

City of Alexandria, Virginia

MEMORANDUM

DATE: APRIL 6, 2004

TO: THE HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL

FROM: PHILIP SUNDERLAND, CITY MANAGER *PS*

SUBJECT: ORDINANCE TO INCREASE THE SANITARY SEWER LINE MAINTENANCE CHARGE

ISSUE: Ordinance to increase the sanitary sewer line maintenance charge.

RECOMMENDATION: That City Council pass on first reading the ordinance to increase the sanitary sewer line maintenance charge and set it for public hearing on April 17, 2004, and final passage on May 3, 2004.

DISCUSSION: The sanitary sewer line maintenance charge (i.e., usage fee) was established to assist in recovering the costs of maintaining, inspecting and improving public sanitary sewer facilities in the City. As discussed during the FY 2004 and the FY 2005 budget work sessions, the rate (currently \$0.40 per 1,000 gallons of usage) historically was not structured to generate sufficient revenues to recover the City's total current and future sanitary sewer operating, debt service and capital costs. Alexandria is the only major jurisdiction in the Washington, D.C. area that does not fund its sanitary sewer system fully from user fees and other non-tax sources. As a result, the City's General Fund tax revenues have historically been subsidizing the sanitary sewer system costs. Nationwide the usual and customary "best practice" is to have sanitary sewer operating, capital and debt service expense covered 100% by user fees.

At a budget work session in March 2003, staff outlined a proposal to begin a multi-year plan to increase the City's sanitary sewer fee so that the sanitary sewer costs are fully recovered from fees and other outside sources and that the General Fund subsidy be eliminated. In approving the FY 2004 operating budget and the FY 2004 - 2009 Capital Improvement Program (CIP), City Council adopted the funding plan to increase the sanitary sewer fee by \$0.20 in FY 2004, and each subsequent year, to make the sanitary sewer system self-sufficient by FY 2007. The FY 2005 - FY 2010 proposed CIP contains substantial investments in sanitary sewer capital projects, including:

- \$4.3 million for reconstruction and extensions;
- \$3.0 for combined sewer overflow improvement projects (CSOs);
- \$11.9 million for infiltration and inflow (I&I) projects;
- \$0.5 million for environmental restoration and sewer mapping;
- \$7.8 million for Holmes Run trunk sewer capacity expansion project; and
- \$3.9 million for the Royal Street sewer project.

Of particular importance is the I&I project, which will address the infiltration and inflow of rain and ground water into the sanitary sewer system. Such inflow can cause basement sewer backups, as some City neighborhoods experienced during the Winter of 2003, as well as more frequent wet weather discharges at the Alexandria Sanitation Authority (ASA) waste water treatment facility than desired.

The substantial capital funding requirements will be financed by a proposed multi-year incremental four-step increase in the sanitary sewer fee of \$0.20 per year, to the eventual rate of \$1.00 per 1,000 gallons of usage in FY 2007. The FY 2005 budget proposes the second of these increases, from \$0.40 to \$0.60. This increase will cost the average household about \$14 for the fiscal year. Businesses also pay the sanitary sewer fee, with the impact of the fee increase highly variable depending on the amount of usage.

The sanitary sewer rate was set at \$0.10 per thousand gallons of usage in 1979, raised to \$0.20 in 1995, and then to \$0.40 in FY 2004 in the first phase of this four year proposal to achieve self-sufficiency in FY 2007. Last year, with the first \$0.20 rate increase, each citizen received a City-provided explanation in their water-sewer bill. The explanation summarized much of the information in this report. Of the 26,000 notices mailed, the City received fewer than five inquiries or complaints.

In fiscal years subsequent to FY 2007, the sanitary sewer rate, as well as sanitary sewer operating and capital needs, would be reviewed as part of the annual budget process and the rate set accordingly in order to make sure that the sanitary sewer rate covers 100% of the cost of sanitary sewer system operating, debt service and cash capital costs. Creating a self-sufficient sanitary sewer funding plan also will enable General Fund financial resources to be redirected to other City needs, as well as provide a dedicated funding source to meet the City's sanitary sewer operating and capital needs.

Another benefit is that when the sanitary sewer system is fully financially self-supporting from user fees (i.e., the sanitary sewer usage fee, the sewer connection fee, federal grants and other related revenues), the bond rating agencies will remove any City sanitary sewer general obligation debt from the calculation of City debt ratios and debt burdens. This is a standard practice of the bond rating agencies.

