of the City's housing priorities.
- The City spent \$21.6 million in the Capital Projects Fund to fund infrastructure, technology and to renovate a fire station.

GENERAL FUND BUDGETARY HIGHLIGHTS

General Fund

	FY 2001 (in millions)		
	Original Budget	Amended Budget	Actual
<u>Revenues</u>			
Taxes	\$ 257.9	\$ 257.9	\$ 271.6
Intergovernmental	34.5	34.7	37.7
Other	24.7	25.5	27.7
Total	\$ 317.1	\$ 318.1	\$ 337.0
<u>Expenditures and Transfers</u>			
Expenditures	\$ 183.4	\$ 189.0	\$ 182.8
Transfers	136.6	153.6	151.3
Total	\$ 320.0	\$ 342.6	\$ 334.1
Change in Fund Balance	\$ (2.9)	\$ (24.5)	\$ 2.9

Amounts may not add due to rounding

Revenue and other financing sources exceeded expenditures and other financing uses by \$2.9 million in the General Fund for FY 2001.

Actual General Fund revenues exceeded original budgeted revenues by \$19.9 million during FY 2001. This increase is attributable in part to increased real estate assessments and other increased local tax revenues such as personal property, business license and transient lodging tax revenues. Revenue collections exceeded the amended budget by \$18.9 million. Primarily due to supplemental appropriations, actual General Fund expenditures and transfers were greater than the original budget by \$14.1 million, and were less than the amended budget by \$8.4 million.

During the fiscal year 2001, City Council amended the budget three times. These budget amendments or supplemental appropriation ordinances were primarily for the following purposes:

- To reappropriate monies to pay for commitments in the form of encumbrances established prior to June 30, 2000 but not paid by that date. Encumbrances for General Fund obligations for purchase orders authorized and issued, but for which goods and services were not received or paid by June 30, 2000 totaled \$4.4 million.
- To reappropriate grant, donation and other revenues authorized in Fiscal Year 2000 or earlier, but not expended or encumbered as of June 30, 2000.
- To appropriate grants, donations, and other donations accepted or adjusted in FY 2001.
- To appropriate the designated General Fund balance of \$17.4 million to Capital Projects.

CAPITAL ASSETS

At the end of Fiscal Year 2001, the City's governmental funds (including internal service funds) had invested \$243.7 million (see Note 5) in a variety of capital assets and infrastructure, as reflected in the following schedule, which represents a net decrease of \$2.1 million, or less than one percent from the end of last fiscal year.

Table 3
Governmental Funds
Change in Capital Assets
(in Millions)

	<u>Balance</u> <u>June 30, 2000</u>	Net Additions/ <u>Deletions</u>	<u>Balance</u> <u>June 30, 2001</u>
Non-Depreciable Assets			
Land and Land Improvements	\$ 39.6	\$ 6.7	\$ 46.3
Construction in Progress	19.7	3.0	22.7
Other Capital Assets			
Infrastructure	81.4	0.7	82.1
Buildings	158.3	6.5	164.8
Furniture and Other Equipment	30.5	2.5	33.0
Accumulated Depreciation on Other Capital Assets	<u>(95.4)</u>	<u>(9.8)</u>	<u>(105.2)</u>
Totals	<u>\$234.1</u>	<u>\$ 9.6</u>	<u>\$243.7</u>

Amounts may not add due to rounding

The FY 2001 increase in construction in progress includes the work on the City's infrastructure and City buildings. The additions to land and buildings include the donation of Union Station, a historic rail station located within the City.

The City added \$3.9 million, net, in infrastructure assets for fiscal year 2001, primarily for construction in progress. Infrastructure assets include roads, bridges and water and sewer systems. These assets, which are stationary and can be preserved for significantly longer than most capital assets, were included in the City's financial statements for the first time in fiscal year 2000.

The FY 2002-FY 2007 Approved Capital Improvement Program (CIP), which was approved by City Council during May 2001, and sets forth a six-year, \$197.3 million City funded and \$99.6 million largely state transportation aid funded program of public improvements for the City and the Alexandria City Public Schools, represents (in City funding) an increase of approximately \$41.1 million, or 26.3 percent, over the FY 2001-2006 CIP. The increase in the six-year capital program reflects phased funding for critical public works infrastructure needs and infrastructure upgrades that will help ensure compliance with increasingly strict environmental requirements, and funding for facility improvements to serve a growing City population and increased student enrollment in the public schools. The CIP also provides an increased capital investment in recreational and leisure programs, including open space preservation and acquisition, to enhance the quality of life in Alexandria.

LONG-TERM DEBT

In July 2001, the City sold \$54.5 million in general obligation bonds at a true interest cost of 4.599 percent. These tax-exempt bonds, which will mature incrementally over the next 20 years, will be used to finance public

improvements, including City and School facilities and infrastructure. At the end of fiscal year 2001, the City had \$107.9 million in outstanding general obligation bonds, a decrease of \$6.8 million, or 5.9 percent, from last year. With the issuance of the new debt the City will have \$162.4 million, an increase of \$47.7 million, or 41.6 percent, over that held at June 30, 2000. More detailed information about the City's long-term liabilities is presented in Note 10 to the financial statements.

During July 2001, Moody's Investors Services, Inc. and Standard & Poor's (S&P) credit rating agencies reaffirmed the City of Alexandria's triple-A bond ratings, in conjunction with the issuance of the \$54.5 million in general obligation bonds. The City received its first triple-A rating from Moody's in 1986 and from S&P in 1992.

The state limits the amount of general obligation debt the City can issue to ten percent of the assessed value of real property within the City. The City's outstanding debt is significantly below this limit - which is currently \$1.5 billion.

ECONOMIC FACTORS

In the last five years, over 6,000 jobs were created in the City, with total employment increasing to just over 94,000 by December 2000. Most of this gain was generated by the services sector (information technology, business services, health services, engineering and management and associations), and accounted for almost half of all jobs in the City. As of 1999 (the latest data available from the U.S. Bureau of Economic Analysis), the City's per capita income of \$49,609 was one of the highest in the United States, and the second highest of any major jurisdiction in Virginia. The City's office vacancy rate rose to 7.6 percent by the end of 2001 indicating some slowing of the growth from previous years.

The events in Washington and New York on September 11, 2001 may affect the City's economy and revenue. Because of its proximity to National Airport and the Pentagon, the City derives some revenue, including transient lodging, sales and meals taxes that will be affected by these events. The City is monitoring its FY 2002 tax revenues closely, and the City Manager has directed departments to develop operating and capital budget contingency plans in order to keep the City's FY 2002 budget in balance.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Daniel Neckel, Director of the City of Alexandria's Finance Department, City Hall, P.O. Box 178, Alexandria, VA 22313, telephone (703) 838-4755, or visit the City's web site at ci.alexandria.va.us.

Adjustments for the Statement of Activities:

Repayment of bond principal is reported as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.	\$ 6,918,641
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which new capital assets exceeded capital expenditures in the current period. (Note 5)	6,887,548
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds. (Note 4)	(9,390,563)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. (Note 10)	(3,511,262)
Internal service funds are used by management to charge the costs of certain equipment to individual funds. The net revenue of the internal service fund (except depreciation which is reported in capital outlays above) is reported with governmental activities. (Exhibit VI)	1,006,166
Change in Net Assets of Governmental Activities	<u>\$ (3,450,282)</u>

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Narrative Profile

The City of Alexandria, located in northern Virginia and bordered by the District of Columbia (Potomac River) and Arlington and Fairfax Counties, was founded in 1749 and incorporated in 1779. With a population of 128,283 and a land area of 15.75 square miles, Alexandria is the 7th largest city in the Commonwealth of Virginia and one of the most densely populated cities in the Commonwealth.

The City is governed under the City Manager-Council form of government. Alexandria engages in a comprehensive range of municipal services, including general government administration, public safety and administration of justice, education, health, welfare, housing and human service programs, transportation and environmental services, planning, community development and recreation, cultural, library, and historic activities.

The financial statements of the City of Alexandria, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

A. Financial Reporting Entity

In June 1999, GASB issued Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. This statement, known as the "Reporting Model" statement, affects the way the City prepares and presents financial information. State and local governments traditionally have used a financial reporting model substantially different from the one used to prepare private-sector financial reports.

GASB Statement No. 34 established new requirements and a new reporting model for the annual financial reports of state and local governments. The Statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions and includes:

Management's Discussion and Analysis – GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A). This analysis is similar to analysis the private sector provides in their annual reports.

Government-wide financial statements – The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Statement of Net Assets – The Statement of Net Assets is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expense – the cost of “using up” capital assets – in the Statement of Activities. The net assets of a government will be broken down into three categories – 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Program Activities – The new government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government’s functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Budgetary comparison schedules – Demonstrating compliance with the adopted budget is an important component of a government’s accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The City and many other governments revise their original budgets over the course of the year for a variety of reasons. Under the new reporting model, governments will continue to provide budgetary comparison information in their annual reports. An important change, however, is a requirement to add the government’s original budget to the current comparison of final budget and actual results.

As required by the accounting principles generally accepted in the United States, these financial statements present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. The City has no component units that meet the requirements for blending. The discretely presented component units, on the other hand, are reported in a separate column in the government-wide statements to emphasize they are legally separate from the primary government. Each discretely presented component unit has a June 30 fiscal year-end.

Component Units:

City of Alexandria School Board

Since Fiscal Year 1995, the School Board has been elected. The School Board is substantially reliant upon the City because City Council approves the School Board's total annual budget appropriation, levies taxes, and issues debt on behalf of the School Board. The legal liability for the general obligation debt remains with the City. The City’s primary transaction with the School Board is the City’s annual General Fund revenue subsidy, which included \$98.8 million for operations and \$17.7 million for capital in FY 2001.

