## I. DISCUSSION

### REQUEST

The applicant, King Thai Kitchen, Inc. d/b/a Sam Phao, requests a special use permit amendment to add delivery service and remove condition language requiring off-street parking at an existing restaurant located at 1019 King Street.

### SITE DESCRIPTION

The subject property is one lot of record with 15.4 feet of frontage on King Street, 100 feet of depth and a total lot area of 1,540 square feet. The site is developed with a two-story building with the subject restaurant occupying 1,470 square feet of space on the first and second floors. Access to the site is from either King Street or a public alley behind the property.

The surrounding area is occupied by a mix of retail and office uses. Immediately to the north are office townhouses. To the south are a restaurant and a home goods boutique. To the east is a children's toy store and to the west is a bookstore.

### BACKGROUND

On March 24, 1990, City Council granted Special Use Permit #2359 to Quynh-Dao Nguyen for operation of a restaurant located at 1019 King Street. Ownership of the business has changed several times between 1990 and 2003. On June 14, 2003, City Council granted SUP #2003-0055 to the SFC Group, LLC to change ownership and to increase hours of operation of the restaurant. Staff administratively approved Special Use Permit #2009-0017 on May 27, 2009 to change the ownership of the existing restaurant to King Thai Kitchen, Inc.

On August 11, 2009 staff visited the subject property to determine if the business was in compliance with the conditions of its special use permit. The one violation staff found, that the applicant does not provide seven parking spaces behind the restaurant, is part of the applicant's current request.

### PROPOSAL

The applicant requests removal of Condition #8 of SUP#2009-0017 requiring the provision of seven off-street parking spaces behind the restaurant to accommodate restaurant patrons and employees. The applicant also requests to add delivery service, which though not expressly prohibited in SUP conditions, was not a part of the previous owner's application in SUP2003-0055.

<u>Hours:</u>	11:00am – 10:00pm daily
<u>Number of seats:</u>	50 seats
<u>Type of service:</u>	Table service, carry-out, bar service and delivery
<u>Number of customers:</u>	No changes from prior Special Use Permit approval
<u>Alcohol:</u>	On-premises alcohol service only
<u>Entertainment:</u>	No live entertainment is proposed
<u>Delivery Vehicles:</u>	One delivery vehicle is proposed
<u>Noise:</u>	No changes from prior Special Use Permit approval
<u>Trash/Litter:</u>	No changes from prior Special Use Permit approval

#### PARKING

The subject property is located within the Central Business District (CBD). According to Section 8-300 (B) of the Zoning Ordinance, restaurants located within the CBD are exempt from parking requirements. However, Condition #8 of SUP#2003-0055 required the applicant to provide seven off-street spaces behind the building. As explained in more detail in Section II of this report, staff has found that the applicant does not have seven spaces available behind the building and therefore recommends changes to the SUP conditions regarding parking.

#### BOARD OF ARCHITECTURAL REVIEW

The location of the proposed restaurant is within the boundaries of the Old and Historic Alexandria District and is under the jurisdiction of the Old & Historic Alexandria Board of Architectural Review (BAR.) All exterior changes to the building that are visible from the public right-of-way will require the applicant to obtain approval from the Old and Historic Board of Architectural Review. Such exterior changes include, but are not limited to: the proposed signage, awnings, and lighting, and any new or replacement signage, lighting, window replacement, fencing, kitchen exhaust and/or new HVAC vents or fixtures, or other alterations visible from a public right-of-way.

ZONING/MASTER PLAN DESIGNATION

The subject property is located in the KR / King Street Retail zone. Sections 6-702(A)(2) (k) and 6-702(B)(1)(a) of the Zoning Ordinance allows a restaurant in the KR zone only with a special use permit.

The proposed use is consistent with the Old Town Small Area Plan chapter of the Master Plan which designates the property for retail/commercial use.

**II. STAFF ANALYSIS**

Staff supports the applicant's request to add delivery service at the existing restaurant and to remove a condition requiring the provision of seven off-street parking spaces behind the restaurant. The delivery service proposed by the applicant is small, reasonable, and can be accommodated at this location. The removal of the existing parking condition acknowledges that the current applicant does not have access to seven parking spaces behind the building. The removal of the condition and the addition of the existing standard condition also represent a consistent approach toward parking requirements for small restaurants along King Street.

Condition #8 requiring seven off-street parking spaces behind the restaurant first appeared in SUP#2003-0055, consistent with the prior owner's suggestion that these parking spaces were available in that location. However, the current applicant asserts that seven parking spaces do not exist on the restaurant property. Staff has confirmed that only one standard-sized parking space exists behind the building on restaurant property. Therefore staff believes that it is reasonable to correct this discrepancy.

The applicant for the current request proposes to correct this by asking for the removal of the entire condition requiring off-street parking. Staff does not object to this request since it is consistent with the more recent approach toward parking requirements for restaurants similar to the subject restaurant. In the last several years, multiple restaurants located on (or in close proximity to) King Street and with less than or approximately 100 seats have been approved by SUP with without a requirement for a specific number of reserved off-street parking spaces. Examples of such restaurants include: Sandella's, Thomas Sweet, The Burger Joint, Chipotle, Bittersweet, The Uptowner Café, and Bistrot Lafayette. In each case mentioned, staff has recommended that the restaurant be required to participate in any shared parking program that is developed as a result of the recommendations contained in the King Street Retail Strategy, a project currently underway and now known as the Old Town Comprehensive Parking Study (2009). Staff has recommended adding this condition for the current request as well.

As noted previously, the applicant seeks to add delivery service at this location. This request is reasonable and staff does not object as long as the delivery vehicle parks in the one off-street parking space located behind the restaurant. Staff has included a new condition that limits delivery service to one vehicle and requires that the vehicle be parked in that space.

Subject to the conditions contained in the staff report, staff recommends approval of this Special Use Permit request.