FISCAL IMPACT: For FY 2005, the increase from \$0.40 to \$0.60 will raise an additional \$1.1 million which will be used to fund sanitary sewer capital-related costs (\$0.6 million in new debt service and \$0.5 million for new cash capital) for a total of \$3.3 million. By the year FY 2007, the rate increase to \$1.00 per 1,000 gallons of usage will raise some \$5.6 million in revenues annually to be available to fund needed sanitary sewer operating and capital costs. The funding and rate increase plan for FY 2006 and FY 2007 is also subject to possible future revision, as changes to the City's sanitary sewer capital needs, federal and state environmental requirements and fiscal condition changes.

INFORMATION ON PROPOSED ORDINANCE

Title

AN ORDINANCE to amend and reordain Section 5-6-26 (SEWER LINE MAINTENANCE CHARGE IMPOSED; PROVISIONS FOR COLLECTION; LIENS AND CESSATION OF WATER SERVICE FOR DELINQUENT CHARGES) of Article B (SEWAGE DISPOSAL AND DRAINS), Chapter 6 (WATER AND SEWER), Title 5 (TRANSPORTATION AND ENVIRONMENTAL SERVICES) of The Code of the City of Alexandria, Virginia, 1981, as amended.

Summary

The proposed ordinance increases the sewer line maintenance charge assessed with the water bill for each premises from forty cents per thousand gallons of water supplied to sixty cents per thousand gallons.

ORDINANCE NO. _____

AN ORDINANCE to amend and reordain Section 5-6-26 (SEWER LINE MAINTENANCE CHARGE IMPOSED; PROVISIONS FOR COLLECTION; LIENS AND CESSATION OF WATER SERVICE FOR DELINQUENT CHARGES) of Article B (SEWAGE DISPOSAL AND DRAINS), Chapter 6 (WATER AND SEWER), Title 5 (TRANSPORTATION AND ENVIRONMENTAL SERVICES) of The Code of the City of Alexandria, Virginia, 1981, as amended.

THE CITY COUNCIL OF ALEXANDRIA HEREBY ORDAINS:

Section 1. That Section 5-6-26 of The Code of the City of Alexandria, Virginia, 1981, as amended, be, and the same hereby is, amended and reordained as follows:

Sec. 5-6-26 Sewer line maintenance charge imposed; provisions for collection; liens and cessation of water service for delinquent charges.

(a) Pursuant to the authority contained in section 15.1-320(7) of the Code of Virginia, and as provided by section 15.1-321 of that Code, there is hereby imposed, upon all parcels of real estate from which sewerage is discharged into lines maintained by the city, a sewer line maintenance charge of ~~one dollar and twenty cents (\$1.20)~~ per quarter or ~~forty cents (\$0.40)~~ \$0.60 for every 1,000 gallons of water supplied per quarter to such parcel by the Virginia-American Water Company, whichever is the greater sum; provided, that if the charge for water supplied to any parcel is billed on a monthly basis, the sewer line maintenance charge imposed on the parcel shall be ~~forty cents (\$0.40)~~ per month or ~~forty cents (\$0.40)~~ \$0.60 for every 1,000 gallons of water supplied per month to such parcel, whichever is greater; and provided, further, that for any parcel of real estate having more than one meter for the measurement of water consumption attributable to that parcel, one or more of which meters measures only water which will not be discharged into the sanitary sewer lines of the city, that parcel shall be charged as provided herein on the total water consumption attributable to that parcel after subtracting the amount of water not discharged into the sanitary sewer lines of the city.

(b) For the purpose of this article, bills shall be considered monthly bills if submitted 12 times per year for periods of approximately one month each and quarterly bills if submitted four times per year for periods of approximately three months each.

(c) The sewer line maintenance charge shall in every case be collected by the Virginia-American Water Company from the owner, lessee or tenant of each parcel, or some or all of them, and remitted by the water company to the city in such manner and on such terms as shall be agreed upon by the water company and the city council, consistent with the provisions of this section. In the event any such charges are unpaid 30 days after the date they are billed by the water company as hereinabove provided, interest shall at that time begin to accrue thereon at the rate of one percent per month, and the owner, lessee or tenant, as the case may be, of the parcel of real estate on which the charge was imposed shall, until such charges shall be paid with interest to the date of payment, cease to dispose of sewage or industrial waste originating from or on such real estate by discharge thereof directly or indirectly into the sewer line maintained by the city, and if such owner, lessee or tenant shall not cease disposal within two months thereafter, the water company shall cease supplying water thereto unless the Director of the Alexandria Health Department shall certify that the shutting off of the water will endanger the health of the occupants of the premises or the health of others. Such charges and interest thereon shall constitute a lien against the property, ranking on a parity with liens for unpaid taxes.

Section 2. That this ordinance shall become effective on July 1, 2004.

WILLIAM D. EUILLE
Mayor