The APA establishes financial reporting requirements for all localities in the Commonwealth of Virginia. The APA has determined that all Virginia School Boards shall be reported as discretely presented component units of the locality. The APA has also specified additional reporting requirements with respect to School Boards.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

City of Alexandria Library System

City Council appoints the Library Board and approves the budget. The City is responsible for issuing debt, and acquiring and maintaining all capital items on behalf of the Library. The legal liability for the general obligation debt remains with the City. The City's primary transaction with the Library is the City's annual subsidy, which was \$4.1 million for FY 2001.

Alexandria Transit Company

The City Council, acting as sole shareholder, elects members of the Alexandria Transit Company's board of directors. City Council approves bus routes, fares, and budgets. The City funds deficits and may issue debt on behalf of the Alexandria Transit Company. The City's primary transactions with the Alexandria Transit Company are the City's annual subsidy, which was \$3.5 million and a capital contribution, which was \$2.6 million in FY 2001.

Complete financial statements for the School Board and Library component units may be obtained at the entity's administrative offices. The Alexandria Transit Company does not issue separate financial statements.

City of Alexandria School Board
2000 North Beauregard Street
Alexandria, Virginia 22311

City of Alexandria Library System
5005 Duke Street
Alexandria, Virginia 22304-2903

Excluded from Entity:

City Council is not financially accountable for the Alexandria Hospital, the Deferred Compensation Plan, Alexandria Economic Development Partnership, Alexandria Industrial Development Authority, Alexandria Redevelopment and Housing Authority, Alexandria Sanitation Authority, or Sheltered Homes of Alexandria. Accordingly, these entities are excluded from the City of Alexandria's financial statements.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. While the previous reporting model emphasized fund types (the total of all funds of a particular type), in the new reporting model the focus is on either the City as a whole or major individual funds (within the fund financial statements). The focus is on both the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by category) and the component units. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information. The City generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are available. The City may defer the use of restricted assets based on a review of the specific transaction.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues. The City does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

The City's fiduciary funds (which have been redefined and narrowed in scope) are presented in the fund financial statements by type (pension, private purpose and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The following is a brief description of the specific funds used by the City in FY 2001.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed.

a. General Fund

The General Fund is the primary operating fund of the City. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the City of Alexandria School Board.

b. Special Revenue Fund

The Special Revenue Fund accounts for revenue derived from specific sources (other than major capital projects) that are restricted by legal and regulatory provisions to finance specific activities. The Special Revenue Fund is considered a major fund for reporting purposes.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Capital Projects Fund

The Capital Project Fund accounts for all financial resources used for the acquisition or construction of major capital facilities not being financed by proprietary funds. The Capital Projects fund is considered a major fund for government-wide reporting purposes.

2. Proprietary Funds

Proprietary Funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and payments relating to the government's business activities are accounted for through proprietary funds. The measurement focus is on determination of net income, financial position, and cash flows. Operating revenues include charges for services. Operating expenses include costs of services as well as, materials, contracts, personnel, and depreciation. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, the City has elected to follow GASB statements issued after November 30, 1989, rather than the Financial Accounting Standards Board, in accounting for proprietary funds.

a. Enterprise Fund or Business Funds

The Enterprise Fund accounts for operations that are financed in a manner similar to private business enterprises, where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City's Enterprise Fund accounts for the operations of the City's recycling program.

b. Internal Service Fund

The Internal Service Fund accounts for the financing of goods or services provided by one department to other departments or agencies of the City on a cost-reimbursement basis. The City established the Equipment Replacement Reserve Account, an internal service fund, for the purpose of providing for the accumulation of funds to replace capital equipment items used in City operations. This internal service fund derives its funding from periodic equipment rental charges assessed to the user departments in the governmental funds. This funding is then used to replace capital equipment when the need arises. The internal service fund is included in governmental activities for government-wide reporting purposes. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. The excess revenue or expenses for the fund are allocated to the appropriate functional activity.

3. Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, and other governments. The Fiduciary Funds of the City are the John D. Collins Private Purpose Trust Fund, Pension Trust Funds, the Mental Health Client Account, the Human Services Special Welfare Account, the Human Services Dedicated Account, and the Industrial Development Authority Agency Funds. For accounting measurement purposes, the Private Purpose Trust Fund and the Pension Trust Funds are accounted for in essentially the same manner as proprietary funds. Private Purpose Trust Funds account for assets of which the principal may not be spent. The Pension Trust Funds account for the assets of the City's pension

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

plans. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operation. Fiduciary funds are not included in the government-wide financial statements.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet in the funds statements. Long-term assets and long term liabilities are included in the government-wide statements. Operating statements of the governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide statements of net assets and statements of activities, all proprietary funds, and private purpose trust funds and pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these activities are either included on the statement of net assets or on the statement of fiduciary net assets. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The statements of net assets, statements of activities, financial statements of the Proprietary Funds and Fiduciary Funds (except for agency funds) are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The fund financial statements of the General, Special Revenue, Capital Projects, and agency funds are maintained and reported on the modified accrual basis of accounting using the current financial resources measurement focus. Under this method of accounting, revenues are recognized in the period in which they become measurable and available. With respect to real and personal property tax revenue and other local taxes, the term "available" is limited to collection within forty-five days of the fiscal year-end. Levies made prior to the fiscal year-end but which are not available are deferred. Interest income is recorded as earned. Federal and State reimbursement-type grants are recorded as revenue when related eligible expenditures are incurred. Expenditures, other than accrued interest on long-term debt, are recorded when the fund liability is incurred.

D. Budgets and Budgetary Accounting

The City Council annually adopts budgets for the General Fund and Special Revenue Fund of the primary government. All appropriations are legally controlled at the departmental level for the General Fund and Special Revenue Fund. The School Board appropriation is determined by the City Council and controlled in total by the primary government. On June 17, 2000, the City Council formally approved the original adopted budget and on June 26, 2001 approved the revised budget reflected in the financial statements. The School Board only legally adopts a budget for the School Operating Fund. Budgets are prepared for the Capital Projects Fund on a project basis, which covers the life of the project. A Capital Projects Fund appropriation does not lapse until approved by City Council.

The budgets are integrated into the accounting system, and the budgetary data, as presented in the financial statements for all funds with annual budgets, compare the expenditures with the amended budgets. All

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

budgets are presented on the modified accrual basis of accounting. Accordingly, the Budgetary Comparison Schedule for the General and Special Revenue Funds presents actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

Encumbrances

Encumbrance accounting, the recording of purchase orders, contracts, and other monetary commitments in order to reserve an applicable portion of an appropriation, is used as an extension of formal budgetary control in the General and Capital Projects Funds. Encumbrances outstanding at year-end are reported as reservations of fund balance and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent fiscal year. These encumbrances are subject to reappropriation by Council ordinance in the succeeding fiscal year.

E. Equity in Pooled Cash and Investments

Cash resources of the individual funds, including imprest cash of \$17,315 and excluding cash held with fiscal agents in the General Fund, Special Revenue Fund, Capital Projects Fund, Proprietary Funds, Fiduciary Funds, and discretely presented component units (School Board, Library, and Alexandria Transit Company), are combined to form a pool of cash and investments to maximize interest earnings. Investments in the pool consist of repurchase agreements, commercial paper, and obligations of the Federal Government and are recorded at fair value. Income from pooled investments is allocated only when contractually or legally required. All investment earnings not legally or contractually required to be credited to individual accounts or funds are credited to the General Fund.

The Library maintains separate cash and investment accounts consisting of cash and bank notes recorded at fair value. All cash and investments held with fiscal agents for the primary government and its discretely presented component units are recorded at fair value.

For purposes of the statement of cash flows, the Proprietary Funds, the Private Purpose Trust Fund, and Alexandria Transit Company, consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

The fair value of investments is based on quoted market prices; no investments are valued at cost. All investments in external investment pools are reported at fair value.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Allowance for Uncollectible Accounts

The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance at June 30, 2001, is composed of the following:

GENERAL FUND:	
Taxes Receivable:	
Property	\$ 824,076
Personal	27,419,500
Penalties and Interest	<u>2,336,341</u>
Total taxes	<u>30,579,917</u>
Accounts Receivable	21,869
Notes Receivable	<u>9,000</u>
	<u>\$ 30,610,786</u>
SPECIAL REVENUE FUND:	
Notes Receivable	<u>\$ 1,998,960</u>

The Enterprise Fund's and the component units' accounts receivable are considered fully collectible and therefore an allowance for uncollectible accounts is not applicable to those receivables.

G. Inventory of Supplies and Prepaid and Other Assets

Primary Government

Inventories of consumable supplies are recorded at cost (determined on a first in, first out basis). Inventory in the General Fund and government activities consist of expendable supplies held for consumption. The costs are recorded as expenditures under the purchase method. Reported inventories in the General Fund are equally offset by a reservation of fund balance. Purchases of non-inventory items are recorded as expenditures under the purchase method, resulting in prepaid expenditures. Prepaid expenditures in reimbursable grants are offset by deferred revenues until expenditures are recognized.

Inventories in the Enterprise Fund are costed by methods that approximate average cost or market value, whichever is lower. These inventories consist primarily of operating materials held for consumption.

Component Units

Inventory for the School Board is comprised of food and commodities on hand pertaining to the National School Lunch program. Inventories of consumable supplies are recorded at cost (determined on a first in, first out basis). Inventories are recorded at fair market value when received and the costs are recorded as an expense or expenditure under the consumption method.

