I. DISCUSSION

REQUEST

The applicant, Richard Smith, requests an amendment to a special use permit to allow delivery at an existing restaurant located at 610 Montgomery Street.

SITE DESCRIPTION

The subject property is one lot of record with 17 feet of frontage on Montgomery Street, 92 feet of depth and a total lot area of 1,548 square feet. The site is developed with a two-story commercial building. Access to the property is from Montgomery Street.

The surrounding area is occupied by a mix of commercial and office uses. Immediately to the north is an office building; to the east is the Stardust restaurant; to the west is Wendy's; and to the south is an alley and a school for dance at 816 N. St. Asaph Street.

BACKGROUND

On September 16, 2006, City Council granted Special Use Permit #2006-0055 for the operation of a restaurant. Special Use Permit #2008-0065 was approved on October 21, 2008 for an administrative change of ownership to the applicant

PROPOSAL

The applicant is proposing to add delivery service to the existing restaurant.

- Hours: Existing SUP approval for 5:30 a.m. to 11:00 p.m., daily
- Number of seats: 28 indoor seats
- Number of delivery vehicles: 1 vehicle to be used in inclement weather. "Green" delivery (walking, scooters, etc.) is to be used at all other times
- Noise Impacts: None anticipated
- Trash/Litter: Cardboard boxes and from general restaurant operations. Trash and garbage will be deposited and stored in the

commercial dumpster on site. The applicant proposes approximately ½ dumpster of trash and garbage per week. Trash will be collected at least once per week, or more if necessary.

PARKING

According to Section 8-200(A)(8) of the Zoning Ordinance, a restaurant requires one parking space for every four seats. A restaurant with 28 seats is required to provide seven off-street parking spaces. In this case, there is no parking on the property, however, a seven space (?) parking reduction was approved as part of SUP#2006-0055.

The applicant anticipates that customers will primarily be area workers and local residents who will walk to the shop. In addition, the applicant has a signed parking agreement for seven parking spaces at the Sheraton Suites, located one block away at 801 N. St. Asaph Street.

ZONING/MASTER PLAN DESIGNATION

The subject property is located in the CDX/Commercial Downtown (Old Town North) zone. Section 4-603 of the Zoning Ordinance allows a restaurant in the CDX zone only with a special use permit.

The proposed use is consistent with the Old Town North Small Area Plan chapter of the Master Plan which designates the property uses consistent with CDX.

II. STAFF ANALYSIS

Staff supports the addition of delivery to this new pizza restaurant on Montgomery Street. The subject restaurant had been approved as a coffee shop in 2006, and has been undergoing renovations to change to a pizza restaurant following an administrative change of ownership in October 2008.

The applicant is proposing to operate delivery to service the local neighborhood businesses and residents. He plans to offer “green” delivery, including walking and scooters, when weather permits. In inclement weather, he would like the option of providing delivery using an automobile. The immediate area includes a mix of commercial and office buildings, and other restaurants.

Staff does have concerns about the lack of availability of parking on the site, and parking for a delivery vehicle in particular. The original SUP for a restaurant on this site included a parking reduction of seven required parking spaces, with an agreement that the owner at the time would provide spaces at the Sheraton Hotel, located at 801 N. St. Asaph Street. The current applicant has continued a parking agreement with the Sheraton for seven parking spaces. Because there is an approved parking reduction for these spaces, staff

feels that the applicant can use one of these spaces as a dedicated space for delivery vehicles. It should also be noted that there is street parking directly in front of the subject property. To ensure that traffic is not blocked as a result of a delivery vehicle, staff has included a condition that prohibits drivers from double parking their delivery vehicles along Montgomery Street.

Additionally, due to the lack of landscaping along the sidewalk on this block, staff has conditioned that the applicant provide landscape containers/planters along the building frontage. Staff feels that this will provide needed landscaping in a location where it is not feasible to add street trees due to the lack of tree wells along the sidewalk.

Subject to the conditions listed below in Section III of this report, staff recommends approval of this special use permit request.

III. RECOMMENDED CONDITIONS