Inventory for the Alexandria Transit Company is comprised of parts and operating materials held for consumption. These inventories are costed by methods that approximate average cost or market value, whichever is lower.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Capital Assets

Capital outlays are recorded as expenditures of the General, Special Revenue, and Capital Projects Funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold of \$5,000 is met. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively to 1980. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful lives:

Buildings.....	40 years
Furniture and Other Equipment.....	3-20 years
Infrastructure.....	25 years

To the extent the City's capitalization threshold of \$5,000 is met, capital outlays of the Proprietary Funds are recorded as fixed assets and depreciated over their estimated useful lives on a straight-line basis on both the funds basis and the government-wide basis using the straight-line method and the following estimated useful lives:

Leasehold Improvements.....	3-40 years
Equipment.....	3-20 years

All fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated fixed assets are valued at their estimated fair market value on the date donated. The City does not capitalize historical treasures or works of art. The City maintains many items and buildings of historical significance. The City does not require that the proceeds from the sale of historical treasures or works of art be used to acquire other items for the collection.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenses that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

I. Compensated Absences

The City accrues compensated absences (annual and sick leave benefits) when vested. The current portions of the governmental funds' compensated absences liabilities are recorded as other liabilities in the General and Special Revenue Funds. The current and noncurrent portions are recorded in the government-wide financial statements. This includes the discretely presented component unit Library, since the City funds all library personnel costs.

The component unit School Board accrues compensated absences (annual and sick leave benefits) when vested. The current portion of the compensated absences is recorded in the School Board Governmental Funds as accrued liabilities. The current and noncurrent portions are recorded in the School Board component unit government-wide financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Fund Balance

Reservations of Fund Balance

Except for those required to comply with accounting standards, all reservations and designations of General Fund balance reflect City Council action in the context of adoption of the City's budget.

Notes Receivable - These monies have been reserved for notes receivable not expected to mature in the current fiscal year.

Inventory of Supplies - These monies have been reserved for reported inventories in the General Fund to comply with accounting standards.

Encumbrances - These monies have been reserved for goods and services encumbered, or ordered, before the end of the fiscal year, for which delivery of goods and services had not been made prior to the close of the fiscal year.

Approved Capital Projects - These monies are reserved for Capital Projects that City Council has already approved.

Designations

General Fund designations at June 30, 2001 consisted of the following:

Subsequent Fiscal Year's Operating Budget	\$ 3,506,000
Subsequent Fiscal Years' Capital Program	
2002 - 2007	16,700,000
Self-Insurance	5,000,000
Compensated Absences	7,208,635
Ongoing Projects	<u>890,895</u>
Total Designations	<u>\$ 33,305,530</u>

Subsequent Year's Operating Budget - On June 16, 2001, City Council approved the Fiscal Year 2002 Appropriations Ordinance, which appropriated \$3.5 million of General Fund Balance to meet anticipated expenditures.

Subsequent Years' Capital Program - These monies (\$16.7 million) have been designated in the Approved Fiscal Year 2002 Budget (Annual Capital Improvement Program Funding Plan), or designated subsequent thereto, to fund that portion of the capital improvement program in FY 2002 and beyond.

Self - Insurance - These monies (\$5.0 million) have been designated for reserves for the City's self-insurance fund.

Compensated Absences - These monies (\$7.2 million) are designated to ensure the General Fund maintains a designated balance sufficient to help fund a portion of compensated absences earned by employees of the primary government and school component unit. This is

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

calculated at 50 percent of the FY 2000 long-term liability in accordance with the FY 2002 budget approved by City Council in May 2001.

Ongoing Projects – These monies (\$0.9 million) have been set aside for projects approved in FY 2001 but not completed as of the end of the fiscal year.

NOTE 2. LEGAL COMPLIANCE – BUDGETS

After a public hearing and several work sessions, the City Council adopts an annual budget no later than June 27 for the succeeding fiscal year to commence July 1. Transfers of appropriations among departments or projects are made throughout the fiscal year by the City Council. The City Council may also approve supplemental appropriations. In fiscal year 2001, the Council approved a reappropriation of prior fiscal year encumbrances as well as various other supplemental appropriations. The City Manager has authority to transfer appropriations within each department. In fiscal year 2001, a number of intradepartmental transfers were made.

NOTE 3. DEPOSITS AND INVESTMENTS

The City maintains a pool of cash and investments in which each fund participates on a dollar equivalent and daily transaction basis. Interest is distributed monthly based on average monthly balances. A "zero balance account" mechanism provides for daily sweeps of deposits made to City checking accounts, resulting in an instantaneous transfer to the investment account. Thus, the majority of funds in the City's general account are invested at all times. Exceptions to this are funds in the Library System's checking account, the School Student Activity Fund account, and some bank accounts administered by the Human Services Department. The City's pooled portfolio also excludes pension plans.

A. Deposits

Primary Government

At June 30, 2001, the carrying value of the City's deposits was negative \$95,754 and the bank balance was \$3,248,131. The negative balance represents checks issued out of authorized appropriations but outstanding at June 30, 2001. The entire bank balance was covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act (The Act). The Act provides for the pooling of collateral pledged with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for one public depositor and public depositors are prohibited from holding collateral in their name as security for deposits. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of The Act and for notifying local governments of compliance by banks and savings and loan associations. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral were inadequate to cover the loss, additional amounts would be assessed on a pro rata basis to the members of the pool. Funds deposited in accordance with the requirements of The Act are considered fully secured and thus are not categorized below.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Component Units

The carrying value of deposits for the School Board was negative \$1,905,160 and the bank balance was \$391,806. The negative balance represents checks issued out of authorized appropriations but outstanding at June 30, 2001. The entire bank balance was covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act as defined in the above paragraph.

At June 30, 2001, the carrying value of deposits and bank balance for the Library was \$131,802. Only \$54,221 of the bank balance was covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act as defined above. The remaining balance, \$77,581, was categorized as uninsured and uncollateralized in category three of credit risk.

B. Investments

State statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, commercial paper rated A-1 by Standard and Poor's Corporation or P-1 by Moody's Commercial Paper Record, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool. The City's current investment policy limits investments to obligations of the United States and agencies thereof, commercial paper, and repurchase agreements fully collateralized in obligations of the United States and agencies thereof. During the fiscal year, the City had investments in repurchase agreements, commercial paper, and obligations of the United States and agencies thereof.

At June 30, the City recognized an other than temporary impairment of \$0.8 million in commercial paper issued by California Edison. This reduction is reflected in the government wide statement of activities in the interest and investment earnings category and fund statement of revenues, expenditures and changes in fund balance in the use of money and property category.

The City's investments during fiscal year 2001 were placed by a designated portfolio manager, Fiduciary Trust. The City has a contract with Fiduciary Trust which requires that, at the time funds are invested, collateral for repurchase agreements be held in the City's name by a custodial agent (Bank of New York) for the term of the agreement and investments in obligations of the United States or its agencies be held by the Federal Reserve in a pledge account in the City's name.

The City and its discretely presented component units maintain nine pension plans. Assets of the pension plans are invested by the pension carriers in accordance with provisions of the Code of the Commonwealth of Virginia.

The City's investments are categorized below to give an indication of the level of custodial credit risk assumed at June 30, 2001. Category 1 includes investments that are insured or registered or for which the securities are held by the City or its agent in the City's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the City's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent, but not in the City's name.

NOTE 4. RECEIVABLES (Continued)

Long-term assets on a government-wide basis include taxes receivable of \$2.6 million that are not available to pay for current period expenditures and are therefore are offset by the deferred revenue for the governmental funds. Tax revenues and the corresponding deferred revenue reported on a government-wide basis were reduced by \$9.4 million of taxes that did not use current financial resources, and therefore, are not required to be reported in the governmental funds.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental Funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of FY 2001 deferred revenue in the governmental funds consisted of the following:

	<u>Unavailable</u>	<u>Unearned</u>	<u>Total</u>
Delinquent property taxes, net of related allowances	\$ 127,153,563	\$ 1,047,762	\$ 128,201,325
Grant proceeds received prior to completion of eligibility requirements	----	2,972,601	2,972,601
Developers Deposits	----	312,972	312,972
Total deferred/unearned revenue for governmental funds	<u>\$ 127,153,563</u>	<u>\$ 4,333,335</u>	<u>\$ 131,486,898</u>

Component Units

Receivables at June 30, 2001 consist of following:

	<u>School Board</u>	<u>Library</u>	<u>Alexandria Transit Co.</u>	<u>Total</u>
Receivables				
Interest	\$ ---	\$ 1,094	\$ ---	\$ 1,094
Accounts	---	---	4,363	4,363
Other	112,674	---	---	112,674
Intergovernmental	<u>3,201,669</u>	<u>---</u>	<u>55,215</u>	<u>3,256,884</u>
Total Receivables	<u>\$3,314,343</u>	<u>\$ 1,094</u>	<u>\$ 59,578</u>	<u>\$ 3,375,015</u>

All of the Component Units' receivables are considered to be collectible.

All deferred revenue in the component units is unearned.

A. Property Taxes

The City levies real estate taxes on all real property on a calendar year basis, at a rate enacted by the City Council on the assessed value of property (except public utility property) as determined by the Director of Real Estate Assessments of the City. Public utility property is assessed by the Commonwealth. Neither the City nor the Commonwealth of Virginia imposes a limitation on the tax rate. All property is assessed at 100 percent of fair market value and reassessed each year as of January 1. The Director of Real Estate Assessments, by authority of City ordinance, prorates billings for property incomplete as of January 1, but completed during the year.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 4. RECEIVABLES (Continued)

Real estate taxes are billed in equal semi-annual installments due June 15 and November 15. The taxes receivable balance at June 30, 2001 includes amounts not yet received from the January 1, 2001 levy (due June 15 and November 15, 2001), less an allowance for uncollectibles. The installment due on November 15, 2001 is included as deferred revenue since these taxes are restricted for use until FY 2002. Liens are placed on the property on the date real estate taxes are delinquent, and must be satisfied prior to the sale or transfer of the property. In addition, any uncollected amounts from previous years' levies are incorporated in the taxes receivable balance. The tax rate was \$1.11 per \$100 of assessed value during calendar year 2001 and 2000.

Personal property tax assessments on tangible business property and all motor vehicles are based on 100 percent of fair market value of the property as of January 1 of each year. For a vehicle, the tax may be prorated for the length of time the vehicle has situs in the City. Personal property taxes for the calendar year are due on October 5. Personal property taxes do not create a lien on property; however, City vehicle decals, which are required by law for all vehicles garaged in the City, may not be issued to any individual having outstanding personal property taxes. The taxes receivable balance at June 30, 2001 includes amounts not yet billed or received from the January 1, 2001 levy (due October 5, 2001). These taxes are included as deferred revenue since these taxes are restricted for use until FY 2002. The tax rates during calendar year 2000 and 2001 were \$4.75 for motor vehicles and tangible property and \$4.50 for machinery and tools per \$100 of assessed value. In addition, any uncollected amounts from prior year levies are incorporated in the taxes receivable balance. Under the provisions of the Personal Property Tax Relief Act of 1998 (PPTRA), the City billed and collected from the State 47.5 percent of most taxpayers' payments in FY 2001 for the January 1, 2000 levy for the State's share of the local personal property tax payment with the remainder collected by the City. Deferred revenues include 70 percent of the January 1, 2001 levy of the state's share of the January 2001 levy.

B. Notes Receivable

The gross amount of notes receivable are primarily for the City's housing programs and consisted of the following at June 30, 2001:

Governmental Activities

General Fund	\$ 9,000
Special Revenue Fund	3,372,101
Less Allowance for Uncollectible Accounts	<u>(2,007,960)</u>
Net	<u>\$ 1,373,141</u>
Amounts due within one year	<u>\$ 85,801</u>
Amounts due in more than one year	<u>\$ 1,287,340</u>

Note 5. CAPITAL ASSETS (Continued)

Capital outlays are reported as expenditures in the governmental funds; however, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. The adjustment from governmental funds to the government-wide statements are summarized as follows:

Primary Government

Capital Outlay	\$21,638,717
Donated Assets	5,924,281
Depreciation Expense	(10,586,745)
Capital Outlay not Capitalized	<u>(10,088,705)</u>
Total Adjustment	<u>\$ 6,887,548</u>

Donated assets are comprised of infrastructure and a rail station with a fair market value of \$5.8 million donated to the City.

Component Unit – School Board

Capital Outlay	\$ 8,321,193
Depreciation Expense	(1,572,949)
Capital Outlay not Capitalized	<u>(4,390,911)</u>
Total Adjustment	<u>\$ 2,357,333</u>

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 6. RISK MANAGEMENT

The City is exposed to various losses related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. It is the policy of the City to retain risks of losses in those areas where it believes it is more economical to manage its risks internally and account for any claims settlement in the General Fund. Exceptions to the self-insurance program are made when insurance coverage is available and when premiums are cost effective. The City is covered by property/casualty insurance policies on real and personal property (except vehicles) and the following liability insurance policies as of June 30, 2001: public entity and public officials excess liability, medical and dental malpractice liability, voting booths, special events, vacant buildings, volunteer liability, non-owned aircraft liability, and commercial crime. In addition, the City maintains excess workers' compensation insurance. The City maintains a blanket surety bond on all City workers who handle funds and excess amounts on key officials. There were no material reductions in insurance coverage from coverage in the prior fiscal year nor did settlements exceed coverage for any of the past three fiscal years.

The City is self insured for workers' compensation claims up to \$300,000, public officers, public entity, physical damage to vehicles, and vehicle general liability under \$2 million and over \$10 million.

The following Constitutional Officers and City employees are covered by surety bonds issued in the amounts shown below by Aetna Casualty and Surety as of June 30, 2001:

Director of Finance.....	\$ 500,000
Treasury Division Chief	\$ 300,000
Revenue Division Chief.....	\$ 150,000
Clerk of the Circuit Court.....	\$ 103,000*
Social Services Division Director.....	\$ 25,000
Sheriff.....	\$ 30,000*
All other City employees.....	\$ 100,000
Alexandria Historic Restoration and Preservation Commissioners	\$ 10,000

* Bond provided by Commonwealth of Virginia

Self-Insurance

The non-current portion of unpaid workers' compensation claims amounted to approximately \$2.4 million as of June 30, 2001, and is reflected in the government-wide statements. The current portion is recorded as an accrued liability in the General Fund and the government-wide financial statements. Liabilities are reported when it is probable that losses have occurred and the amounts of the losses can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported to date. Liabilities are determined using a combination of actual claims experience and actuarially determined amounts and include incremental claim adjustment expense and estimated recoveries. An independent contractor processes public liability claims and the City records a provision and liability in the entity-wide statements and General Fund (current portion only) for an estimate of incurred but not reported claims.

Changes in the non-current portion of estimated claims payable for workers' compensation during the fiscal years ended June 30, 2001 and 2000 were as follows:

	<u>FY 2001</u>	<u>FY 2000</u>
Estimated claims payable at beginning of period.....	\$ 2,086,960	\$ 1,484,559
Current fiscal year claims and changes in estimates	1,542,549	1,327,530
Claim payments.....	<u>(1,189,438)</u>	<u>(725,129)</u>
Estimated claims payable at end of period.....	<u>\$ 2,440,071</u>	<u>\$ 2,086,960</u>

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 6. RISK MANAGEMENT (Continued)

Insurance Reserve

In addition, the City has designated a General Fund fund balance self-insurance reserve of \$5.0 million as of June 30, 2001.

Risk Pools

On March 15, 1986, the City joined the Commonwealth of Virginia's Law Enforcement Liability plan, called VA Risk, on behalf of the Office of the Sheriff. VA Risk is operated by the Division of Risk Management of the Commonwealth's Department of General Services. It was created in accordance with Sec. 2.1-526.8:1 of the Code of Virginia, which says that the State shall have the right and duty to defend any suit seeking damages or compensation against the City's officials and employees on account of wrongful acts, even if any of the allegations of the suit are groundless, false, or fraudulent, and may make investigation and settlement of any claims or suit as deemed expedient. The limits of VA Risk coverage are \$1 million per claim. The City retains the risk for all claims in excess of \$1 million.

Component Units

The School Board carries commercial insurance for all risks of loss, including property insurance, theft, auto liability, physical damage, and general liability insurance. The School Board is self-insured for workers compensation. School management has estimated their workers compensation liability is not significant, and therefore, a liability has not been recorded as of June 30, 2001. Settled claims resulting from these risks have not exceeded commercial insurance coverage. There were no material reductions in insurance coverage from coverage in the prior fiscal year nor did settlements exceed coverage for any of the past three fiscal years.

The Library carries commercial insurance with the St. Paul Insurance Company. The Library's Crime Bond is with Fidelity and Deposit Company of Maryland for risks of loss including property insurance, theft, auto liability, physical damage, and general liability insurances. There were no material reductions in insurance coverage from coverage in the prior fiscal year nor did settlements exceed coverage for any of the past three fiscal years.

On October 1, 1987, the Alexandria Transit Company joined the Virginia Transit Liability Pool. The Virginia Transit Liability Pool is serviced by commercial companies.

The coverage and limits of the pool's liability to the City are as follows:

Commercial General Liability	\$10 million
Automobile Liability.....	\$10 million
Uninsured Motorist.....	\$50,000
Automobile Physical Damage.....	(Actual Value)

In Fiscal Year 2001, the Alexandria Transit Company paid an annual premium of \$189,234 for participation in this pool.

Under the provisions of the Virginia Workers' Compensation Act, the Alexandria Transit Company has secured the payment of Virginia compensation benefits and employers' liability coverage with the Virginia Municipal Group Self-Insurance Association (VMGSIA). VMGSIA is a public entity risk pool providing a comprehensive workers' compensation insurance program to Virginia municipalities and other local government entities. In addition to insurance coverage, the program provides risk management services with emphasis on loss control and claims administration. The Alexandria Transit Company pays an annual premium to VMGSIA for

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 6. RISK MANAGEMENT (Continued)

workers' compensation coverage. VMGSIA is self-sustaining through member premiums and will reinsure for claims in excess of \$5 million. Each member's premium is determined through an actuarial analysis based upon the individual district's past experience and number of employees. In Fiscal Year 2001, the Alexandria Transit Company paid an annual premium of \$29,398 for participation in this pool.

NOTE 7. OPERATING LEASES

Rental Expenditures

The City and the School Board lease office space and equipment under various long-term operating lease agreements expiring at various dates through Fiscal Year 2006 and beyond. Certain leases contain provisions for possible future increased rentals based upon changes in the Consumer Price Index.

Scheduled minimum rental payments for succeeding fiscal years ending June 30 are as follows:

<u>Fiscal Year</u>	<u>Primary Government</u>	<u>School Board Component Unit</u>
2002	\$ 2,612,898	\$ 910,678
2003	2,143,906	921,177
2004	2,073,643	948,813
2005	1,990,813	977,277
2006	1,666,202	1,006,595
2007-2011	6,911,600	5,504,478
2012-2016	5,029,910	--

Total rental expenditures during Fiscal Year 2001 for operating leases were \$2,280,911 for the Primary Government and \$1,597,798 for the School Board.

Rental Revenues

The City also leases various City-owned properties and buildings under noncancellable long-term lease agreements through Fiscal Year 2006 and beyond. The carrying value of leased assets of \$5.7 million (cost of \$6.8 less accumulated depreciation of \$1.2 million) are included in capital assets in the government-wide financial statements. Certain leases contain provisions for future increased revenues based upon changes in the Consumer Price Index.

Scheduled minimum revenues for succeeding fiscal years ending June 30 are as follows:

<u>Fiscal Year</u>	<u>Total Revenues</u>
2002	\$ 479,521
2003	366,448
2004	239,282
2005	153,397
2006	153,397
2007-2011	766,987

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 8. CAPITAL LEASE

The City participates in a joint venture with the Counties of Arlington and Loudoun and the Cities of Fairfax, Falls Church, Manassas, and Manassas Park to provide training for sworn law enforcement and correctional officers to satisfy requirements mandated by the Commonwealth of Virginia. In Fiscal Year 1993, the City entered into a long-term lease with the other members to finance the costs of acquisition, renovation, furnishing and equipping of a training facility for the Northern Virginia Criminal Justice Academy. This lease provides for monthly payments in amounts sufficient to meet the annual debt service requirements on the Industrial Development Bonds issued to the Academy by the Industrial Development Authority of Loudoun County, Virginia.

Future minimum lease payments under the capital lease, which will be funded from the General Fund, is as follows:

Primary Government

<u>Fiscal Year</u>	<u>Criminal Justice Academy</u>
2002.....	\$ 158,349
2003.....	158,479
2004.....	158,192
2005.....	157,353
2006.....	157,359
2007-2008	<u>316,627</u>
	\$ 1,106,359
Less: Amount Representing Interest.....	<u>207,365</u>
Present Value of Future Minimum Lease Payments	<u>\$ 898,994</u>

The gross amount recorded in capital assets for the asset associated with this lease is \$1.5 million, including land of \$0.2 million and building of \$1.3 million.

NOTE 9. COMMITMENTS AND CONTINGENCIES

A. Washington Metropolitan Area Transit Authority

The City's commitments to the Washington Metropolitan Area Transit Authority (WMATA) are comprised of agreements to make capital contributions for construction of the rail transit system, contributions for replacement and improvement of rail and bus equipment, and payments of operating subsidies for both the rail and bus systems. The City's commitments in each of these areas are summarized as follows:

1. Capital Contributions - Rail Construction

The City and other participating jurisdictions have entered into a series of capital contributions agreements with WMATA to fund the local share of the cost of constructing the regional Metrorail transit system. The City has fulfilled all of its commitments for capital contributions except those commitments pursuant to the fifth Interim Capital Contributions Agreement (ICCA-V) that was adopted by the Council in January 1992. Pursuant to these agreements, the City and other participating jurisdictions pledged their best efforts and faithful cooperation to provide capital contributions to match federal grants funded from the federal authorizations. These agreements include a schedule for capital contributions required of the jurisdictions to match federal appropriations from the

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 9. COMMITMENTS AND CONTINGENCIES (Continued)

respective authorizations. As of June 30, 2001, only \$580,933 in City commitments under ICCA-V had not been billed.

The final 13.5 miles of the 103-mile adopted regional system for Metrorail are being funded under P.L. 101-551. While these final miles were completed in FY 2001, closing billings or closing credits (if no bill is due) are not anticipated to be completed until FY 2003. In approving ICCA-V, the jurisdictions agreed to provide local matching contributions totaling \$780 million over the life of the authorization. The payment schedule that was included in the agreement calls for \$21 million in matching funds to be provided by the City of Alexandria between Fiscal Years 1993 and 2002. The City's remaining contribution is anticipated to come from a combination of cash capital, credits available at Northern Virginia Transportation Commission (NVTC) and WMATA, and future state and/or local bonds. During Fiscal Year 2001, the City's ICCA-V obligation totaled \$1,155,408, which was funded with \$792,132 of City capital project funds and \$363,276 in WMATA credits.

2. Capital contributions - Bus and Rail Replacement

Each fiscal year, the City is obligated to make payments or have payments made on its behalf for capital purchases for WMATA's bus system and to improve the reliability of rail capital equipment. The funding required for WMATA's annual capital program depends upon the availability of federal grants. During the fiscal year ended June 30, 2001, the total City obligation was \$2,011,160 for the WMATA capital replacement/improvement. Of this total, \$1,824,790 was funded with Commonwealth Transportation Bonds, \$55,636 with State motor fuel sales tax revenues, and the remaining \$130,734 from City capital project funds.

3. Operating subsidies - Bus and Rail Systems

During the fiscal year ended June 30, 2001, obligations for bus and rail subsidies amounted to \$14,729,755. The City paid this obligation from the following sources:

City payments	\$ 2,685,797
Credits available at WMATA and NVTC.....	1,481,961
State Aid and State Motor Fuel Sales Tax revenues	<u>10,561,997</u>
TOTAL	<u>\$14,729,755</u>

Expected obligations for Fiscal Year 2002 are \$16.1 million of which \$2.0 million is expected to be paid from the City's General Fund.

4. WMATA Transit Revenue Bonds

WMATA issued almost \$1 billion of federally guaranteed transit revenue bonds to fund part of the construction of the rail transit system. Operating revenues have been insufficient to retire this debt. The federal government and WMATA entered into an agreement whereby the federal government agreed to pay two-thirds of the debt service costs for these bonds and to advance part of the remaining one-third during the first three years of the agreement. The agreement requires that WMATA repay the federal advances, with interest, and one-third of the debt service on the bonds. WMATA allocated the cost of the advances and the one-third of the debt service cost among the participating jurisdictions. During FY 2001 the City paid \$256,070 for debt service to NVTC for bonds issued in November 1999. The City has not agreed to any payments for the one-third allocation of debt service, but NVTC has paid, from state aid, all such costs allocated to Northern Virginia jurisdictions, of which \$1,418,184 was the City's allocation during the fiscal year ended June 30, 2001. However, NVTC has not paid any of the allocations for federal advances. In July of 1985, the Alexandria City Council authorized NVTC to pay \$4,263,087 to WMATA, including accrued interest from state aid on deposit to the credit of the City. This was the total amount

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 9. COMMITMENTS AND CONTINGENCIES (Continued)

allocated to the City by WMATA for advances by the federal government, including accrued interest. The City has thus, with such authorization, satisfied all claims due WMATA for transit revenue bonds.

B. Litigation

The City is contingently liable with respect to lawsuits and other claims which arise in the ordinary course of its operations. It is the opinion of City management and the City Attorney that any losses not covered by insurance which may ultimately be incurred as a result of the suits and claims will not be material.

C. Waste-To-Energy Facility

The City has guaranteed annual tonnage of acceptable waste commitment to the Waste-to-Energy Facility, which is owned and operated by a private corporation. The commitment which is joint with Arlington County, is based on a percent of solid waste the City and Arlington County expects to collect together. The facility will charge a fee on each ton based on defined costs. Based on an engineering study, it is expected that the City and Arlington County will be able to meet their minimum requirement for annual tonnage of 225,000 tons per year. For fiscal year 2001, the City and Arlington County exceeded the minimum annual tonnage requirement. If the City would be required to augment this requirement, the financial effect on the City would be immaterial.

Federal law changes in the Clean Air Act and subsequent regulations required the City and Arlington County to invest in a retrofit for new equipment at the Waste-To Energy Facility. This investment was financed by \$46.1 million in revenue bonds issued under the Arlington County Industrial Development Authority. Operating costs of the facility and the City's portion of debt service increased to \$1.6 million per year now that the facility is fully upgraded and operational. The upgrade was substantially completed in November 2000.

D. Northern Virginia Transportation District Bonds

In November 1999, the City signed an agreement with the Commonwealth Transportation Board to provide \$256,070 annually, subject to appropriation, to finance certain Northern Virginia Transportation District Bond projects benefiting the City and other jurisdictions in Northern Virginia. The FY 2001 payment of \$256,070 was made from the proceeds from the City's telecommunications tax received by the General Fund.

NOTE 10 LONG-TERM DEBT

General Obligation Bonds - The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities.

NOTE 10. LONG-TERM DEBT (Continued)

General obligation bonds are direct obligations and pledge the full faith and credit of the City. These bonds are subject to the provisions of the Internal Revenue Code of 1986 related to arbitrage and interest income tax regulations under those provisions. General obligation bonds outstanding as of June 30, 2001 are composed of the following individual issues:

	<u>Amount Outstanding</u>
\$55,000,000 Public Improvement Bonds of 2000 installments ranging from \$1,400,000 to \$2,985,000 through 2020, bearing interest at rates ranging from 4.75 percent to 5.75 percent. The bonds maturing before June 15, 2011 are not subject to redemption before maturity. Beginning June 15, 2010, bonds maturing on or after June 15, 2011 are subject to redemption at the direction of the City, in whole or in part in installments of \$5,000, at certain redemption prices that include a redemption premium plus accrued interest.....	\$ 54,400,000
\$40,000,000 Public Improvement Bonds of 1999 due in annual installments of \$2,000,000 through 2019, bearing interest at rates ranging from 3.5 percent to 5.0 percent. The bonds are not subject to redemption prior to maturity	36,000,000
\$22,655,000 Public Improvement and Refunding Bonds (\$10,000,000 refunded) of 1994 due in annual installments ranging from \$790,000 to \$1,830,000 through 2009, bearing interest rates ranging from 4.5 percent to 5.1 percent. The bonds are not subject to redemption prior to maturity	11,275,000
\$23,485,000 Public Improvement Refunding Bonds (\$20,980,000 refunded) of 1992 due in annual installments ranging from \$1,125,000 to \$2,570,000 through 2003, bearing interest at rates ranging from 5.65 percent to 5.85 percent. The bonds are not subject to redemption prior to maturity	<u>6,200,000</u> <u>\$107,875,000</u>

NOTE 10. LONG-TERM DEBT (Continued)

The requirements to amortize all long-term bonds as of June 30, 2001, including interest payments of \$48,421,239 are summarized as follows:

Fiscal Year	Serial Bonds Principal	Interest
2002.....	\$ 7,800,000	\$ 5,227,266
2003.....	8,610,000	4,860,294
2004.....	7,895,000	4,481,137
2005.....	6,740,000	4,135,624
2006.....	6,715,000	3,826,818
2007-2011.....	27,295,000	14,954,700
2012-2016.....	24,900,000	8,666,600
2017-2020.....	<u>17,920,000</u>	<u>2,268,800</u>
	<u>\$ 107,875,000</u>	<u>\$ 48,421,239</u>

Debt service requirements for general obligation bonds are met by the General Fund. The City retains the liability for the portion of general obligation bonds issued to fund capital projects of the School Board.

Issuance of General Obligation Bonds - On July 11, 2001, the City issued \$54.5 million in General Obligation Bonds with an true interest cost of 4.599 percent for the purpose of capital improvements in the City and the School Board. The proceeds will be used to fund projects in the City's approved FY 2002 - 2007 Capital Improvement Program.

Legal Debt Margin - The City has no overlapping debt with other jurisdictions. As of June 30, 2001, the City had a legal debt limit of \$1,463,234,920 and a debt margin of \$1,355,359,920:

Assessed Value of Real Property, January 1, 2001.....	<u>\$14,632,349,200</u>
Debt Limit: 10 Percent of Assessed Value.....	\$ 1,463,234,920
Amount of Debt Applicable to Debt Limit:	
General Obligation Bonds.....	<u>\$107,875,000</u>
Total General Obligation Debt.....	<u>107,875,000</u>
LEGAL DEBT MARGIN.....	<u>\$ 1,355,359,920</u>

Unissued Bonds - Bond authorizations expire three years from the effective date of the respective bond ordinances. Authorization of bonds, bonds issued and expirations during the fiscal year ended June 30, 2001, are summarized below:

	Authorized and Unissued July 1, 2000	Authorized	Issued	Expired	Authorized and Unissued June 30, 2001
General Obligation Bonds	<u>\$20,000,000</u>	<u>\$34,500,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 54,500,000</u>

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements

Exhibit XII
(Continued)

NOTE 10. LONG-TERM DEBT (Continued)

Changes in Long-Term Liabilities - Changes in the total long-term liabilities during the fiscal year ended June 30, 2001 are summarized below. The Net Pension Obligation results from contributions to the City Supplemental Pension Plan and the Public Safety Pension Plan that were less than the required amount. In general the City uses the General Fund to liquidate long-term liabilities.

Primary Government – Governmental Activities

	<u>Balance</u> <u>July 1, 2000</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u> <u>June 30, 2001</u>	<u>Amounts</u> <u>Due Within</u> <u>One Year</u>
General Obligation Bonds	\$ 114,690,000	\$ ---	\$ 6,815,000	\$ 107,875,000	\$ 7,800,000
Obligations Under Capital Lease	1,002,635	---	103,641	898,994	109,463
Workers' Compensation Claims	2,086,960	1,542,549	1,189,438	2,440,071	882,956
Accrued Compensated Absences	10,754,880	8,614,986	7,113,160	12,256,706	1,600,947
Net Pension Obligation	<u>2,390,803</u>	<u>1,653,250</u>	<u>---</u>	<u>4,044,053</u>	<u>---</u>
TOTALS	<u>\$130,925,278</u>	<u>\$11,810,785</u>	<u>\$15,221,239</u>	<u>\$ 127,514,824</u>	<u>\$10,393,366</u>

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities – both current and long-term – are reported in the statement of net assets. The adjustment from modified accrual to full accrual is as follows:

Balances at June 30, 2001 were:	
Long-term liabilities (detail above)	\$ 127,514,824
Accrued interest	<u>1,149,280</u>
Combined adjustment	<u>\$ 128,664,104</u>

Under the modified accrual basis of accounting used in the fund financial statements for the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the government-wide statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues. This adjustment from modified accrual to full accrual is composed of the following items:

Compensated absences	\$ 1,501,826
Workers' compensation	353,111
Pension obligation	1,653,250
Accrued interest on bonds	<u>3,075</u>
Combined adjustment	<u>\$ 3,511,262</u>

Component Unit – School Board

	<u>Balance</u> <u>July 1, 2000</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u> <u>June 30, 2001</u>	<u>Amounts</u> <u>Due Within</u> <u>One Year</u>
Accrued Compensated Absences	<u>\$3,460,923</u>	<u>\$6,386,713</u>	<u>\$6,051,739</u>	<u>\$ 3,795,897</u>	<u>\$ 255,679</u>

NOTE 11. INTERFUND BALANCES AND TRANSACTIONS

Component Unit

Interfund receivable/payable consisted of the following at June 30, 2001:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Primary Government – General Fund	Component Unit – Library	\$ 26,134
Primary Government – Capital Projects Fund	Component Unit - School Capital Project Fund	\$ 1,559,504

These balances represent timing differences related to routine advances from the City for library operations and other capital transactions. These amounts were repaid subsequent to year-end.

Interfund transfers and transactions for the year ended June 30, 2001 consisted of the following:

<u>Transfer to (Fund):</u>	<u>Transfer from (Fund):</u>			
	<u>General</u>	<u>Special Revenue</u>	<u>Capital Projects</u>	<u>Total</u>
Primary Government				
Special Revenue	\$ 17,460,360	\$ ---	\$ ---	\$ 17,460,360
Capital Projects	27,406,193	195,241	---	27,601,434
Internal Service	---	23,736	---	23,736
Total	<u>\$ 44,866,553</u>	<u>\$ 218,977</u>	<u>\$ ---</u>	<u>\$ 45,085,530</u>
Component Unit Transactions				
Schools	\$ 98,797,770	\$ ---	\$ 17,622,608	\$ 116,420,378
Library	4,133,108	---	---	4,133,108
Alexandria Transit	3,548,210	---	---	3,548,210
Total	<u>\$ 106,479,088</u>	<u>\$ ---</u>	<u>\$ 17,622,608</u>	<u>\$ 124,101,696</u>

Primary transfer activities include:

Transfers from the General Fund to the Special Revenue represent City fund required to match grant programs resources.

Special revenue funds are transferred to other funds for capital and equipment purchases as determined by the terms of the grant agreements

Transfers from the General Fund to the Capital Projects fund represents the City's budget pay-as-you go funding.

Transfers to the component units represent budgeted subsidies for the school operations and capital, library operations and transit operations. In addition, the City transferred capital assets totaling \$2.5 million to Alexandria Transit.

NOTE 12. GRANTS

The City receives financial assistance from numerous federal, state and local governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any unallowed disbursements resulting from such audits could become a liability of the City. In the opinion of City management, no material refunds will be required as a result of unallowed disbursements (if any), by the grantor agencies.

NOTE 13. INTERGOVERNMENTAL REVENUES

Intergovernmental revenues for the City and its component units totaled \$94,562,662 in Fiscal Year 2001. Sources of these revenues were as follows:

GOVERNMENTAL FUNDS

NOTE 15. JOINT VENTURES

A. Northern Virginia Criminal Justice Academy

The City participates in a joint venture with the Counties of Arlington and Loudoun and the Cities of Fairfax, Falls Church, Manassas, and Manassas Park to provide training for sworn law enforcement and correctional officers to satisfy requirements mandated by the Commonwealth of Virginia. The Industrial Development Authority of Loudoun County, Virginia issued \$6,585,000 Northern Virginia Criminal Justice Academy Lease Revenue Bonds, Series 1993, to finance the acquisition, renovation, and equipment of the Academy Training Center. The City and the Counties of Arlington and Loudoun have entered into a capital lease with the Industrial Development Authority of Loudoun County. The City maintains an equity interest only in the land and building of the Academy, which is reflected in the City's Statement of Net Assets. The City does not maintain an equity interest in the Academy's operations.

In addition, the City pays the Northern Virginia Criminal Justice Academy for operating costs based on the pro-rata share of officers trained. In Fiscal Year 2001, the City paid \$262,004 for operating costs.

Financial statements for the Academy may be obtained at Northern Virginia Criminal Justice Academy, 45299 Research Place, Ashburn, Virginia 22011-2600.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2001

Exhibit XII
(Continued)

NOTE 15. JOINT VENTURES (Continued)

B. Northern Virginia Juvenile Detention Home

The City participates in a joint venture with Arlington County and the City of Falls Church to operate a regional juvenile detention home. In July 1993, the City agreed to fund 55.3 percent of the construction costs of a new facility. The final construction payments were made in Fiscal Year 1995. In addition, the City pays part of the Northern Virginia Detention Home's operating costs based on the number of beds utilized by Alexandria residents. These payments totaled \$818,657 in Fiscal Year 2001.

The City does not maintain an equity interest in the detention home. Complete separate financial statements for this operation may be obtained from Northern Virginia Juvenile Detention Home, 200 South Whiting Street, Alexandria, Virginia 22304.

C. Peumansend Creek Regional Jail Authority

In 1992, the City entered into an agreement with the Counties of Caroline, Arlington, Prince William, and Loudoun to form an Authority to construct and operate a regional jail in Caroline County. The regional jail, which commenced operations in September 1999, is used primarily to hold prisoners from each member jurisdiction. The Authority is composed of two representatives, the Chief Administrative Officer and the Sheriff, from each participating jurisdiction. The City of Richmond, which was not party to the original agreement, is now a part of the project. The regional jail has the capacity for 336 prisoners. The City is guaranteed a minimum of 50 beds.

The total project cost of \$27 million, with 50 percent of the eligible construction cost (\$23.8 million) to be reimbursed by the Commonwealth. The Authority issued \$10.2 million in revenue bonds and \$12 million of grant anticipation notes in March 1997. The City's total share of the project costs was \$18.2 million, including approximately \$3.2 million in capital and debt service costs and \$15 million in operating costs over the 20-year period of debt (1997-2016). For Fiscal Year 2001, the City paid \$438,590 for operating costs and \$187,582 for debt service payments. The City does not maintain an equity interest in the jail.

Complete financial statements can be obtained by writing to the Authority at Post Office Box 1460, Bowling Green, Virginia 22427.

D. Washington Metropolitan Area Transit Authority

As disclosed in Note 9, the City participates in a joint venture with other local jurisdictions to share in the cost of a regional transportation system. The City does not maintain an equity interest in WMATA. Complete financial statements of WMATA may be obtained from WMATA, 600 5th Street, N.W., Washington, DC 20001.

NOTE 16. RELATED PARTY TRANSACTIONS

Sheltered Homes of Alexandria is a not-for-profit corporation formed to obtain and maintain group homes for mentally and physically disabled or impaired adults. The corporation's trustees also serve on the Alexandria Community Services Board, whose board members are appointed by City and whose financial activities are therefore included as part of the primary government. During Fiscal Year 2001 the City made rental payments to Sheltered Homes of Alexandria totaling \$538,460.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements

Exhibit XII
(Continued)

NOTE 17. POST EMPLOYMENT BENEFITS

In 1989 City Council voted to establish three classes of post employment health care benefits to supplement the increasing health care burden for City retirees. The three classes are as follows: (a) City employees who are eligible to retire under the Virginia Retirement System and City Supplemental Pension plans who have attained age 55 with at least 5 years of service; (b) public safety employees who are eligible to retire under the public safety pension plan who have attained age 50 with at least 20 years of service; and (c) public safety employees who are eligible to retire under the public safety retirement income plan who have attained 20 years of service, regardless of age. Each fiscal year the City Council appropriates funds to pay for these health benefits. As of June 30, 2001, 429 retirees were both eligible and received benefits from all three classes of this plan. Eligibility is contingent upon the retiree providing proof of participation and payment to a health insurance plan. The City contributed on a "pay-as-you-go" basis at the rate of \$106.83 per month for each retiree, for a total annual contribution of \$498,412 for Fiscal Year 2001.

NOTE 18. EMPLOYEE RETIREMENT SYSTEMS

Primary Government

The City participates in six public employee retirement systems (PERS). One of these systems is handled by Virginia Retirement System (VRS), an agent multi-employer public retirement system that acts as a common investment and administrative agent for political subdivisions in the Commonwealth of Virginia, and is, therefore, not reflected as a City pension trust fund. Of the remaining five, two are single-employer defined benefit plans (City Supplemental and Public Safety Pension), where a stated methodology for determining benefits is provided, and three are single-employer defined contribution plans (Public Safety Retirement, Disability Income, and Sheriff Retirement), where contribution requirements are not actuarially determined. All of these plans are included as part of the City's reporting entity and as such are reflected as Pension Trust Funds.

NOTE 18. EMPLOYEE RETIREMENT SYSTEMS (Continued)

The actuarial valuations for all the defined benefit pension plans are performed annually with the exception of VRS, which is performed biennially; however, an actuarial update is performed in the interim year. In the current valuation report, VRS used the same assumptions and methods as the prior year report. The number of active members shown includes those who have worked for the City at one time, but who are now active in another jurisdiction. Also the number of retirees includes those who retired from the City, as well as those who retired from another jurisdiction with service attributable to the City. The liability for the City's share of the benefits for those employees has been reflected in the pension liabilities and employer contribution rates. Financial statements and required supplementary information are presented in VRS comprehensive annual financial report, which can be obtained by writing to the Virginia Retirement System, Post Office Box 2500, Richmond, Virginia 23218.

For the City Supplemental Pension Plan, the plan cost increased as a percent of payroll. From FY 2000 to FY 2001, the annual required contribution rate increased from 4.18% to 4.88% of payroll, with net increase of \$511,319. This increase in plan cost is due to a sluggish equity market and demographic changes during FY 2001.

There were no changes in actuarial assumptions, benefit provisions, or funding method for the Public Safety Pension Plan.

NOTE 18. EMPLOYEE RETIREMENT SYSTEMS (Continued)

DESCRIPTION OF BENEFITS:

VRS – City - Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service and at age 50 with 30 years of service. Employees who retire with a reduced benefit at age 55 with at least 5 years of credited service are entitled to an annual retirement benefit payable monthly for life in an amount equal to 1.7 percent of their average final salary (AFS) for each year of credited service. An optional reduced retirement benefit is available as early as age 50 with 10 years of credited service. In addition, retirees qualify for annual cost-of-living (COLA) increases on July 1 of the second calendar year after retirement. These benefit provisions and all other requirements are established and may be amended by State statutes.

City Supplemental - City employees who retire at or after age 65 or after age 55 with 30 years credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to .80 percent of effective compensation multiplied by service on and after January 1, 1988, and 1.625 percent of effective compensation not to exceed \$100 plus .25 percent of such compensation over \$100 times years service provided subsequent to August 1, 1970, and prior to January 1, 1988, and 1.625 percent of past service compensation not to exceed \$100, plus .25 percent of such compensation over \$100 times years service provided subsequent to August 1, 1960, and prior to August 1, 1970. The pension benefit is reduced by 6 2/3 percent for each year up to five years and 3 1/3 percent for each year between five and ten years preceding normal retirement date. Benefit provisions are established and may be amended by City Ordinance.

Public Safety Pension - Employees who retire on or after age 60 are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2 percent of final average earnings multiplied by years of credited service, up to a maximum of 30 years. The plan also provides early retirement on or after age 50 with 20 years of credited service or on or after age 56 with 10 years of credited service. This plan further provides early retirement on or after age 50 with 10 years of service with actuarially reduced benefit. Benefit provisions are established and may be amended by City Ordinance.

Public Safety Retirement Income - The employees are entitled to contributions made on their behalf after 100 percent vesting. Employee contribution is voluntary and they are allowed to withdraw from their gross voluntary dollars after two years of participation in the plan. They may also cancel their voluntary portion of account. However, if they cancel they will receive a full refund of all voluntary contributions and interest earned to that point and would subsequently be suspended from making any further voluntary contributions for a period of twenty-four months. Benefit provisions are established and may be amended by City Ordinance.

Disability Income - This plan is part of the Public Safety Retirement Income Plan. The benefits for service-connected total and permanent disability are 70 percent of final average earnings, 66 2/3 percent for non-service connected total and permanent disability and service-connected partial disability, and 50 percent for non-service connected partial disability. Disability benefits are limited by the assets of the trust fund. If the plan administrator, after consultation with the plan's actuary, foresees the plan becoming insolvent, the administrator may reduce all participants' benefits on a pro rata basis as of the first day of any month after giving each participant receiving benefits under the plan adequate written notice. Benefit provisions are established and may be amended by City Ordinance.

Sheriff Retirement Income - This plan provides for benefits to be distributed in the case of termination, retirement, death, or disability to deputy sheriffs and emergency rescue technicians. Distribution options include cash distribution, annuities, or a combination of the two. Benefit provisions are established and may be amended by City Ordinance.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements

NOTE 18. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Component Unit School Board

The Alexandria School Board participates in three public employee retirement systems (PERS). Two of these systems are handled by Virginia Retirement System (VRS), a cost-sharing multi-employer plan and an agent multi-employer plan which are administered by the Commonwealth of Virginia and are, therefore, not reflected as a School Board Pension Trust Fund. The third plan (School Supplemental) is a single-employer defined benefit plan, where a stated methodology for determining pension benefits is provided. This plan is part of the School Board Pension Trust Fund.

All full-time professional employees of the School Board participate in the cost sharing multi-employer plan. The Virginia Retirement system provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. The VRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Virginia Retirement System, P.O. Box 2500, Richmond, Virginia 23218.

Plan members are required by State statute to contribute 5 percent of their covered payroll. However, the School Board has elected to assume this responsibility for the employees' share for both VRS plans. The School Board contributed at an actuarially determined rate of 7.54 percent of the annual covered payroll for the fiscal year 2001. The employer contribution rates for the fiscal years 2000 and 1999 were 9.04 percent and 8.49 percent, respectively. The contribution requirements of the plan members and School Board are established and may be amended by State statutes. The total payments by the School Board and plan members to VRS for this plan for the fiscal years ending June 30, 2001, 2000 and 1999 were \$8,873,992, \$9,331,275, and \$8,499,888, respectively, equal to the required contributions for each fiscal year.

There were no changes in actuarial assumptions, benefits provisions, or funding methods for the VRS Non-Professional Employees Plan.

In the School Supplemental Pension Plan, no changes occurred in the actuarial valuation assumptions, plan benefits, actuarial cost method or procedures affecting the comparability of costs.

The following schedules reflect a description of the plan provisions and membership information, actuarial assumptions, accounting and funding policies, and contribution requirements. The actuarial valuations for all the defined benefit plans are performed annually with the exception of VRS, which is performed biennially; however, an actuarial update is performed in the interim year. Six-year schedules of funding progress and trend information for defined benefit pension plans are provided in Exhibit XV.

The financial statements for the School fiduciary assets are available from the School Board.

Exhibit XII
(Continued)

NOTE 18. EMPLOYEE RETIREMENT SYSTEMS (Continued)

SCHOOL SUPPLEMENTAL

School Board employees who retire at or after age 65 or after age 55 with 30 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 0.40 percent of effective compensation multiplied by credited future service on and after September 1, 1984, and 1.625 percent of effective compensation not to exceed \$100 plus .25 percent of the amount by which effective compensation exceeds \$100 multiplied by credited future service before September 1, 1984, and 1.625 percent of past service compensation not in excess of \$100 plus .25 percent of past service compensation in excess of \$100 times credited past service.

NOTE 19. ACCOUNTING CHANGES

During fiscal year 2001 the City adopted GASB Statement 37 *Basic Financial Statements – and Management’s Discussion and Analysis for State and Local Governments: Omnibus*, and GASB Statement 38 *Certain Financial Statement Note Disclosures*. There is no impact on the financial statements.

NOTE 20. SUBSEQUENT EVENTS

On July 11, 2001, the City issued \$54.5 million in general obligation bonds. These bonds will be used to finance school and City capital projects.

The City is located near National Airport and the Pentagon. The City is assessing the impact of the events of September 11, 2001 on certain revenue, including transient lodging, meals tax and sales tax.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Required Supplemental Information
June 30, 2001

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City Council annually adopts budgets for the General Fund and Special Revenue Fund of the primary government. All appropriations are legally controlled at the departmental level for the General Fund and Special Revenue Fund. On June 17, 2000, the City Council approved the original adopted budget and on June 26, 2001 approved the revised budget reflected in the financial statements.

The budgets are integrated into the accounting system, and the budgetary data, as presented in the financial statements for all funds with annual budgets, compare the expenditures with the amended budgets. All budgets are presented on the modified accrual basis of accounting. Accordingly, the accompanying Budgetary Comparison Schedule for the General and Special Revenue Funds presents actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

(2) Material Violations

There were no material violations of the annual appropriated budget for the General and Special revenue Funds for the fiscal year ended June 30, 2001. In addition, there were no excesses of budgetary expenditures for the period.

* Estimated

** Only four years of information was available. This schedule will be expanded when information becomes available.

A schedule of Funding Progress for City Supplemental pension plan is not required because it uses the aggregate actuarial cost method, where actuarial accrued liabilities are not identified or separately amortized. They are amortized through normal cost

Six-year historical information of City's defined benefit pension plans is presented to help users assess each plan's funding status on a going concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employee retirement systems.

Analysis of dollar amounts of plan net assets, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing plan net assets as a percentage of the actuarial accrued liability provides one indication of each plan's funding status on a going concern basis. Analysis of this percentage over time indicates whether the plan is financially stronger or weaker. Generally, the greater this percentage, the stronger the plan. Trends in the unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the plan's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller the percentage, the stronger the plan.

Agency Funds

Agency Funds are City custodial funds used to provide accountability of client monies for which the City is custodian.

Human Services Special Welfare Account – This fund accounts for the current payments of supplemental security income for foster children.

Human Services Dedicated Account – This fund accounts for back payments of supplemental security income for foster children.

Industrial Development Authority Agency Fund – This fund accounts for Industrial Development Authority bond issuance fees and expenses, for which the City acts in a custodial manner.

*Delinquent personal property taxes are charged off by authority of existing ordinance.

The City of Alexandria aggressively levies a personal property tax even where individuals and businesses have failed to file. For example, if a business is licensed in the City and fails to file a business personal property tax return, that business is automatically billed on the basis of an assumed \$75,000 in personal property. If a business filed a personal property tax return last year and fails to file a return this year, that business is automatically billed 115 percent of last year's tax levy. If an individual registered his or her automobile last year and fails to register this year, he or she is billed based on last year's registration. If an individual registers his or her vehicle with the department of motor vehicles and fails to register with the City, he or she is automatically billed based on the DMV description of the vehicle. In most cases these personal property tax bills are ultimately reduced or relieved; as of June 30, 2000, approximately 90% of the outstanding tax bills from business were not based on actual filings. Because the validity of these billings cannot be known at the time personal property taxes are levied, they are included in the total tax levy and artificially reduce the City's collection rate.

*In FY 1998 additional adjustments, in the amount of \$14,785,478, were made to reflect the deletion of certain statutorily assessed non-filer accounts for tax years 1993-1997. The criteria for deletion of these accounts was that they were statutorily assessed for more than three years, no decal has been purchased for more than three years, and there is no move-out or disposal date on the account.

Total General Obligation Debt.....	<u>107,875,000</u>
 LEGAL DEBT MARGIN	 <u>\$ 1,355,359,920</u>

Limitations on the Incurrence of General Obligation Debt:

There is no requirement in the Virginia Constitution, the Virginia Statutes, or in the Charter of the City of Alexandria that the issuance of general obligation bonds of the City be subject to approval of the electors of the City at referendum.

Under the City Charter the City Council has full authority to authorize and issue general obligation bonds. The authorizing procedure consists of the passage on first reading of an ordinance authorizing the issuance of the bonds, followed by a notice of public hearing at a subsequent meeting and the final passage on second reading following the public hearing.

The only constitutional limitation on the issuance of general obligation bonds is contained in Article VII, Section 10 of the Virginia Constitution, which states that:

No city or town shall issue any bonds or other interest-bearing obligations which, including existing indebtedness, shall at any time exceed ten per cent of the assessed valuation of real estate in the city or town subject to taxation, as shown by the last preceding assessment for taxes.

CITY OF ALEXANDRIA, VIRGINIA
Overlapping Debt & Debt History
June 30, 2001

TABLE XI

The City of Alexandria is autonomous from any county, town, or other political subdivisions of the Commonwealth of Virginia. There is no overlapping general obligation debt or taxing powers. The water system and the sewage treatment plant within the City are operated by a private company and an independent authority, respectively, for which the City has no debt obligations.

The City has never defaulted in the payment of any part of either principal or interest on any debt.

<u>Credit Ratings</u>

SINGLE
AUDIT

2001 M Street, N.W.
Washington, D.C. 20036

Independent Auditors' Report on Compliance and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Mayor and Members of City Council
City of Alexandria, Virginia:

We have audited the accompanying basic financial statements of the City of Alexandria, Virginia (the City) as of and for the year ended June 30, 2001, and have issued our report thereon dated November 2, 2001. As described in note 19 to the basic financial statements, the City adopted Governmental Accounting Standards Board Statement No. 37, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus*" and No. 38, "*Certain Financial Statement Note Disclosures*," effective July 1, 2000. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Compliance

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The Auditor of Public Accounts of the Commonwealth of Virginia requires us to test the City's compliance with certain matters specified in the Code of Virginia including: budget and appropriation laws; cash and investment laws; conflicts of interest; debt provisions; procurement laws; local retirement systems; unclaimed property; and State Agency requirements for education. Comprehensive Services Act for at-risk youth and families, highway maintenance, social services, and personal property tax relief. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards* or the *Specifications for Audits of Counties, Cities and Towns*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management, the Mayor, members of City Council, federal awarding agencies and pass-through entities, and the Auditor of Public Accounts of the Commonwealth of Virginia and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance with Requirements
Applicable to Each Major Program and Internal Control over
Compliance in Accordance with OMB Circular A-133**

The Honorable Mayor and Members of City Council
City of Alexandria, Virginia:

Compliance

We have audited the compliance of the City of Alexandria, Virginia (the City) with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2001. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2001.

Internal Control Over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the accompanying basic financial statements of the City of Alexandria, Virginia (the City) as of and for the year ended June 30, 2001, and have issued our report thereon dated November 2, 2001. As described in Note 19 to the basic financial statements, the City adopted Governmental Accounting Standards Board Statement No. 37, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus*," and No. 38, "*Certain Financial Statement Note Disclosures*" effective July 1, 2000. Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Mayor, members of City Council, federal awarding agencies and pass-through entities, and the Auditor of Public Accounts of the Commonwealth of Virginia and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Schedule of Expenditures of Federal Awards
June 30, 2001

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards includes all federal grant activity of the City of Alexandria, Virginia and its component units during fiscal year 2001. The City's reporting entity is defined in Note 1 of the City's Basic Financial Statements. Federal awards are received directly, as well as passed through other governmental agencies.

This schedule has been prepared on the modified accrual basis of accounting. Expenditures are recorded when the liability is incurred.

RECONCILIATION OF NOTES TO FINANCIAL STATEMENTS TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The City receives and expends federal revenues that are non-grant related and therefore not reportable under the Schedule of Expenditures of Federal Awards. A reconciliation of the Schedule of Expenditures of Federal Awards to Note 13 in the Notes to the Financial Statements, Intergovernmental Revenues, is provided below.

Total Federal Expenditures per Schedule	\$ 22,828,089
Non-Reportable Federal Revenue	4,286,360
Commodities Distribution	<u>(182,106)</u>
Total Federal Revenue per Note 13	<u>\$ 26,932,343</u>

FEDERAL COGNIZANT AGENCY

The Federal Cognizant Agency for the City of Alexandria, Virginia is the United States Department of Health and Human Services.

FOOD STAMPS NON-CASH EXPENDITURES

The City has \$3,508,700 of non-cash expenditures for food stamps issued.

SUBGRANTEES

The City provided the following amounts to subrecipients during FY 2001:

<u>Program Title</u>	<u>CFDA</u>	<u>Amount</u>
Headstart	93.600	\$ 1,323,102
CDBG	14.218	465,078
HOME	14.235	109,130
Aging Title IIIC	93.045	22,245
Aging Title IIIB	93.044	23,094

CITY OF ALEXANDRIA, VIRGINIA
